# HEALTH AND WELLBEING BOARD TO FOLLOW REPORT (S)

## 7 STRENGTHENING FAMILIES THROUGH EARLY HELP (Pages 1 - 18)

A presentation will be made.

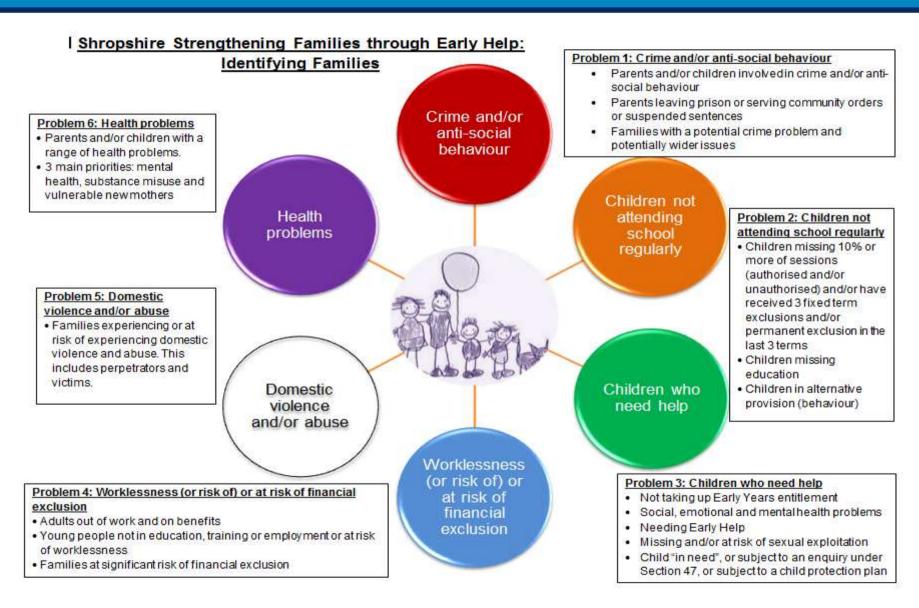

Contact Karen Bradshaw, Director of Children's Services Tel 01743 254201 or Kay Smallbone, Troubled Families Strategic Co-Ordinator Tel 01743 251677.

### **Objectives of new programme**

For Families

To achieve significant and sustained progress with up to 400,000 families with multiple, high cost problems by 2020; and To make work an ambition for all troubled families

For Services

To transform the way that public services work with families with multiple problems to take an **integrated whole family approach** To help reduce demand for reactive services

For the Taxpayer

To demonstrate that this way of working results in **lower costs and** savings for the tax payer

#### Troubled Families Phase 2 - Aims

Reach more families

Solve more problems.

A strong emphasis on the importance of service reform.

More evidence of progress and impact across family outcomes, less emphasis on PbR claims.

Every family receives a 'whole family' approach.

## Department for Communities and Local Government

## The families supported by the original programme

Local dovernment	J.	
9 significant issues p original programme		
	Troubled Families	All Families
No. of children	2.7	1.7
3+ children	37%	16%
Lone parent household	49%	16%
Out-of-work benefits	83%	11%
No one working	74%	17%
Longstanding illness or disability	32%	19%

#### The case for service transformation:

One troubled family's contact with local services before the programme (with no improvement in outcomes after ten years)

#### A post-it = a contact or intervention

### Growing evidence of local cost savings

Cost Savings Calculator

To assess the level and form of service transformation driven by the programme locally

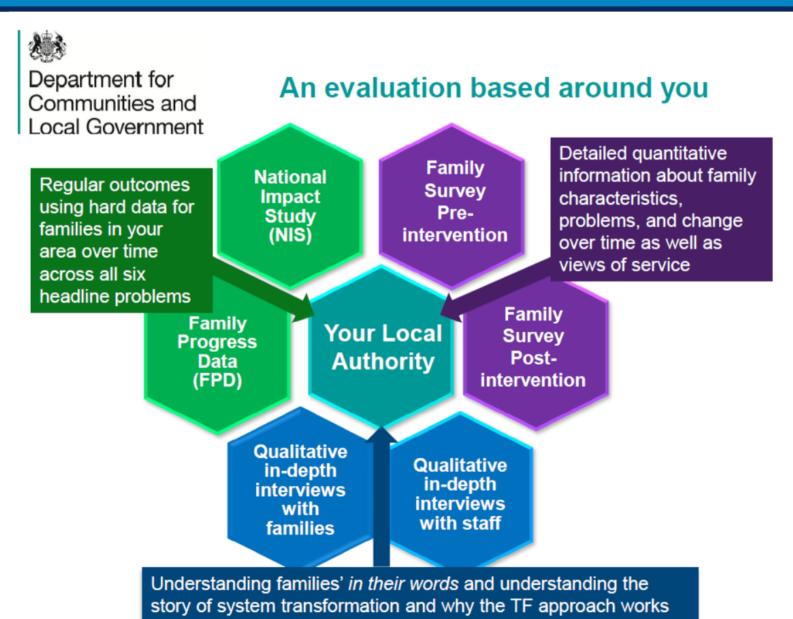

To assess how the family intervention approach achieves positive change for families

