Report of the Health Overview and Scrutiny Committee- Rural Proofing in Health and Care

Responsible Overview and Scrutiny Officer:	Sophie Foster		
email:	sophie.foster@shropshire.gov.uk	Tel:	01743 255248
Health Overview and Scrutiny Chair:	Cllr Geoff Elner		
Task and Finish Group Chair:	Cllr Heather Kidd		

1. Synopsis

To report the findings and recommendations of the Rural Proofing in Health and Care Task and Finish Group following their investigation looking at the options to effectively 'rural proof' the amendment or introduction of strategies, plans, policies and service design and provision in health and care in Shropshire which have been adopted by the Health Overview and Scrutiny Committee.

2. Executive Summary

- 2.1. This is the report of the Health Overview and Scrutiny Committee which adopted the report of the Rural Proofing in Health and Care Task and Finish Group. It sets out key findings, conclusions and recommendations of their work considering delivering health and care services to rural communities. The members of the Task and Finish Group have been clear from their first meeting about the topic, that addressing any inequalities of service provision between rural and urban areas requires a system wide understanding of the opportunities and challenges.

Having this will help to identify the most suitable and effective options that need to be explored and implemented to effectively 'rural proof' the amendment or introduction of strategies, plans, policies and service design and provision in health and care in Shropshire.

- 2.2. This work arose from Members of the Health and Adult Social Care Overview and Scrutiny Committee (now Health Overview and Scrutiny Committee) frequently highlighting concerns about rurality and access to health and care services through their work. This Task and Finish Group was therefore commissioned to draw together the key points and observations that have arisen through the work of the committee during 2022/2023, to review the latest local and national evidence on rural proofing, hear from local system providers and take the opportunity to learn from other areas of the country.
- 2.3. Against this context, the Task and Finish group has looked in detail at the available data and information, carrying out a desk top review of the available research and case studies into rural proofing and the impact of living rurally on access to health and care services. Hearing from customers, service users, and patients about their experiences of accessing health and care when living rurally. Hearing from providers of health and care services about current approaches to delivering/serving rural communities and sought evidence and learning from other areas of the country.
- 2.4. The system and organisations that have fallen within the scope of this work are complex, multi-dimensional and dynamic. With national, regional and local actions and activity being identified and reviewed whilst the task and finish group has been in operation.
- 2.5. The Group have made 14 recommendations which they believe will contribute to addressing inequalities of service provision between rural and urban areas including recommendations:
 - to Shropshire Council
 - to the Integrated Care Board
 - promoting a system working approach across all Integrated Care System stakeholders
 - promoting a consistency of approach with local and regional partner Councils

3. Recommendations

Members are asked to:

- 3.1. Consider and comment on the report and recommendations of the Task and Finish Group attached at appendix 1.
- 3.2. From the 14 recommendations that were outlined in the report, the Committee is asked to endorse those which relate to People Overview and Scrutiny Committee which are included in section 7 of this report.
- 3.3. Provide a response to the recommendations to the HOSC

Report

4. Financial Implications

- 4.1. There are no direct financial implications from the recommendations in this report, regarding this Committee.

5. Climate Change Appraisal

- 5.1. There are no direct climate change implications from the recommendations in this report, regarding this Committee.

6. Background

- 6.1. Members of the Health and Adult Social Care Overview and Scrutiny Committee (now Health Overview and Scrutiny Committee) had highlighted concerns about rurality and access to health and care services through their work. This Task and Finish Group was commissioned to draw together the key points and observations that have arisen through the work of the committee during 2022/2023, to review the latest local and national evidence on rural proofing, hear from local system providers and take the opportunity to learn from other areas of the country.
- 6.2. The task and finish group has carried out its work with a strong focus on learning from the available information by organising its review around three stages:
- Carrying out a desk top review of the available research and case studies into rural proofing and the impact of living rurally on access to health and care services.
 - Hearing from customers, service users, and patients about their experiences of accessing health and care when living rurally.
 - Hearing from providers of health and care services about current approaches to delivering/serving rural communities.
- 6.3. This has included learning about the findings of the work completed by the National Centre for Rural Health and Care to produce the Rural Proofing for Health Toolkit.
- 6.4. They have heard from a wide range of people and organisations via written submissions and through witnesses attending their meetings; providing the opportunity to share their knowledge and experience of receiving or delivering health and care services in rural communities.
- 6.5. Their key findings, conclusions and recommendations are set out in their report, attached at appendix 1.
- 6.6. The group's conclusions and recommendations recognise that, although the significant responsibilities to tackle health inequalities is shared by the wider Integrated Care System, Shropshire Council as a commissioner and Place co-

ordinator has an important role to play. This is through co-ordinating and leading the way in identifying the challenges facing different areas, building local capacity, embracing coproduction and community delivery, and devolving power and resources to communities and neighbourhoods.

6.7. Specific points of focus in the recommendations include:

The Group propose that the Shropshire People Overview and Scrutiny Committee adopts the Rural proofing for Health Toolkit as a part of their own overview and scrutiny processes to act as a framework to support them in maintaining a robust view on the needs of local rural populations when they review strategies, initiatives and service delivery plans.

6.8. The group also believes there exists the opportunity that the Rural Proofing for Health Toolkit be recommended at a regional level for use by its partner local authority of Telford and Wrekin to support the work of the Joint Health and Overview Scrutiny Committee. That this could be broadened to include the Shropshire Association of Local Councils for use in their work with Parish Council's, creating a consistency of approach to rural proofing, and making the links to the local Joint Strategic Needs Assessments that are being developed.

6.9. There is then opportunity and scope to expand the use of the toolkit to Herefordshire, Monmouthshire and Powys to help provide evidence for cross border working and shared outcomes that the newly founded Marches Forward Partnership. The formal adoption of the toolkit could be stated as part of the Memorandum of Understanding by all the authorities, helping to embed rural proofing of health and care, contributing towards a greater shared understanding of the opportunities and challenges of delivering health and care services to rural communities.

7. Report Recommendations

1. **Recommendation:** That the Shropshire Health and People Overview and Scrutiny Committees adopt the Rural proofing for Health Toolkit as a part of their own overview and scrutiny processes to support them in maintaining a robust view on the needs of their local rural populations when they review strategies, initiatives and service delivery plans.
