TREASURY STRATEGY 2012/13

Responsible Officer Rachel Musson

e-mail: rachel.musson@shropshire.gov.uk

Tel: (01743) 252007

1. Summary

1.1 The report proposes the Treasury Strategy for 2012/13 and recommends Prudential Indicators for 2012/13 to 2014/15. The report is technical in nature but the key points to note are:-

- The proposed reform of the Housing Revenue Account (HRA) subsidy arrangements will take place on 28 March 2012. This will involve the Council paying funds of £83.8 million to the government which will remove the Council from the HRA subsidy system. The Public Works Loan Board (PWLB) are providing loans at 0.85% lower than the usual PWLB interest rates to fund this payment which provides a compelling reason to utilise this borrowing availability. The overall impact should be beneficial to the Council as it will no longer have to make future annual subsidy payments to the government from 1 April 2012.
- Borrowing is largely driven by the Capital Programme Strategy. From 2011/12 the Council's borrowing requirement has been significantly reduced due to the Government changing the way in which it funds the Council's capital expenditure and providing capital grants rather than supported borrowing approvals with on-going revenue support grant to meet the financing costs of the borrowing. The Treasury Strategy includes prudential borrowing of £17.4 million for 2012/13 of which £8.0 million relates to previously approved schemes that will generate savings which will cover the revenue costs of the borrowing. Every attempt is being made to reduce the remaining £9.4 million of prudential borrowing in 2012/13 through generating additional capital receipts.
- The Council's lending continues to be restricted to UK Banks, one Building Society, Nationalised and Part Nationalised Institutions which meet Sector's creditworthiness policy, other Local Authorities and the UK Government.
- The internal Treasury Team will continue to look for opportunities to make savings by actively managing the cash and debt portfolio in accordance with the Treasury Strategy.

- The claim for the £1 million deposit placed by Bridgnorth District Council with the Icelandic Bank, Landsbanki has finally been accepted as a priority claim by the Landsbanki Winding up Board. Priority creditors are expected to receive an estimated 98% of the value of their deposits back in a series of distributions. The first distribution is expected to be made to the Council early in the New Year but the exact date is still to be confirmed. The timeline for future payments may run until 2018.
- The bank rate is expected to remain at its historically low level of 0.50% until September 2013 when it is forecast to rise to 0.75%. Every 0.25% increase in the bank rate equates to around £250,000 of additional interest receivable per annum on the Council's investments.
- Long term borrowing rates are expected to be higher than investment rates during 2012/13 therefore long term borrowing may be postponed in order to maximise savings in the short term. If borrowing is not undertaken in 2012/13 this would result in savings of around £193,160.
- The Council has agreed to offer to lend funds to Shropshire Housing Ltd (which incorporates both South Shropshire Housing Association and the Meres & Mosses Housing Association) and Severnside Housing at an agreed rate. In the current climate Housing Associations can find it difficult to obtain funding for new affordable housing. It has been agreed to offer to lend up to £10 million to each of these Housing Associations in order to support the building of affordable housing and shared office accommodation in Shropshire. For security purposes, each loan will be secured against existing assets held by or owned by the Housing Association.

2. Recommendations

2.1. Recommendations to Cabinet

Cabinet recommend that Council:-

- a) Approve, with any comments, the Treasury Strategy for 2012/13.
- b) Approve, with any comments, the Prudential Indicators, set out in Appendix 1, in accordance with the Local Government Act 2003.
- c) Approve, with any comments, the Investment Strategy, set out in Appendix 2 in accordance with the DCLG Guidance on Local Government Investments.
- d) Approve, with any comments, the Minimum Revenue Provision (MRP) Policy Statement, set out in Appendix 3.
- e) Approve, with any comments, the Treasury Policy Statement and adopt the four clauses in Appendix 4.
- f) Authorise the Section 151 Officer to exercise the borrowing powers contained in Section 3 of the Local Government Act 2003 and to manage the Council's debt portfolio in accordance with the Treasury Strategy.
- g) Authorise the Section 151 Officer to use Foreign Banks which meet Sector's creditworthiness policy and Money Market Funds again if required when money markets stabilise.

- h) Note the proposed Prudential Indicators would enable the Authority to use the equivalent of up to 3% of Council Tax in 2012/13 or future years, to fund borrowing under the Prudential Code should the Council decide to do so.

2.2. Recommendations to Audit Committee

- i) Audit Committee are asked to accept the position as set out in this report.

