# A CHARTER FOR SHROPSHIRE COUNCILS

2010

## **Executive Summary**

2009 saw local government re-organisation in Shropshire and the creation of a new Unitary Council.

This new Shropshire Charter will assist in building on the existing strong, collaborative partnership-working between the different councils in the county that between them represent all levels of democratic local government in Shropshire.

In Shropshire there are more than 150 parish and town councils, ranging from small rural parishes representing a few hundred people, to larger town council representing many thousands.

Shropshire Council recognises that the town and parish councils (Local Councils) are the grass roots level of local government. By working together we will provide better services to local communities and a higher degree of satisfaction for the people of Shropshire.

Diversity across the local council sector is recognised. The principles of the Charter are consistent, whilst the impact of its shared commitments on individual councils may vary according to scale.

By signing up to this document councils agree to work together to promote the best interests of the communities we serve; to provide quality, value for money public services and; to promote opportunities for greater public participation and involvement in our work.

Strong partnership working will be increasingly essential as the reduction in public sector funding bites. Relationships built on trust and mutual respect will be vital if we are to best serve the people of Shropshire.

The Charter will be monitored and evaluated regularly, through liaison meetings with the local council membership organisation (ALC), the Larger Local Council Forum, direct communications and further opportunities to raise issues of common interest or concern through the Local Joint Committee structure.

## **AIMS**

In addition to the overall aim of strengthening relationships between Shropshire Council and the Local Councils, the Charter has the following aims:

1. To promote sustainable social, economic and environmental development in Shropshire without compromising the quality of life of future generations.
2. To establish a framework for effective local governance, striving to improve community involvement in local democracy.

3. To ensure effective communication and working relationships between the two tiers of local Government in Shropshire and their partner organisations, by improving consultation and communications about policies and decisions that affect communities.
4. To recognise that Local Councils and local Members are the grass-roots of local democracy and community leadership, possessing local knowledge that can help the policy, planning and decision-making processes.
5. To recognise the diversity of the Local Council sector in Shropshire and inform, enable and assist them in fulfilling their responsibilities and to support those that wish to take on additional services or facilities.
6. To ensure all councils are aware of procedures for dealing with information, compliments, complaints and standards.
7. To work better together to deliver quality services to Shropshire people.

Shropshire Council will provide to Local Councils and ALC, clear concise documentation and seek to avoid paperwork overload wherever appropriate.

2.2 Shropshire Council will consult with Local Councils on all matters where there is a **statutory requirement to do so** See Appendix 1.

- 2.3 Shropshire Council has provided a mechanism for Local Councils to refer planning applications to committee for consideration. Further details are available in the Development Management Charter. (see above link)
- 2.4 In the case of **Non-statutory matters:** i.e. matters for which there is no statutory requirement to consult, Shropshire Council will recognise the importance of the views of its stakeholders and partners, such as Local Councils. See Appendix 1.
- 2.5 Wherever possible concise meaningful consultation, on matters of significant local importance, will be undertaken **in advance** of any decision-making.
- 2.6 Wherever possible sufficient information to allow Local Councils to make an informed response and an acceptable amount of time to give consideration to the matter will be provided.
- 2.7 A named officer, to whom queries regarding such consultations can be addressed, will consider all the views offered by the Local Councils.
- 2.8 In the event of decisions being taken which are contrary to the expressed wishes of a Local Council, the clerk will be informed and reasons offered. In the case of planning decisions, Development Management produces a weekly list of decisions. Full copies of the officer report, which specifically states why consultees' views have or have not been agreed with, are available on the Shropshire Council website via the online planning register.
- <http://planning2.shropshire.gov.uk/publicaccess/default.aspx>
- 2.9 Local Councils will be offered the opportunity to have direct discussions where the community is likely to be significantly affected by the outcome of decisions on strategic policy. Strategic policy documents may also be included on an agenda for the Local Joint Committee Meetings and/or ALC policy group.

## **SHARED COMMITMENTS TO THE SHROPSHIRE CHARTER**

### **Quality Council Provision**

All Shropshire Councils are encouraged to achieve Quality Status which will equip them to take on a stronger role in their communities. Quality status should be achievable by any Local Council, regardless of its size, location or current activities.

### **Equality of Opportunity**

Shropshire Council embraces equality and diversity in all its work. The issue of equality is not the responsibility of one section or service area solely, but is owned by all Members and staff at all levels of the Council.

In Shropshire we recognise the value difference can make and we are committed to serving the diverse needs of our communities. We are committed to treating everyone fairly, openly and honestly and the Council is striving to achieve equality for the diverse mix in our communities and our own workforce, recognising that people have different needs, cultures, experiences and expectations.

The Council recognises that valuing equality and diversity will lead to more sensitive services that are responsive to the needs of the communities, a workforce that is representative of the community, and a commitment to participation by all.

Local Councils in Shropshire are encouraged to make the same commitments and to eliminating discrimination in all its forms, providing equality of opportunity to all the communities we serve.

### **Safeguarding**

Safeguarding responsibilities encapsulate our duty to reduce accidental harm and to protect vulnerable adults and children and young people from abuse. This includes harassment and discrimination, neglect, emotional abuse, violence, sexual abuse and exploitation, and financial abuse. Safeguarding should ensure that all reasonable actions and approaches are taken to minimise the risk of accidents and harm, and to enable individuals to make appropriate choices and have opportunities to take part in day to day life.

Shropshire Council responds to all concerns about the safety of a vulnerable adult, child, or young person. In doing so it takes appropriate actions to address the concerns and reduce risk by working to the agreed policies and procedures in full partnership with other local agencies. The Council considers safeguarding in a proactive manner to raise awareness of issues and take actions to minimise potential risks occurring.

Local Councils in Shropshire are encouraged to think about safeguarding and to help to protect vulnerable adults, children and young people as part of our shared responsibilities to the people of Shropshire.

## **Review and Operation of the Charter**

The Charter will initially be reviewed after a twelve-month period and again after a further three years. However, changes in functions or legislation may dictate that it be updated as and when required. It will also be reviewed following any Local Government Elections.

The Charter will be monitored and evaluated regularly, through liaison meetings with ALC, the Larger Local Council Forum, direct communications and further opportunities to raise issues of common interest or concern through the Local Joint Committee structure.

## **COMMITMENT**

**This Charter must evolve and develop if it is to remain relevant to the changing needs of all Councils and to respect the role that each play in serving their communities. It commits all parties to work together, to ensure that we are able to serve our communities to the best of our abilities for the benefit of the people of Shropshire.**

### Appendix 3

**Devolved functions that may be offered to Parish and Town Councils following agreement between Shropshire Council and Parish/Town Council are subject to the Local Council providing a business case with benefits to enable either a cost saving or a better service provision.** Where such arrangements are agreed, they will be based on:

- Close liaison founded upon trust
- Explicit formal agreement as to their purpose
- Visible tangible contributions from both parties
- Clear lines of communication and responsibility
- Recognition that financial support, in either direction, should not be the sole reason for such initiatives
- Formal monitoring and notification of progress and effectiveness
- Local Councils accepting responsibility for the consequences, financial or otherwise, which might arise from any actions being challenged
- Making every effort to avoid double taxation
- Local Councils having achieved Quality Status
