Council

# WELCOME TO LEARNING AT SHROPSHIRE MUSEUMS & ARCHIVES

NEW FOR 2016/17

We are proud to be working in partnership with the Friends of the Flaxmill Maltings and Historic England to bring you two workshops at the world famous Shrewsbury flax mill. Our Apprentice Experience and LEGO® Education Simple Machines workshops explore cross-curricular themes in the Grade I listed setting of the world's first iron framed building.

Between February and May 2017 Shrewsbury Museum & Art Gallery will host a temporary exhibition 'Rhyme Around the World' from Seven Stories, the National Children's Book Centre. This colourful, interactive exhibition takes a fresh look at the most familiar form of children's literature, nursery rhymes and features art work by many best-loved children's illustrators. The exhibition explores verse from around the world and is aimed at schools and families with a strong focus on the under 5's.

We look forward to welcoming you to Shrewsbury Museum & Art Gallery, Acton Scott Historic Working Farm, Ludlow Museum & Resource Centre, Shropshire Archives and Shrewsbury Flaxmill Maltings.

**Fay Bailey**  
Activities and Learning Officer

## BOOKING A WORKSHOP COULDN'T BE EASIER

Simply email us at:  
[museumeducation@shropshire.gov.uk](mailto:museumeducation@shropshire.gov.uk) or ring  
**01743 258881** to book a workshop in school or at any of our venues.

## LUDLOW MUSEUM RESOURCE CENTRE

### Life in a Medieval Castle KS1

Children discover what life was like a very long time ago through dressing up, role-play and access to original and replica artefacts. They spend the afternoon visiting Ludlow Castle for a special guided tour.

"The children loved the dressing up and the dancing. The music helped to bring it all to life. The group were inspired by the food in the castle banquet."  
 St Lawrence CE Primary School, Church Stretton

### Medieval & Tudor Ludlow KS2

Using a wide range of original and replica objects, children find out about the lives of both rich and poor in Medieval and Tudor Ludlow. A Medieval and Tudor walk around Ludlow brings their learning to life.

"I liked walking around the town, the patterns on the houses were fascinating. I also never knew about the plague, it must have been horrible!"  
 Josh

### Darwin's Discoveries KS2/3

Pupils find out about the work of Shropshire born naturalist Charles Darwin as they explore the natural history and geology collections stored at Ludlow Museum Resource Centre. Pupils will work scientifically, discovering how plants and animals are classified and noting evidence of variation and adaptation. This hands-on session enables pupils to discover how plants and animals are adapted to suit their environment in different ways and that adaptation may lead to evolution.

### Rock Detectives KS2

Children dress up in lab coats and become scientists for the day, conducting experiments and using microscopes. They visit the museum's climate-controlled stores for a special tour and take a 'rock walk' around Ludlow.

Rock Detectives is available at Ludlow Museum Resource Centre and Shrewsbury Museum & Art Gallery

### BOOKING INFORMATION

For information and to book contact:  
 E: [museumeducation@shropshire.gov.uk](mailto:museumeducation@shropshire.gov.uk)  
 T: 01743 258881

• A lunch room is available

Ludlow Museum Resource Centre  
 7/9 Parkway, Ludlow, Shropshire,  
 SY8 2PG

# SHREWSBURY MUSEUM & ART GALLERY

## Dinosaur Detectives EYFS/KS1

Stomp and roar like a dinosaur! There are dinosaurs on the loose in the museum... pop on your dinosaur hunting hat, grab your magnifying glass and see if you can find them! In this interactive workshop children find out what dinosaurs ate, examine fossilised footprints and dinosaur eggs, take part in a dino dig and make a fossil to take home.

## LEGO® Story Starter – A Night at the Museum KS1/2

Creak, rattle, squeeeeeak, rattle, clank...

*“What is that terrible noise? Where is everybody? Where am I?”*

It is nearly dark; you are locked in the museum. The museum doesn't open again until tomorrow morning! What will happen at the museum between sunset and sunrise? Where is the eerie sound coming from? What will you do about it?

In our new LEGO® Education literacy workshop children explore the museum collections through story and song and imagine what it would have been like to hunt a mammoth and sleep in a Tudor bed.

In our museum classroom, children use LEGO® Education's Story Starter kits to write and sequence their own story based on the theme of 'a night at the museum'.

## Investigating Evolution - following in Darwin's footsteps KS2

During a session at the museum children are introduced to the life and evolutionary work of Charles Darwin, the famous naturalist who was born in Shrewsbury. Following Darwin's footsteps they then ask the most controversial question of all, 'Has Man evolved?'

