

Interactive Roadworks Map

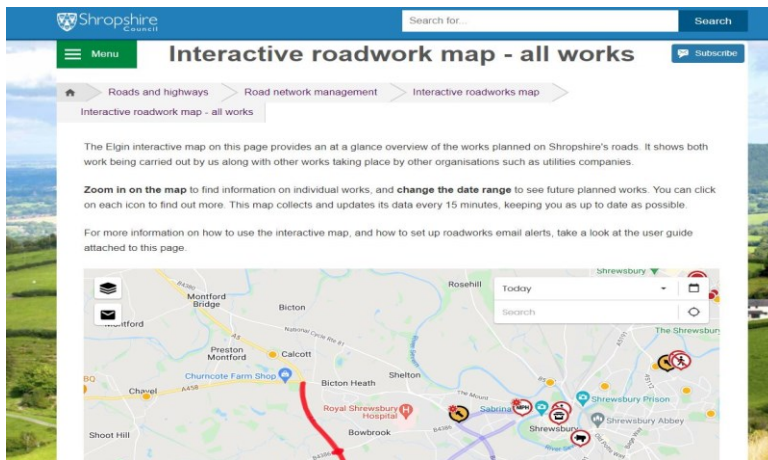

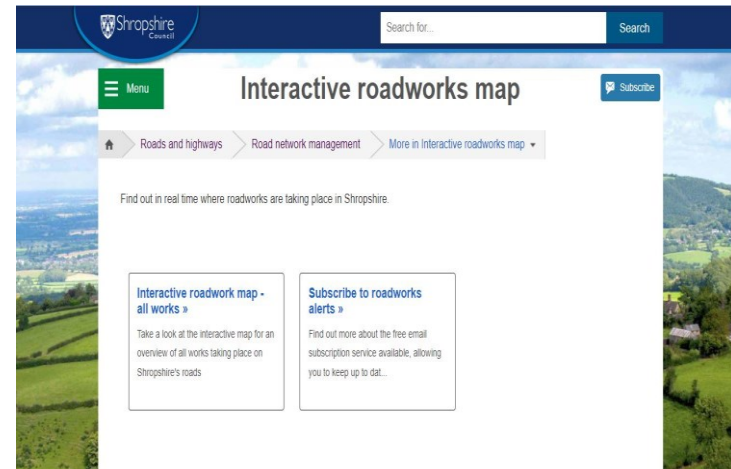

User guide

Access from Shropshire Council Web Page

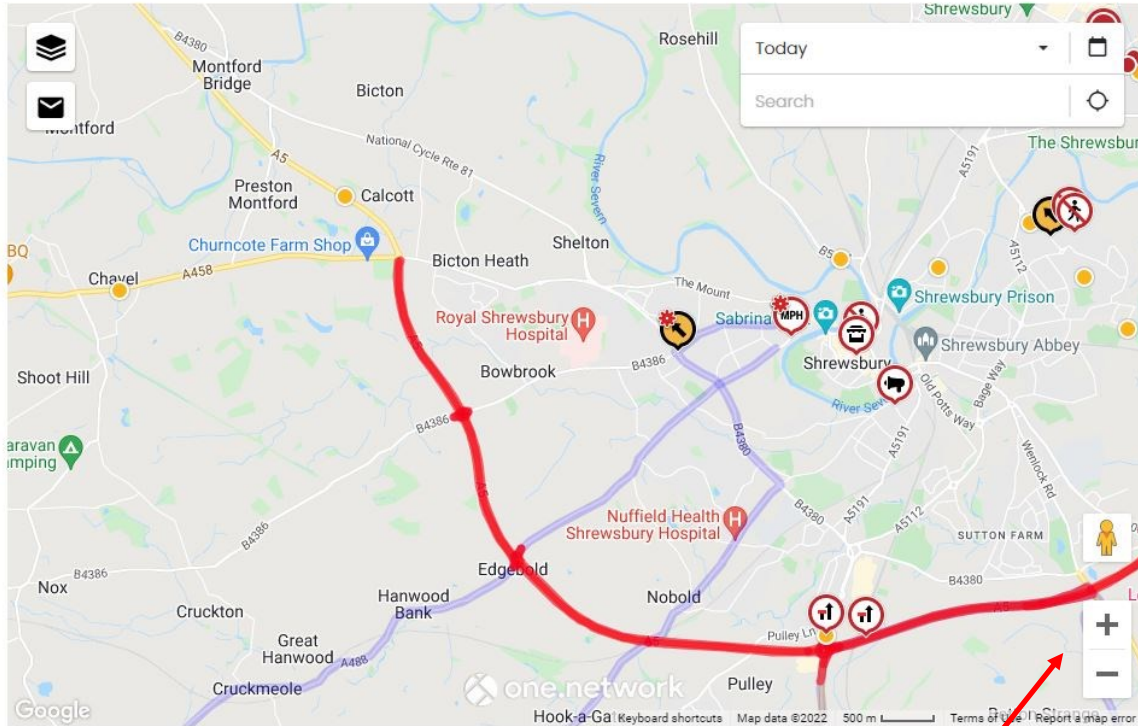

- To access the Map from the Shropshire Council website follow the steps below.
- Click on the green menu button.
- Select Transport and streets
- Select Road network management
- Select Interactive roadworks map