2.3. Recommendations to the Council

- j) Approve, with any comments, the Treasury Strategy for 2012/13.
- k) Approve, with any comments, the Prudential Indicators, set out in Appendix 1, in accordance with the Local Government Act 2003.
- l) Approve, with any comments, the Investment Strategy, set out in Appendix 2 in accordance with the DCLG Guidance on Local Government Investments.
- m) Approve, with any comments, the Minimum Revenue Provision (MRP) Policy Statement, set out in Appendix 3.
- n) Approve, with any comments, the Treasury Policy Statement and adopt the four clauses in Appendix 4.
- o) Authorise the Section 151 Officer to exercise the borrowing powers contained in Section 3 of the Local Government Act 2003 and to manage the Council's debt portfolio in accordance with the Treasury Strategy.
- p) Authorise the Section 151 Officer to use Foreign Banks which meet Sector's creditworthiness policy and Money Market Funds again if required as money markets continue to stabilise.
- q) Note the proposed Prudential Indicators would enable the Authority to use the equivalent of up to 3% of Council Tax in 2012/13 or future years, to fund borrowing under the Prudential Code should the Council decide to do so.

REPORT

3. Risk Assessment and Opportunities Appraisal

- 3.1. The recommendations contained in this report are compatible with the provisions of the Human Rights Act 1998.
- 3.2. There are no direct environmental, equalities or climate change consequences arising from this report.
- 3.3. Compliance with the CIPFA Code of Practice on Treasury Management, the Council's Treasury Policy Statement and Treasury Management Practices and the Prudential Code for Capital Finance together with the rigorous internal controls will enable the Council to manage the risk associated with Treasury Management activities and the potential for financial loss.

4. Financial Implications

- 4.1. There are no direct financial implications arising from this report. The revenue implications of funding the HRA payment will be met from the savings achieved within the HRA from not making future annual housing subsidy payments. These payments are due to be abolished from 1 April 2012.

5. Background

- 5.1. The Council defines its treasury management activities as "the management of the authority's investments and cash flows, its banking, money market and capital market transactions, the effective control of the risks associated with those activities, and the pursuit of optimum performance consistent with those risks".
- 5.2. This strategy statement has been prepared in accordance with CIPFA's Code of Practice (2011). Accordingly, the Council's Treasury Strategy will be approved annually by full Council and there will also be a mid year review report. In addition, treasury management update reports will be submitted quarterly to Strategic Management Board (SMB) and Cabinet. The aim of these reporting arrangements is to ensure that those with ultimate responsibility for the treasury management function appreciate fully the implications of policies and practices, and that those implementing policies and executing transactions have properly fulfilled their responsibilities with regard to delegation and reporting.
- 5.3. The Council will adopt the following reporting arrangements in accordance with the requirements of the Code:-

Area of Responsibility	Council/Committee/Officer	Frequency
Treasury Management Policy Statement	Full Council/Cabinet	As required
Treasury Strategy/Annual Investment Strategy/MRP Policy	Full Council/Cabinet	Annually before the start of the financial year
Treasury Strategy/Annual Investment Strategy/MRP Policy – mid year report	Full Council/Cabinet	Mid year
Treasury Strategy/Annual Investment Strategy/MRP Policy – updates or revisions at other times	Full Council/Cabinet	As required
Annual Treasury Report	Full Council/Cabinet	Annually by 30 September after the end of the financial year
Treasury Management Monitoring Reports	Reports prepared by Investment Officer to the Treasury & Pensions Service Manager who reports to the S151 Officer	Monthly
Treasury Management Practices	Section 151 Officer	As required
Scrutiny of Treasury Strategy	Audit Committee	Annually before the start of the financial year
Scrutiny of the treasury management performance	Audit Committee	Half yearly

6. Treasury Strategy 2012/13

- 6.1. The Local Government Act 2003 and supporting Regulations requires the Council to have regard to the CIPFA Prudential Code and the CIPFA Treasury Management Code of Practice to set Prudential and Treasury Indicators for the next three years to ensure that capital investment plans are affordable, prudent and sustainable. This report incorporates the indicators to which regard should be given when determining the Council's Treasury Management Strategy for the next financial year.
- 6.2. As the Council is responsible for housing, Prudential Indicators relating to Capital Expenditure, financing costs and the Capital Financing Requirement will be split between the Housing Revenue Account (HRA) and the General Fund. The impact of any new capital investment decisions on housing rents will also need to be considered.
- 6.3. The Act also requires the Council to set out its Treasury Strategy for borrowing and to prepare an Annual Investment Strategy. This sets out the Council's policies for managing its investments and for giving priority to the security and liquidity of those investments.
- 6.4. The proposed Strategy for 2012/13 in respect of the following aspects of the treasury management function is based upon the S151 Officers' view on interest rates, supplemented with leading market forecasts provided by the Council's Treasury Advisor, Sector Treasury Services.
- 6.5. The proposed strategy will focus on the following areas of treasury activity:-