A full day workshop includes either:

- A visit to Shropshire Wildlife Trust to hunt for bugs like a young Charles Darwin and compare adaptations of animals to different habitats
- A Darwin guided walk around Shrewsbury
- A Darwin themed art session. Create beautiful bugs, birds and animals in your choice of media. Choose from mono-printing, etching, lino cut, clay or collage.

*“The children and teachers came away filled with knowledge and excitement. Thank you very much for a memorable school visit.”*  
St Mary's Primary School, Albrighton.

*“I just wanted to say thank you to all the team on behalf of Radbrook Primary School. The children and adults really enjoyed the day and we have already been busy following up in the classroom.”*

The organisation of the day was excellent and the activities you had prepared for our KS1 children were at just the right level. The super range of interactive activities meant they were engaged throughout the day and consequently gained a great deal from the visit.

*I would highly recommend a visit to the museum to other colleagues and I have promoted it to our older children in a whole school assembly today.”*

## Portrait Tour & Art Workshop KS1,2 & 3

Portraits are the 'Who's Who' of their time, full of symbolism and historical meaning. During this interactive tour pupils are encouraged to look closely at the works on display to reveal clues about the sitter and the artist. In the museum education room pupils make sketches using observational drawing techniques and create a piece inspired by the museum's portrait collection. You may choose from a range of media including:

- clay sculpture
- mono-printing
- collage

## Medieval & Tudor Shrewsbury KS2/3

Shrewsbury is one of the best preserved Tudor towns in Britain, but what was it like to live here? Through investigating portraits, handling artefacts and trying on Tudor clothing, the children find out about the lives of the rich and the poor in Medieval and Tudor times. This session can be combined with a town tour.

## Stone Age, Bone Age! KS2

An interactive workshop from the Ice Age to the Iron Age.

It is snowing, the wind is howling outside and you are living in the Ice Age. What would you eat? Where would you live and what is the evidence for this?

See the remains of Shropshire's very own woolly mammoths, have a go at hafting tools onto sticks to make an axe or an arrow. Find out how the earliest farmers grew and harvested food and what it was like to live in an Iron Age Round House. This interactive workshop is aimed at helping explain prehistory and the change from hunter-gatherer to farming economies.

www.shrewsburymuseum.org.uk

## Rhyme Around the World EYFS

Between February and May 2017 Shrewsbury Museum & Art Gallery are proud to host a temporary exhibition from Seven Stories, the National Children's Book Centre 'Rhyme Around the World'. This colourful interactive exhibition takes a fresh and inclusive look at the most familiar form of children's literature, nursery rhymes. The exhibition is aimed at schools and families with a strong focus on the under 5's.

- Bring the exhibition alive through music and song in an interactive, 45 minute workshop session.
- And/or combine your visit to the exhibition with a 1 hour LEGO® Education Story Starter workshop with a nursery rhyme theme.

*“Thank-you so much for being so accommodating and organising our visit to the museum. It's a great place to visit and the workshop was fabulous”.*  
Greenacres Primary School, Shrewsbury

## Meet the Romans KS2

Shrewsbury Museum's Roman Gallery displays a range of beautiful and unique objects from Wroxeter, the fourth largest city in Roman Britain. This hands-on workshop is designed to develop children's investigative skills and to experience how artefacts have contributed to our understanding of life in Roman Britain.

Pupils will gain an insight into the work of archaeologists and how archaeology can teach us about our past. Through handling a range of Roman artefacts they will see the wealth and range of material which has survived from the Roman invasion of Britain.

## BOOKING INFORMATION

For information and to book contact:  
E: museumeducation@shropshire.gov.uk  
T: 01743 258881  
Session cost includes museum entry

The use of a lunch room is available and included in the cost.

Self-directed tours are charged at £2.00 per pupil.

One adult per six paying pupils will be admitted free of charge and other accompanying adults charged at the child entry rate (£2).

Booking essential.

Shrewsbury Museum & Art Gallery,  
The Square, Shrewsbury, SY1 1LH

# ACTON SCOTT HISTORIC WORKING FARM

## STORY TOURS & ACTIVITIES

### Three Little Pigs EYFS/YRI

Bring the story to life by visiting our pigs, snug in their brick-built sty, and all their farmyard friends. Then try making homes of straw, wood and bricks to see which material is best. Can the children construct a home so strong that even a wolf can't blow it down?

*I adored the baby pigs.*  
Erin

### Old MacDonald had a Farm EYFS/YRI

A tour of the farm designed to heighten the senses while finding out how Old MacDonald looks after his animals. Children create a journey stick to help them recall their experiences and then make a big Old MacDonald scarecrow using recycled materials.