- Click on the Interactive roadwork map - all works box

Map is displayed on web page.

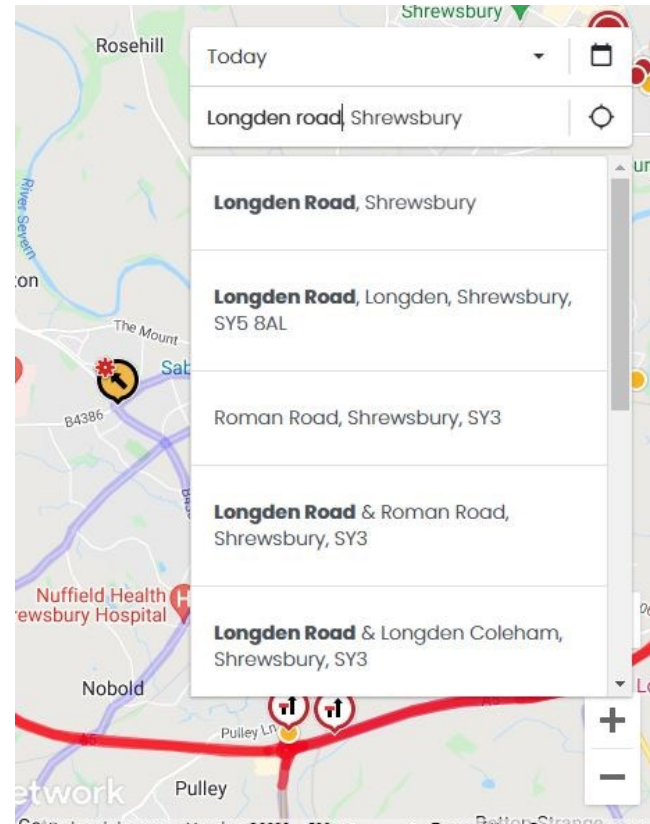

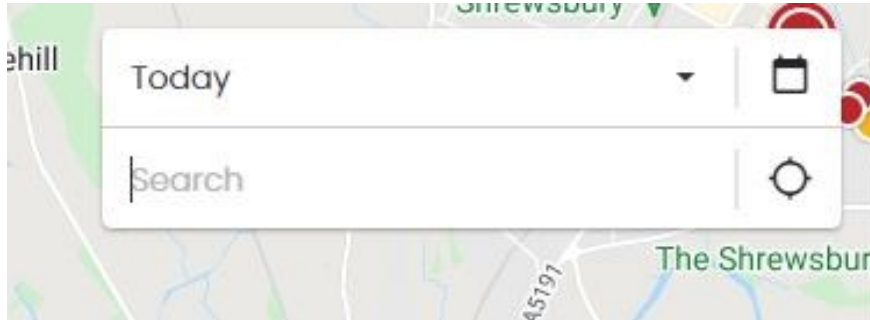

- To move around the map to find a location. Click on the map and press and hold your left mouse button whilst moving the mouse.

- To zoom in and out of the map use the + and – buttons located in the bottom right hand corner.

