For attention of the licensing team

Regarding applications for premises licenses at the dye house and the mill experience shop and the Shrewsbury Flaxmill Maltings Cafe.

I would like to object to the plans for the alcohol licensing for the Flaxmill buildings. I live in Marshalls Court and my home sits directly behind this building. We already endure lots of anti social behaviour from people walking home drunk from town.

When I moved here in 2015 I had to inform the neighbourhood policing team of lots of incidents that were occurring. I then had to make contact with the council to ask if the street lighting could be kept on overnight due again to the anti social behaviour and concerns for the safety of our homes. We have also had to install cctv cameras on our property because of this. There is also a lot of drug activity that takes place behind our property on and neighbouring the site of the new Flaxmill carpark.

I believe the Flaxmill having an alcohol licence will only cause even more increased incidents and will affect the local residents including myself. If the site is kept open until late the noise we will have to endure will be unfair to the local residents living directly next to and behind the building. Our calls to the police will almost certainly have to increase to report drunk and disorderly leaving the site and causing disturbance. Our fears are that once given an alcohol license they will then apply for an entertainment licence which again cannot be allowed when this building is so close to surrounding homes. The carpark is not big enough to meet the Flaxmill buildings needs and we will end up with our road being blocked by visitors vehicles and the list goes on.

The residents especially those of Marshalls Court have had to endure enough already, the whole project has destroyed any enjoyment of our homes please don't let it continue further.

Regards,

Mrs Rebecca Herbert-Lade
