REPORT

3. Risk Assessment and Opportunities Appraisal

- 3.1 The principal aim of the Youth Justice System is the prevention of offending and re-offending by children and young people. The Youth Justice Plan sets out an action plan to address the significant risks identified to future service delivery and improvement.

4. Financial Implications

- 4.1 These are covered by the existing budgetary contribution.

5. Background

- 5.1 Under section 40 of the Crime and Disorder Act 1998 each Local Authority has a duty to produce a Youth Justice Plan setting out how Youth Justice Services in their area are provided and funded and how the Youth Offending Service for the area is funded and composed, the plan is submitted to the Youth Justice Board for England and Wales (YJB).
- 5.2 The Youth justice Plan is prepared on an annual basis on behalf of Shropshire Council, Herefordshire Council, Telford and Wrekin Council and Worcestershire County Council. The basic plan preparation is undertaken by West Mercia Youth Offending Service according to the deadlines and guidance from the YJB.
- 5.3 The West Mercia Youth Justice Plan was agreed at the West Mercia Youth Offending Service Management Board on 18th August 2016 and was submitted to the YJB in September 2016.

6. Additional Information

- 6.1 The Youth Offending Service is subject to three national indicators. Performance against the indicators is outlined in the plan and actions identified to address risks to performance improvement. The Shropshire specific information is set out on pages 29 to 33 of the plan.
- 6.2 The first time entrant (FTE) indicator which is expressed as the number of first time entrants to the youth justice per 100,000 youth population was 386 for Shropshire in 2015. The Shropshire rate for the year is significantly lower than for West Mercia, 506 and but slightly higher than England, 369.
- 6.3 The second indicator is the use of custody indicator, which is measured as the number of custodial sentences per 1,000 youth population. The use of custody performance for 2015/16 was 0.21, and is lower than for West Mercia, 0.14 and England, 0.37.
- 6.4 The third indicator is re-offending. There are two measures both measuring re-offending in the same cohort of offenders over a 12 month period following the youth justice sanction that placed the young person in the cohort. The first, the frequency rate, is the average number of re-offences per young person re-offending in the cohort. The second is the percentage of the young people in the cohort who have re-offended.
- 6.5 The frequency measure for Shropshire for the year ending June 2014 is 3.33 and this represents an increase in performance from the previous year when the frequency rate was 3.68.
- 6.6 The percentage of young people re-offending in Shropshire for the year ending June 2014 was 34.7%. Although this rate is slightly worse than for West Mercia, 33.4, it is better than for England at 37.7%.
