

Winterbourne View Joint Improvement Programme

Stocktake of Progress

Local analysis: Shropshire

Attached is your stocktake return with analysis
This analysis is set out in 2 parts.

Set out below are comments taken from your narrative and summarised to form an outline of key strengths and potential areas for development.

The strengths are taken from the responses you have made and are significantly summarised.

Many of the development points are taken directly either from your specific requests for further information or support or your comments about work in progress. Often the strength and the development go hand in hand.

The spreadsheet sets out the original stocktake questions, your responses and the coding that was used to collate the responses. There is no scoring or grading. What all this provides is a comprehensive picture about some excellent progress and pointers to what the priorities are to work on now. This will be the basis for our developing work with you.

Thank you for your detailed responses and for any submission of material, which will be made available in coming weeks.

10th October 2013

Key Strengths	Areas for Development / Potential Development
1 Models of partnership	
Good Partnership arrangements are in place, further clarity on the specific leadership including with the CCG. Positive joint programmer board has been established across LA'S, Recognises it is a programme of work	
Clear Partnership Working, engagement of Children and Young People and Specialist Commissioning not specified	
Partnership Board and Safeguarding Board are leaders, with a task group leading the work	

Section Comment: Evidenced good partnership collaborative working and engagement, specific understanding of the additional resources and needs of the development of the local plan would be useful as a sharing point across the region. Further work inclusion of C&YP and Specialist Commissioning	
2 Understanding the money	
Finance known on a cases by case basis	
Section Comment: Children and Young People further detail required. Aware of Specialist Commissioning placement but not of the funding. Sec 75 in place for young people. Further understanding of this possibly as an example for the region. Development of a market plan and position statement	
3 Case management for individuals	
	Section Comment: Not an integrated Team, unclear of the specific arrangements. Positive Identification of the broader agenda, including the expectation of good skills base and personalisation, working with local advocacy groups and developing the skill base of the workforce, including via experts by experience. Further inclusion of C&YP within the programme
4 Current Review Programme	
Governance via the Safeguarding Board, managed via the LD Programme Board interfacing with other key LD agendas	
Section Comment: Taking a skills development approach inclusive of family members and working with Advocacy services. CCG have established relationship with Specialist Commissioning reporting back to the LA. CCG are leading on the management of the register are being managed	
5 Safeguarding	
Section Comment: Proactive in aligning Dols, linking into the West Midlands Dols Lead group, working positively across the wider partnership including The community safety partnership and promoting independence by 'Not Tolerating hate crime, engaged within in the appropriate safeguarding procedures where known. Limited reference of the use of commissioning within safeguarding	
6 Commissioning arrangements	
Current specialist LD Advocacy, due to be recommissioned, consideration of the needs and impact will take place	

Section Comments: Clear plans are place for their identified cohort with further needs analysis of retaining people locally and Managing the market is required. Proactive in finding alternative ways to support people outside of a hospital environment via training programme. New Capital money identified for further development	
7 Developing local teams and services	
Positive work to be shared across the region	
8 Prevention and crisis response capacity	
Further understanding of what this delivers in practice will be helpful and understanding the success rate for reduction in hospital admissions. Consideration of those people without carers	Positive approach for internal staff Further consideration on how the providers workforce have the skills and knowledge
9 Understanding the population who need/receive services	
-	
10 Children and adults – transition planning	
Dedicated Transition worker based in the Adults Team - further information on the function would be useful across the region	
11 Current and future market capacity	
Good examples of sharing innovative practice