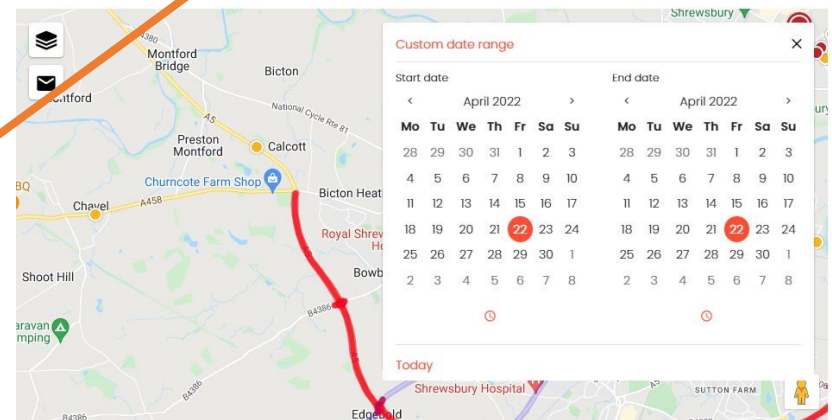

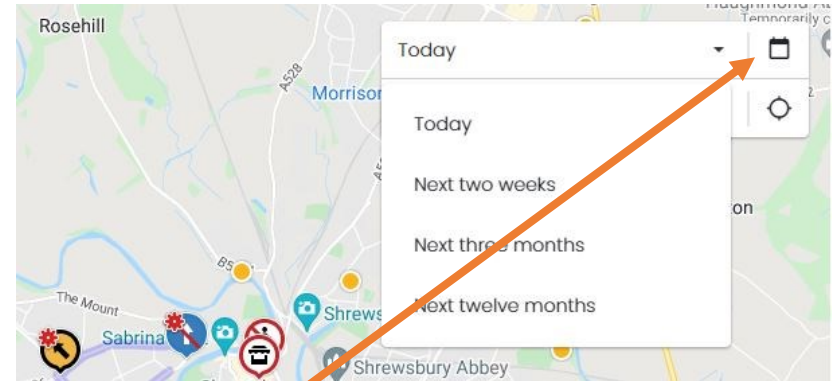

Search for a location

- Use the Search box located in the top right hand corner, type in the location required and select one of the options from the drop down box that will appear.

Search by date

- The default search date is always set to Today - to search for works on a specific date
- Click on the downward arrow on the Today box
- You can then select either Today, Next two weeks, Next three months or Next twelve months.
- For a more specific date click on the calendar icon next to the Today box and you can select exact start and finish dates.

Map icons and meanings included on map

- Click on an icon to reveal further details on the expected timescale, the works promoter, the permit reference number if applicable and diversion routes where required.

Important Map Icons

	• Incidents happening on the network
	• Highway Authority promoted works. Icons are coloured by expected level of impact. Red for Delays likely, amber for delays possible, green for Delays unlikely.
	• Statutory undertakers categorised into the type of Utility works , including Highways England and rail works.
	• Non Streetworks Activities (NSAs) including Skips and Scaffolding.
	• Closure information provided by Subscribers to Traffic Management
	• Diversion and other Traffic intervention information provided by Subscribers
	• Closures and Bridge Closures managed in Real-time by Subscribers to Live Link
	• Events
	• Planned works by unsubscribing Highway Authorities

Road Closures and Diversion Routes

- Road closures are marked with a Red no entry sign as an icon, clicking on the icon will show further details including the works promoter and the potential duration of the works.
- The diversion route is shown on the blue route, clicking on the yellow icon will display further details.

- Option 2 - Searched location – this option will show just the area searched in this example Pontesbury. Surrounding villages will not be included.

The screenshot displays a web application interface for setting up email alerts. On the left, a map shows the area around Pontesbury, Shrewsbury, with a red dot indicating the searched location. The map includes labels for 'Lea', 'Lea Cross', 'Arscott', 'Plealey', 'Oaks', 'Spring Lea Fishery', and 'Earl's Hill Nature Reserve'. A search bar at the top of the map shows 'Pontesbury, Shrewsbury'. On the right, the 'Email Alerts' configuration panel is visible. It includes a sign-up instruction, an email address field containing 'psbenniman@yahoo.co.uk', a description field, a dropdown menu for 'Who are you', a dropdown menu for 'Get alerts on' showing 'Searched location', and checkboxes for 'Public events' and 'Roadworks'. A 'Traffic impact' slider is set to 'All works', and the 'Frequency' is set to 'Daily'. At the bottom of the panel are 'Reset' and 'Set Alert' buttons.

Reset **Set Alert**

- Option 3 – User Defined area – this allows you to draw a polygon on the map to show the locations you require the alerts on.

The screenshot displays a map interface for setting alerts. A black polygon is drawn on the map, covering a region that includes Pontesbury, Main Rd, and Earl's Hill Nature Reserve. The map shows various landmarks such as a Co-op Food store, a school, and a nature reserve. The interface includes a 'Get alerts on' dropdown menu set to 'User defined area', a 'Get alerts for' section with checkboxes for 'Public events' and 'Roadworks', and a 'Traffic impact' slider ranging from 'High impact' to 'All works'.

- Alerts for both Public events and Roadworks are selected as a default.
- Frequency of alerts is set to daily as a default this can be changed to either Weekly or Monthly.
- Select Set Alert to complete the process.