- Treasury limits in force which will limit the treasury risk and activities of the Council.
- The determination of Prudential and Treasury Indicators.
- The current treasury position.
- Prospects for interest rates.
- Capital borrowing strategy.
- Policy on borrowing in advance of need.
- Debt rescheduling opportunities.
- Investment strategy.
- Creditworthiness policy.
- Policy on use of external service providers.
- The MRP strategy.
- Leasing.

6.6. It is a statutory requirement under section 33 of the Local Government Finance Act 1992, for the Council to produce a balanced budget. In particular, Section 32 requires a local authority to calculate its budget requirement for each financial year to include the revenue costs that flow from capital financing decisions. This, therefore, means that increases in capital expenditure must be limited to a level whereby increases in charges to revenue from:-

- increases in interest charges caused by increased borrowing to finance additional capital expenditure, and
- any increase in running costs from new capital projects

are limited to a level which is affordable within the projected income of the Council for the foreseeable future.

7. Treasury Limits for 2012/13 to 2014/15

- 7.1. It is a statutory requirement under Section 3 of the Local Government Act 2003 and supporting Regulations, for the Council to determine and keep under review how much it can afford to borrow. The amount so determined is termed the "Affordable Borrowing Limit". This authorised limit represents the legislative limit specified in section 3 of the Local Government Act 2003.
- 7.2. The Council must have regard to the Prudential Code when setting the Authorised Limit, which essentially requires it to ensure that total capital investment remains within sustainable limits and, in particular, that the impact upon its future council tax levels is 'acceptable'.
- 7.3. Whilst termed an "Affordable Borrowing Limit", the capital plans to be considered for inclusion incorporate those planned to be financed by both external borrowing and other forms of liability, such as credit arrangements. The Authorised Borrowing Limit is to be set, on a rolling basis, for the forthcoming financial year and two successive financial years and is the limit which the Council must not breach. All of the other Prudential Indicators are estimates only and can be breached temporarily but this is very rarely the case. If this did happen it would be reported to Members outlining the reasons for this temporary breach.
- 7.4. The Council are asked to approve these Prudential Indicators.

8. Prudential & Treasury Indicators for 2012/13 to 2014/15

- 8.1. The Prudential Code and CIPFA Code of Practice require the Council to set a number of Prudential and Treasury Indicators. In addition to the specified indicators, we have set 4 further internal indicators for Treasury Management, regarding lower limits on interest rate exposure for both borrowing and investments.
- 8.2. It should be noted that these indicators should not be used for comparison with indicators from other local authorities. Use of them in this way would be likely to be misleading and counter-productive as other authorities Treasury Management policies and practices vary. The most important indicator is prudential indicator number 10 which specifies the authorised limit which cannot be breached under any circumstances. In the event that this indicator was breached a separate report would be brought to Council.
- 8.3. A key issue facing the Council is the impact of the Housing Revenue Account (HRA) reform which will take place on 28 March 2012. This will involve the Council paying funds to the Communities for Local Government (CLG) which will remove the Council from the HRA subsidy system, the expected payment is currently £83.8 million. The overall impact should be beneficial to the Council as it will no longer have to make future annual housing subsidy payments to the government from 1 April 2012.
- 8.4. The CIPFA Code of Practice requires the Council to allocate existing and future borrowing costs between housing and the General Fund as the current statutory method of apportioning debt charges between the General Fund and the HRA will cease. There are three options within the Code to split loans, the one pool option, the two pool option or the three pool option.
- 8.5. The one pool option is in effect a continuation of the current system. All existing loans and any new loans taken out in the future, whether for HRA or General Fund purposes, are included in one consolidated pool. The two pool approach recognises the splitting of the current loan portfolio and the subsequent addition of the debt to cover the settlement payment to produce a post settlement position for separate General Fund and Housing pools. The three pool option would mean three separate pools are set up, one for existing loans prior to making the settlement payment and two new pools for General Fund and HRA with all future borrowing being allocated between the two. The two pool approach is the preferred option by CIPFA and DCLG, this approach is also supported by our treasury advisor so is therefore the Council's preferred option. The following prudential and treasury indicators have been updated to include the impact of the HRA reform.
- 8.6. **Prudential Indicator 1 & 2** - The ratio of financing costs indicator shows the trend in the cost of financing capital expenditure as a proportion of the Authority's net revenue. This indicator also shows the ratio of the HRA financing costs to the HRA net revenue stream.

