

## **Addendum to West and Shires Permit Scheme (WaSP)**

19 February 2020

The Street and Road Works (Amendments Relating to Electronic Communications) (England) Regulations come into force from 1<sup>st</sup> April 2020 and the Department for Transport (DfT) are withdrawing the current Electronic Transfer of Notices (EToN) system.

Therefore, in line with this, from 1<sup>st</sup> April 2020 all references to 'EToN' in all West and Shires Permit Scheme documentation shall be replaced with 'The DfT digital service for planning and managing roadworks'. When the scheme is next reviewed and approved this amendment will be inserted into the text of all the scheme documentation.

Signed:

A handwritten signature in black ink that reads "Gary Parton". The signature is written in a cursive style and is positioned above a horizontal dotted line.
