It is recommended that the following additional condition regarding materials for the boundary walls is imposed as conditions 5 and 6 only refer to materials for the buildings:

Prior to the commencement of the relevant work samples and/or details of the bricks to be used in the new boundary walls shall be submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in complete accordance with the approved details.

Reason: To ensure that the external appearance of the development is satisfactory.

It is recommended that the following additional condition is imposed to ensure that a management plan for both the future maintenance and management of both the play area and interpretation board within the public open space is submitted for approval:

The proposed equipped play area and the interpretation board shall be fully installed in accordance with drawing reference GL097306 A REV A and CB-IB-01 (or in accordance with an alternative drawing to be submitted to and approved in writing by the Local planning authority). Prior to the first occupation of any part of the development a management plan shall be submitted to and approved in writing by the local planning authority and shall include a timetable for the provision of the equipped play area and interpretation board, a future maintenance schedule and future management responsibilities and details of the financial and legal means through which the management plan will be implemented. The management plan shall be carried out as approved in perpetuity or in accordance with an alternative management plan to be submitted to and approved in writing by the LPA.

Reason: To ensure the adequate future management and maintenance of the equipped play area and interpretation board located within the public open space.

Item No.	Application No.	Originator:
6	18/03583/OUT	Case Officer

Correction required to section 3.0 of the committee report as published that incorrectly stated that the decision is to be a delegated decision. The amended section 3.0 reads:

## 3.0 REASON FOR COMMITTEE DERTERMINATION OFF APPLICATION

The scheme does not comply with the delegation to officers as set out in Part 8 of the Shropshire Council Constitution as the Parish Council whilst although stating neither support or objection to the application sought guarantees on a number of material planning issues before any development be permitted and requested that these be sought at planning committee. Officer's recommendation is contrary to this approach with suggested conditions requiring some details including flood risk and noise assessments to be submitted concurrently with the first submission of reserved matters. The Area Planning Manager in consultation with the Chair and Vice Chairmen agrees that the Parish Council have raised material planning issues and that the application should be determined by committee.