Prudential Indicator No. 1 & 2	2011/12 Estimate	2012/13 Estimate	2013/14 Estimate	2014/15 Estimate
	%	%	%	%
Non HRA ratio of financing costs (gross of investment income) to net revenue stream	10.7	11.6	12.2	12.2
Non HRA ratio of financing costs (net of investment income) to net revenue stream	10.4	11.4	12.0	12.0
HRA Ratio of financing costs to HRA net revenue stream	17.8	35.1	34.6	34.2

- 8.7. The 2012/13 to 2015/16 Capital Budget includes prudential borrowing of £17.4 million for 2012/13, £6.5 million for 2013/14 and £0.5 million for 2014/15.
- 8.8. The prudential borrowing in 2012/13 includes £8.0 million in carbon efficiency and other spend to save schemes which will generate savings to cover the revenue costs of prudential borrowing. Options are being explored to reduce the remaining £9.4 million as detailed in the capital strategy report. The debt charges associated with these projects will be met from within existing resources and savings generated from spend to save schemes.
- 8.9. **Prudential Indicator 3** - In accordance with Prudential Guidelines the costs of all prudential borrowing, are included in prudential indicators even though they will be funded from existing revenue budgets. The HRA budgetary requirements for the authority have also been calculated by taking the difference between the existing capital programme and any changes proposed in the new capital programme. It is anticipated that there will be no unsupported borrowing relating to the HRA therefore the addition or reduction to average weekly housing rents for 2012/13 to 2014/15 is zero. The figures quoted include Prudential Borrowing already utilised totalling £18.8 million from 2006/07 to 2010/11.

Prudential Indicator No. 3	2012/13	2013/14	2014/15
Estimates of impact of Capital Investment decisions in the present capital programme	£ p	£ p	£ p
Cost of capital investment decisions funded from re-direction of existing resources (Band D, per annum)	28.29	39.26	44.00
Cost of capital investment decisions funded from increase in council tax (Band D, per annum)	0	0	0
Cost of capital investment decisions funded from increase in average housing rent per week	0	0	0
Total	28.29	39.26	44.00

- 8.10. **Prudential Indicator 5, 8, 9** - A key indicator of prudence is that net external borrowing should not, except in the short term, exceed the capital financing requirement (CFR). The capital financing requirement is the maximum we would expect to borrow based on the current capital programme. Compliance with the indicator will mean that this limit has not been breached. Gross borrowing includes debt administered on behalf of the Borough of Telford and Wrekin, Magistrates Courts and Probation Service. It also includes the debt transferred from Oswestry Borough Council and North Shropshire District Council on the 1st April 2009. In accordance with the Code the HRA Capital Financing requirement has been calculated separately and has been updated due to the HRA reform which is due to take place on the 28 March 2012.

Prudential Indicator No. 5 * No. 8 & 9^	2010/11 Actual	2011/12 Estimate	2012/13 Estimate	2013/14 Estimate	2014/15 Estimate
	£ m	£ m	£ m	£ m	£ m
Net Borrowing & Capital Financing Requirement:					
Non HRA Capital Financing Requirement^	282	284	289	283	270
HRA Capital Financing Requirement^	1	86	86	86	87
Total CFR	283	370	375	369	357
Gross Borrowing including HRA*	278	368	374	368	363
Investments*	66	70	70	70	70
Net Borrowing*	212	298	304	298	293

8.11. **Prudential Indicator 6 & 7** - The estimated capital expenditure has been split between Non HRA and HRA and represents commitments from previous years to complete ongoing schemes, the estimated HRA settlement figure payable on 28 March 2012, the expenditure arising from the proposed new schemes within the capital programme for 2012/13, and the estimated expenditure for 2013/14 and 2014/15.

Prudential Indicator No. 6 & 7	2010/11 Actual	2011/12 Estimate	2012/13 Estimate	2013/14 Estimate	2014/15 Estimate
	£ m	£ m	£ m	£ m	£ m
Non HRA Capital expenditure	76.4	65.7	67.5	37.0	29.9
HRA Capital expenditure	4.5	6.3	4.7	2.7	3.4
HRA Settlement	0	83.8	0	0	0

8.12. **Prudential Indicator 10 which must not be breached** - The authorised limit is the borrowing limit set for Shropshire Council and includes the borrowing required due to the HRA reform. This indicator shows the maximum permitted amount of outstanding debt for all purposes. It includes three components:

1. The maximum amount for capital purposes;
2. The maximum amount for short term borrowing to meet possible temporary revenue shortfalls;
3. The maximum permitted for items other than long term borrowing i.e. leasing.