#### The new evaluation

To assess the <u>impact</u> of the programme on the lives of participating <u>families</u> locally

To assess the fiscal, social, and economic benefits resulting from the programme in local areas

Our expectations of participating local troubled families programmes is that they:

- <u>prioritise</u> the families with multiple problems who are of most concern and highest reactive costs
- appoint a <u>keyworker/lead worker</u> for each family who manages the family and their problems.
- work towards <u>agreed goals for every family</u> for each of headline problems which are <u>shared and jointly owned</u> across local partners
- are <u>transparent</u> about outcomes, benefits and costs
- engage in ongoing <u>service reform</u> according to evidence of effectiveness and savings

Lessons learnt from case studies

## Strengthening Families through Early Help

"It is estimated that over two million children in the UK today are living in difficult family circumstances. These include children whose family lives are affected by parental drug and alcohol dependency, domestic abuse and poor mental health. It is crucial that these children and their families benefit from the best quality professional help at the earliest opportunity. For some families, without early help difficulties escalate, family circumstances deteriorate and children are more at risk of suffering significant harm"

Source Ofsted (2015) Early help: whose responsibility?

## Shropshire Strengthening Families through Early Help Supporting Transformation Change

The overarching vision for development of Strengthening Families is that it is needs led, stressing the importance of starting with, and working from a clear understanding of the needs and issues affecting the families and the communities involved. The key principle of is it is participative – all stakeholders may be involved– and that it is based on partnerships and empowering the values of the community.

To provide the vehicle for transformation change, there has been a commitment across Shropshire stakeholders to;

- develop a confident and skilled workforce through joint training and development
- invest in a robustly managed volunteer network
- improve confidence in information sharing, by the development of agreed protocols
- improve secure communication with the introduction of a secure web based case management system
- join up relevant partners work, for example, Adult Services, Health, Integrated Offender Management, Public Protection, Marac
- recognise the needs of the family at Family Locality Meetings and working together to find creative solutions to their needs.
- Listen to the voice of the family, young person, child

what support is delivered, to whom, and when.

of the family.

The family voice should be visible and driving the

Level 4 Acute

## How are we joining things up

- Development of a skilled and confident workforce investing in training
- Exploring partnerships with school clusters to jointly fund a Family Support Worker
- Developing A Commissioning Framework to enable us to provide the right support for a family at the right time, delivered by the right people.
- Exploring the development of a volunteer network.

### **Challenges**

Getting the right people round the table
A countywide agreement and understanding of
Information Sharing
Managing change – doing things differently
Making Every Contact Count
Changing the focus from individual to the whole family
without losing sight of the individual needs and
safeguarding.

Ensuring that every family voice is heard Realising the commissioning potential between partners

### **Locality Meetings**

#### Aim

- Provide relevant, timely support to families, some of whom will be included in the Troubled Families Programme.
- Work with families at the earliest stage to make positive changes and build their resilience, at the same time reducing the chance that they will need further support in the future.
- Provide more emphasis on allocating the right intervention to families with more complex needs and developing a shared responsibility to agree how this is delivered.
- To provide a formalised arrangement for using the Strengthening Families Information Sharing Agreement to enable practical measured activity to deliver 'significant and sustained' outcomes.
- To provide a structured procedure enabling front line workers to bring their agencies intelligence, knowledge, skills and experience to analyse and respond to local families and issues.

E-CINS is a web-based case management system. It provides a central hub where professionals can task and inform one another, bring together reports in one place and share information in real-time. The system allows control of who information is shared with across agencies, giving access to as many partners as is necessary, safe in the knowledge that it is a secure environment.

#### Shropshire Strengthening Families Information Sharing Flowchart

Shropshire and Telford and Wrekin Partnership Data Sharing Framework This is the overarching Protocol already signed up to by Health, Shropshire Council and West Mercia Police (Must be signed by all organisations working in partnership to support families who wish to participate in Locality Meetings and use E-CINS). The purpose of this protocol is to:

- Clarify the responsibilities of the parties to the Data;
- Outline the data security principles and requirements with which the Data recipient must comply;
- Set out the audit rights of Protocols ignatories
- Impose confidentiality requirements on the Data Recipient

Shropshire Strengthening Families Information Sharing Agreement Data Sharing Framework Protocol must be signed. The Information Sharing Agreement is essential for participation in Locality Meetings and sharing information through Compass.

The Purpose of this Information Sharing Agreement provides the basis upon which co-operating Partners will facilitate and govern the lawful sharing of information to ensure that agencies can work to gether to support families in need of multiagency support. It provides good practice for the sharing of information between partners in line with relevant legislation.

A Memorandum of Understanding Shropshire Strengthening Families E-CINS Case Management System Authorisation to access E-CINS cannot be granted unless all three documents are signed by the organisation

The aim of the Memorandum of Understanding is to set out mutually accepted expectations that reflect an understanding between partner agencies that use E-CINS online case management system. It offers guidance on howeach organisation will use E-CINS in a consistent, efficient and lawful way to enable the effective management of cases in a cross-partnership environment.
