## APPENDIX C

## SHROPSHIRE COUNCIL PRUDENTIAL INDICATORS 2013/14

- C1. The Prudential Code requires the Council to set Prudential Indicators in the Treasury Strategy and report performance against those indicators in the Annual Treasury Report.
- C2. The ratio of financing costs compared to the net revenue stream of the Council was lower than expected in 2013/14 due to no general fund borrowing being undertaken during the year.

| Prudential Indicator   | 2013/14<br>Revised Estimate | 2013/14<br>Actual |
|--|-----------------------------|-------------------|
|  | %                           | %                 |
| Non HRA Ratio of<br>financing costs to net<br>revenue stream | 10.8                        | 9.5               |

| HRA Ratio of financing<br>costs to HRA net revenue<br>stream                               | 44.3                        | 41.9              |

C3. The cost of capital investment decisions funded from a re-direction of existing resources was lower than anticipated due to a revised 2013/14 capital programme and the active programme to generate additional capital receipts to reduce the requirement for prudential borrowing to finance the capital programme as reported in the monthly capital monitoring reports.

C5. Gross borrowing was as anticipated due to no general fund borrowing being undertaken in 2013/14. A key indicator of prudence is that net borrowing should not exceed the capital financing requirement. It can be seen from the following figures that the Council continues to meet this prudential indicator. The Capital Financing Requirement was lower than estimated following slippage in the capital programme that resulted in a reduced financing requirement from the capital receipts previously set-aside as approved by Council.

| Prudential                | 2013/14          | 2013/14 |