Prudential Indicator No. 10	2011/12	2012/13	2013/14	2014/15
External Debt	£ m	£ m	£ m	£ m
Authorised Limit for External Debt:				
Borrowing	412	485	471	454
Add HRA settlement	84	0	0	0
Other long term liabilities	41	48	47	45
Total	537	533	518	499

8.13. Separately, the Council is also limited to a maximum HRA debt limit through the HRA self financing regime. This limit is as follows:

Prudential Indicator	2011/12	2012/13	2013/14	2014/15
	£ m	£ m	£ m	£ m
HRA Debt Limit	96	96	96	96

8.14. **Prudential Indicator 11** – The more likely outcome for the level of external debt is shown in the operational boundary which the Council is required to set. This is calculated on the same basis as prudential indicator number 10 however, it is seen as a more likely outcome.

Prudential Indicator No. 11	2011/12	2012/13	2013/14	2014/15
External Debt	£ m	£ m	£ m	£ m
Operational Boundary:				
Borrowing	348	439	423	410
Add HRA settlement	84	0	0	0
Other long term liabilities	35	44	42	41
Total	467	483	465	451

8.15. **Prudential Indicator 12** - The estimated external debt is based on the capital programme for 2011/12.

Prudential Indicator No. 12	31/03/11 Actual	31/03/12 Estimate
Actual External Debt	£ m	£ m
Borrowing	278	284
Add HRA settlement	N/A	84
Other long term liabilities	21	19
Total	299	387

8.16. **Prudential Indicator number 13** relates to the Local Authority adopting the CIPFA Code of Practice for Treasury Management in Public Services. The original 2001 Code was adopted by full Council in February 2002. Shropshire Council adopted the revised Code in February 2010.

8.17. **Prudential Indicator 14 & 15** - The Prudential Code requires the Council to set interest rate exposure limits for borrowing and investments.

Prudential Indicator No. 14* Internal Indicator No. 1 ** No. 15 ^ Internal Indicator No. 2 ^^	2012/13	2013/14	2014/15
Borrowing Limits			
	£ m	£ m	£ m
Upper Limit for Fixed Interest Rate Exposure *	439	423	410
Upper Limit for Variable Interest Rate Exposure ^	219	211	205
Lower Limit for Fixed Interest Rate Exposure **	220	212	205
Lower Limit on Variable Interest Rate Exposure ^^	0	0	0

These indicators seek to control the amount of debt exposed to fixed and variable interest rates. Variable rate debt carries the risk of unexpected increases in interest rates and consequently increases in cost. The upper limit for variable rate exposure has been set following advice from Sector, however, this limit is never likely to be reached due to authority's objective to have no more than 25% of outstanding debt at variable interest rates.

Upper limit for fixed rate exposure

Calculation:

A maximum of 100% of the Operational Boundary (£439m in 2012/13) exposed to fixed rates is consistent with the Authority's objective to have a long term stable debt portfolio.

Upper limit for variable rate exposure

Calculation:

For efficient management of the debt portfolio it is considered prudent by Sector to permit up to 50% (£219m in 2012/13) of the operational boundary to be borrowed at variable interest rates.

Lower limit for fixed rate exposure

Calculation:

Upper limit for fixed rate exposure less the maximum permitted borrowing at variable interest rates

Lower limit for variable rate exposure

Calculation:

To be consistent with the Authority's objective to have a long term stable portfolio all of the debt portfolio could be at a fixed rate therefore the lower limit for variable rate exposure should be nil.

Prudential Indicator No. 14* Internal Indicator No. 3 ** No. 15 ^ Internal Indicator No. 4 ^^	2012/13	2013/14	2014/15
Investment Limits			
	£ m	£ m	£ m
Upper Limit for Fixed Interest Rate Exposure *	200	200	200
Upper Limit for Variable Interest Rate Exposure ^	200	200	200
Lower Limit for Fixed Interest Rate Exposure **	0	0	0
Lower Limit on Variable Interest Rate Exposure ^^	0	0	0

These indicators seek to control the amount of investments exposed to fixed and variable interest rates. Variable rate investments are subject to changes in interest rates, but have a higher degree of liquidity and action can be taken at short notice in response to interest rate changes.

