

SHROPSHIRE HEALTH AND WELLBEING BOARD Report

Meeting Date	8 th September 2022		
Title of Paper	JSNA Update		
Reporting Officer and email	Rachel Robinson, Executive Director of Health, Wellbeing and Public Health Rachel.robinson@shropshire.gov.uk		
Which Joint Health & Wellbeing Strategy priorities does this paper address? Please tick all that apply	Children & Young People	<input type="checkbox"/>	Joined up working
	Mental Health	<input type="checkbox"/>	Improving Population Health
	Healthy Weight & Physical Activity	<input type="checkbox"/>	Working with and building strong and vibrant communities
	Workforce	<input type="checkbox"/>	Reduce inequalities (see below)
What inequalities does this paper address?	Inequalities in health outcomes, service provision/access		

1. Executive Summary

This report presents to the Health and Wellbeing Board an update on Shropshire's JSNA; progress to date, future direction of the JSNA and timescales.

2. Recommendations

The Health and Wellbeing Board:

- Note the update to work programmes and timescales

3. Report

Joint Strategic Needs Assessment (JSNA)

Work continues on the JSNA development programme subsequent to standing down of parts during COVID and Omicron. The JSNA has been managed as separate workstreams – a place-based approach and development of web-based media (in particular Power BI interactive reports) to present needs assessments. We are about to draw these two workstreams together to create web-based interactive profiles for Place Plan areas in Shropshire.

- **Place-Based Needs Assessment (PBNA)**

Profiles for Highley and Oswestry, the first of the “Wave 1” priority Place Plan areas have been produced. They have been developed concurrently with preliminary engagement in the respective areas, the results of which are being analysed and taken to local community events for engagement. The Oswestry profile had specific and additional content on measures relating to children and young people to aid focused work in this geography.

The first profile has already been used by system partners with regard to identifying and addressing Health Inequalities in the South-East of the County.

In addition, work is beginning on high level profiles spanning a multitude of health and wellbeing outcomes and causal factors for all 18 Place Plan areas in Shropshire. We will report back to the Board with details of these as prototype products are created.

• **Web-Based Needs Assessment (WBNA)**

Substantial content has been added to WBNA. As well as the overview of key demographic data for Shropshire overall and (where available) its communities, a number of sections have been added taking a life-course approach focusing on particular cohorts and wider determinants of health. To date the following sections have been added;

- Starting Right - conception, perinatal measures, and family environment/vulnerability at birth
- School Years - educational attainment, provision, SEND, Free School Meals (FSM)
- Adult Wellbeing - currently predominantly behavioural measures; obesity, physical activity, drug and alcohol
- Ageing Well – Health checks, outcomes associated with older populations
- IMD – Deprivation indices
- Cost of Living – Poverty, employment, benefits
- Employment and Economy – Activity, occupations, qualifications, business health, earnings.
- Quality of Life – Crime, measures of social fabric communities, franchise etc.

Further content and narrative sections are in the progress of being added. Subsequent to these reports being developed and signed-off the dashboard will be implemented into the Shropshire Council public facing webpage in a similar way to how traditional static reports have been published. This new way of presenting information will allow audience to explore and appropriate the information for their own uses beyond what traditional reporting allows. In addition, as part of developing these tools many of the underlying data retrieving has been automated, with the intention that the data that audience access in the web-based needs assessment is always the latest available independent of any need for manual updating.

Pharmaceutical Needs Assessment (PNA)

The final draft of the PNA is now out for publication as of 1st August. This consultation period closes on 30th September.

Enclosed with this report is a presentation for the board summarising the needs assessment

Other ongoing and significant workstreams in the coming period

- Drug and Alcohol Needs Assessment
- Needs analyses to support dental programme targeting
- Annual Public Health Report (APHR)

Key milestones in period until next board –

- October 2022 – Closure of consultation and publication of Pharmaceutical Needs Assessment.
- October 2022 – Alignment of WBNA and PBNA through initial high level profiles for Place Plan Areas.
- November 2022 – Refinement and initial publication of Web-Based Needs Assessment tool
- November 2022 – Production of Drug and Alcohol Needs Assessment
- December 2022 – APHR initial development

Risk assessment and opportunities appraisal

(NB This will include the following: Risk Management, Human Rights, Equalities, Community, Environmental

A single, coordinated approach continues to be supported in the development of place-based profiles and needs assessments which in turn support place-based working. This will take time to develop and is intrinsically linked to the refresh of the HWB Strategy.

Therefore, this report seeks agreement to the approach and ongoing work programme in terms of the development of a coordinated evidence base for the whole system, delivered under the JSNA umbrella.

consequences and other Consultation)	
Financial implications (Any financial implications of note)	
Climate Change Appraisal as applicable	
Where else has the paper been presented?	System Partnership Boards
	Voluntary Sector
