

# STP

## Headlines

- NHS England have not assured the plan, it says that out of hospital/ place based model and financial plan does not form credible basis for operational planning
- Plan is too acute focussed and lack of detail on the neighbourhood model
- Financial plan not credible

# STP

## STP Shropshire Neighbourhoods Group

- Have developed positive joint working and are at a good starting point
- Embarked on weaving prevention, resilient communities and care models into placed based plans
- Leadership, Governance and Culture Change (focus prevention) – key priority for moving work forward
- Frail and elderly workstream will form the cornerstone of reducing admissions
- Support in communities and around GP practices will support achieving long term vision

# STP

## Frail and Elderly

- Neighbourhood Group beginning to understand the nature and quantify the scale of frail elderly inpatient activity that could be supported outside of hospital with appropriate services.
- Shropshire STP Neighbourhoods group recognise that this is the tip of the iceberg – much more can be done by working collectively

# Frail elderly emergency admissions 2015/16 - Headline figures

The table below shows the total number of emergency admissions by frail elderly patients from Shropshire and Telford and Wrekin CCGs in 2015/16. In total there were nearly 4.5K admissions in 15/16 costing nearly £11m.

Of these around 2,800 were classified as those who could usually be managed elsewhere if appropriate services were available.

Frail group	Age group	Emergency admissions	Total emergency bed days	Total cost of admissions (£)
Usually	65 - 74	584	4,430	1,248,293
	75+	2,213	23,469	5,662,382
Sometimes	65 - 74	537	3,938	1,190,421
	75+	1,076	9,958	2,613,805
<b>Grand Total</b>		<b>4410</b>	<b>41795</b>	<b>10,714,901</b>