Upper limit for fixed rate exposure

Calculation:

Maximum amount of fixed rate investments in order to maintain a stable investment portfolio.

Upper limit for variable rate exposure

Calculation:

For the purposes of efficient portfolio management in response to interest rate conditions a maximum potential exposure to variable rates of £200m in 2012/13 is recommended.

Lower limit for fixed rate exposure

Calculation:

A lower limit of zero is locally set so as to enable full advantage to be taken of market conditions.

Lower limit for variable rate exposure

Calculation:

A lower limit of zero is locally set so as to enable full advantage to be taken of market conditions.

8.18. **Prudential Indicator 16** - The upper and lower limit for the maturity structure of borrowings is detailed below.

Prudential Indicator No. 16	Upper Limit	Lower Limit
Maturity Structure of Fixed Rate Borrowing 2012/13*	%	%
Under 12 months	15	0
12 months & within 24 months	15	0
24 months & within 5 years	45	0
5 years & within 10 years	75	0
10 years & above	100	50

- **The internal limit is to have no more than 15% of total outstanding debt maturing in any one financial year. This is to ensure that the risk of having to replace maturing debt at times of high interest rates is controlled.**

8.19. **Prudential Indicator 17** - The Council is required to set maximum levels for investments over 364 days for both the internal treasury team and an external fund manager if appointed.

Prudential Indicator No. 17	2012/13	2013/14	2014/15
Investment Limits			
	£m	£m	£m
Upper Limit for Total Principal Sums Invested for over 364 days:			
Externally Managed (if appointed)	30	30	30
Internally Managed	40	40	40

Rationale: The limit for the external cash fund manager has been set at £30 million in the event that an external manager is appointed. The limit for the internal treasury team has been set in order for the authority to potentially take advantage of more stable returns going forward and the potential to lend to local Housing Associations.

9. Current Treasury Position

9.1. The Council's treasury position at 31 December 2011 is set out below:-

Outstanding debt for capital purposes	Actual
	£m
Long-term fixed rate PWLB	229
Long term fixed rate – Market	49
Total	278
 Investments	 £m
Internally managed - long term (1 Year)	10
- short term cash flow	69
Total	79

10. Prospects for Interest Rates

10.1. The Council retains the services of Sector Treasury Services as adviser on treasury matters and part of the service provided is to help the Council to formulate a view on interest rates. The following table gives the latest Sector central view:-

Sector's interest rate forecast as at December 2011

	Mar 2012	June 2012	Sept 2012	Dec 2012	Mar 2013	June 2013	Sept 2013	Dec 2013	Mar 2014
	%	%	%	%	%	%	%	%	%
Bank Rate	0.50	0.50	0.50	0.50	0.50	0.50	0.75	1.00	1.25
5yr PWLB rate	2.30	2.30	2.30	2.40	2.50	2.60	2.70	2.80	2.90
10yr PWLB rate	3.30	3.30	3.40	3.40	3.50	3.60	3.70	3.80	4.00
25yr PWLB rate	4.20	4.20	4.30	4.30	4.40	4.50	4.60	4.70	4.80
50yr PWLB rate	4.30	4.30	4.40	4.40	4.50	4.60	4.70	4.80	4.90

The Council has budgeted for a cost of borrowing of 4.50% in 2012/13. Interest received on revenue balances is expected to be 0.70% in 2012/13.

Sector's current interest rate view is that Bank Rate will: -

- rise from its current level of 0.50% to 0.75% in September 2013.
- reach 1% by December 2013.
- rise to 1.25% by March 2014.

The effect on interest rates for the UK, is expected to be as follows:-

Short-term interest rates (investments)

10.2. Taking all the evidence together, it is felt that the bank rate will remain at its current low level of 0.50% until September 2013 when it is expected to rise to 0.75%. The Bank rate is then expected to rise to 1% in December 2013 with a further rise to 1.25% in March 2014. Although rates are expected to rise the next two financial years are still expected to be a time of historically low investment rates. There is a downside risk to this forecast if economic growth remains weaker for longer than expected the start of the increases in Bank Rate will be delayed even further.

Long-term interest rates (borrowing)

10.3. The 50 year PWLB rate is expected to rise gradually from 4.30% to reach 4.50% by the end of the financial year. It is then anticipated to rise further to reach 4.90% by the end of March 2014. There is scope for it to move around the central forecast by + or – 0.25%. The 25 year PWLB rate is also expected to rise gradually from 4.20% to reach 4.40% by the end of the financial year. It is then anticipated to rise to 4.80% by the end of March 2014. The 10 year PWLB rate is expected to rise from 3.30% to reach 3.50% by the end of the financial year. Again further rises are expected in 2013/14. The 5 year PWLB rates are also expected to rise from 2.30% to 2.50% by the end of March 2013 and to 2.90% by the end of March 2014.

11. Capital Borrowing Strategy

11.1. The estimated borrowing requirement for 2012/13 is calculated as follows:

	£m
Prudential Borrowing	17.4
Repayment of loans maturing	8.6
Less Minimum Revenue Provision	(12.0)
Total Borrowing	<u>14.0</u>

Based upon the prospects for interest rates outlined above, the Council will adopt a pragmatic approach to changing circumstances when considering new borrowing. Consideration will be given to the following:-

- i) As long term borrowing rates are expected to be higher than investment rates and look likely to be for the next couple of years or so all new external borrowing may be deferred in order to maximise savings in the short term. The running down of investments also has the added benefit of reducing exposure to interest rate and credit risk during the continued market turmoil. However, in view of the overall forecast for long term borrowing rates to increase over the next few years, consideration will also be given to weighing up the short term advantage of internal borrowing against potential long term

costs if the opportunity is missed for taking market loans at long term rates which will be higher in future years.

- ii) Temporary borrowing from the money markets or other local authorities.
- iii) PWLB variable rate loans for up to 10 years.
- iv) Long term fixed rate market loans at rates below PWLB rates for the equivalent maturity period following the announcement by the Chancellor to increase all PWLB rates by up to 1% following the Comprehensive Spending Review.
- v) Short term PWLB rates are expected to be significantly cheaper than longer term borrowing therefore borrowing could be undertaken in the under 10 year period early on in the financial year when rates are expected to be at their lowest. This will also have the added benefit of spreading debt maturities away from a concentration in longer dated debt.
- vi) If it was felt that there was a significant risk in a sharp fall in long and short term rates then long term borrowings will be postponed. If it was felt there was a significant risk of a sharp rise in long and short term rates then the portfolio position would be re-appraised with the likely action that fixed rate funding will be drawn whilst interest rates were still relatively cheap.

11.2. The requirement for the HRA reform settlement to be made to the CLG will require separate consideration. The Council will need to have the cash settlement amount, currently expected to be £83.8 million available on 28 March 2012, so separate borrowing solely for this purpose is anticipated. The PWLB are providing loans at interest rates 0.85% lower than the usual PWLB interest rates solely for the settlement requirements. This provides a compelling reason to utilise this borrowing availability. In order to receive these reduced rates all loan applications must be received by the PWLB on the 26 March 2012, the interest rate applicable to the loans will be fixed on that day with the funds being advanced to the Council on the 28 March 2012 in order to pay the cash settlement.

11.3. The exact structure of the debt is currently being considered by officers in conjunction with our treasury advisor to ensure it meets the requirements of the HRA business plan and the overall requirements of the Council. Members will be updated further once the borrowing has been undertaken.

11.4. Delegated authority is sought for the Section 151 Officer to exercise the borrowing powers contained in the Local Government Act 2003 to manage the debt portfolio.

12. External versus internal borrowing

12.1. The Prudential Code requires the Council to explain its policy on gross and net debt. The Council currently has gross debt of £278 million and net debt (after deducting cash balances) of £199 million. The next financial year is expected to see the Bank Rate continue at historically low levels. As borrowing rates are expected to be higher than investment rates this would indicate that value could best be obtained by avoiding new external borrowing and using internal cash balances to finance new capital expenditure. This is referred to as internal borrowing and would maximise short term savings.

12.2. However, by delaying unavoidable new external borrowing until later years when PWLB rates are forecast to be higher will mean the potential for incurring additional long term costs.

12.3. The Council has examined the potential for undertaking early repayment of some external debt in order to reduce the difference between its gross and net debt positions. However, the introduction by the PWLB of significantly lower rates for repayments than for new borrowing means that large premiums would be incurred and such levels of premiums cannot be justified on value for money grounds.

12.4. Against this background caution will be adopted with the 2012/13 treasury operations. The Section 151 Officer will monitor the interest rate market and adopt a pragmatic approach to changing circumstances, reporting any decisions to Members at the next available opportunity.

13. Policy on borrowing in advance of need

13.1. The Council will not borrow more than or in advance of its needs purely in order to profit from the investment of the extra sums borrowed. Any decision to borrow in advance will be within forward approved Capital Financing Requirement estimates, and will be considered carefully to ensure value for money can be demonstrated and that the Council can ensure the security of such funds.

13.2. In determining whether borrowing will be undertaken in advance of need the Council will:-

- Ensure that there is a clear link between the capital programme and maturity profile of the existing debt portfolio which supports the need to take funding in advance of need.
- Ensure the ongoing revenue liabilities created, and the implications for the future plans and budgets have been considered.
- Evaluate the economic and market factors that might influence the manner and timing of any decision to borrow.
- Consider the merits and demerits of alternative forms of funding.
- Consider the alternative interest rate bases available, the most appropriate periods to fund and repayment profiles to use.
- Consider the impact of borrowing in advance on temporarily (until required to finance capital expenditure) increasing investment cash balance and the consequent increase in exposure to counterparty risk, and other risks, and the level of such risks given the controls in place to minimise them.

14. Debt Rescheduling

14.1. The introduction of a differential in PWLB rates on 1 November 2007, which has been compounded further since 20 October 2010 by a considerable further widening of the difference between new borrowing and repayment rates following the Chancellor's announcement to increase new borrowing rates by up to 1% following the Comprehensive Spending Review, has meant that large premiums would be incurred if debt restructuring is undertaken which cannot be justified on value for money grounds. However, consideration will be given to the potential for making savings by running down investment balances to repay debt prematurely as short term rates on investments are likely to be lower than rates currently paid on debt. However, this will need careful consideration in the light of premiums that may be incurred by such a course of action. The proposals for debt rescheduling are a continuation of the existing policy and such transactions will only be undertaken:-

- in order to generate cash savings at minimum risk.
- to help fulfil the strategy set out above.

- in order to enhance the balance of the long term portfolio by amending the maturity profile and/or volatility of the portfolio.

15. Investment Strategy

15.1. The Council is required, under CIPFA's Treasury Managements Code of Practice, to formulate an Annual Investment Strategy (Appendix 2). This outlines the Council's approach to:-

- Security of capital
- Creditworthiness policy
- Monitoring of credit ratings
- Specified and Non Specified Investments
- Temporary Investments

15.2. The Council's investment priorities are the security of capital and the liquidity of its investments. The Council will also aim to achieve the optimum return on its investments commensurate with proper levels of security and liquidity.

15.3. The Council are asked to approve the Investment Strategy set out in Appendix 2.

16. Minimum Revenue Provision (MRP) Statement

16.1. In accordance with Statutory Instrument 2008 number 414 and guidance issued by the Government under section 21 (1A) of the Local Government Act 2003 a statement on the Council's policy for its annual MRP needs to be approved before the start of the financial year. The Council are asked to approve the Minimum Revenue Provision Statement set out in Appendix 3.

17. Landsbanki Deposit Update

17.1. The claim for the £1 million deposit placed by Bridgnorth District Council with the Icelandic Bank, Landsbanki has now finally been accepted as a priority claim by the Landsbanki Winding up Board. Priority creditors are expected to receive an estimated 98% of the value of their deposits back in a series of distributions. The first distribution is expected to be made to the Council early in the New Year, the exact date is still to be confirmed. The timeline for future payments may run until 2018.

18. Leasing

18.1. In the past the Council has used operating leases to finance the purchase of vehicles and equipment. The Section 151 Officer will assess the relative merits of operating and finance leases on a case by case basis and enter into the most advantageous. School's I.T equipment will continue to be internally financed by borrowing against a small fund set against school balances with school's repaying their borrowing over a period of 3 years.

19. Lending to Housing Associations

19.1. As previously approved by full Council, the Council has offered to lend funds to Shropshire Housing Ltd (which incorporates South Shropshire Housing Association and the Meres & Mosses Housing Association) and Severnside Housing at an agreed rate. In the current climate Housing Associations can find it difficult to obtain funding for new affordable housing and the Council is generating only a small amount of interest on revenue balances.

19.2. It has been agreed that the interest rate charged will depend on the period over which the loan is to be taken and that it will be linked to the applicable PWLB rate. It has been agreed to offer to lend up to £10 million to each of these Housing Associations in order to support the building of affordable housing and shared office accommodation in Shropshire. For security purposes, each loan will be secured against existing assets held by or owned by the Housing Association. If Shropshire Rural were to request a similar facility, for a smaller amount given the size of this local Housing Association, this could also be facilitated.

19.3. Officers have sought advice from Wragge & Co who has confirmed that the Council has the power to lend funds to Housing Associations under the Housing Act 1996 and have drawn up the legal documentation relating to the loan agreement. Any loans made to housing associations will be reported to Members, no loans have been made to date.