*A wonderful experience for children & staff. The large education room was a perfect size for our lunch. The staff worked hard to ensure that although the weather was not good they still offered animal handling; holding chicks, getting to know the Joe & Charlie the shire horses and best of all cart rides with Dusty the donkey. Many thanks*  
Christchurch Pre-school

## LIVING HISTORY

### Victorian Child KSI/2

Experience what life was like for children on a Victorian farm. Every day was a busy one and all were expected to lend a hand, however little, around the home and farmyard, and out in the fields. With all the chores done, there's just time for some simple country fun with their friends.

### Harvest Home

September & October only

### KSI/2

Learn how both young and old pulled together during Victorian harvest time. Reap the wheat, bind the sheaves, build the stooks and glean in the fields before threshing, winnowing and milling in the barn. Learn why the harvest was celebrated and why everyone had their part to play.

- KSI pupils have the opportunity to dress in replica costume.
- KS2 pupils make a corn dolly sweetheart favour as a memento of the harvest celebration.

*My rating for you is five out of five.*  
Edith

### A Farm through Time KS2

Uncover and interpret evidence found above and below ground to trace the story of Acton Scott's farming community over two thousand years. Hands-on activities reinforce the children's observations: they mill wheat into flour on a quern, spin wool, sort Roman finds, pull the plough and lend a hand in the farmyard.

*I was expecting that I would like it 100% but I didn't, I liked it 1000%!*  
Maddie

### Evacuee at Acton Scott KS2

Newly-arrived evacuees are quickly organised by Acton Scott's efficient billeting officer, Mrs. Mainwaring. Once identity cards, suitcases and gas masks have been checked, they practise the air raid drill before being set to work in the fields. Then there's time to reflect as they write their first letter home.

### Farm Boy KS2

Children gain a deeper understanding of Michael Morpurgo's moving story through first-hand experience. They meet the farm's shire horses, try pulling the plough themselves, and learn how a harness fits together to develop an appreciation of the horse's amazing strength and the skill of the people who work with them.

*My dad wouldn't cope without his tractors. He wouldn't be patient enough to plough with horses.*  
Izzy

## SCIENCE/DESIGN TECHNOLOGY

### Food on the Farm KSI

Working in the farmyard and fields children find out about daily life on the farm and discover where food comes from. They meet the animals, find out what they eat and why they are kept. They help in the garden, collect new-laid eggs, mill wheat into flour, turn the churn to make butter.

### A Farmer's Day KSI

What happens on a farm and what does a farmer do all day? Working in the farmyard and fields, children develop an understanding of how a mixed farm works, and how a farmer makes the most of his land and resources. With the field ploughed and seed scattered, they build a scarecrow from recycled materials to keep the birds away.

*I could see a massive amazing scarecrow and not even a single crow.*  
Liam

### The Secret Life of Plants KSI

Children are introduced to oak trees, how to identify them and their important role in providing homes and food for wildlife. They gain an understanding of how plants grow from seeds and the importance of water and light in growth. Practical activities, such as bark rubbing, colour palettes and a scavenger hunt introduce them to a variety of common species and provide the opportunity to name and understand the different parts of plants.

### Animal Homes KSI

During this interactive workshop children will be introduced to a range of different animals and consider how the appearance and diet of the animals are well suited to the habitats in which they live. Activities include hunting for camouflaged woolly worms, imagining life as a mole underground on a blindfold trail and a woodland minibeast hunt. The session concludes with children "becoming" particular animals and deciding on the perfect home - especially if you can eat your neighbours!

**CSI Acton Scott  
KS2**

Who stole the grain from the granary? Children have a crime to solve – an animal has been stealing grain! They observe the suspects, and then, back in the 'crime lab', study the jaws and teeth of different animals to eliminate the innocent. A further study of footprints and fur leads them to the perpetrator.

*It was the best day of my life.*  
Zoe

**The Power of Plants  
KS2**

Children will learn the importance of plants through games and practical activities that illustrate conditions required for growth as well as plant structure and function. Construction of a wheel of food chains also underlines our reliance on green plants and, ultimately, the sun for energy. The session culminates in the construction of a human tree!

*Thank you for letting us go to the deep dark woods and find tiny minibeasts under the stumpy trees and under the big, fat, brown and long branches.*  
Luke

**Food & Farming –  
the sustainable way  
KS2/3**

Was Acton Scott a sustainable farm? Discover how a farmer worked in the past and the impact of farming on the environment. Through practical activities, children gain an understanding of the economics of farming and learn how the farm relied on both horse and human energy to survive.

**BOOKING INFORMATION**

For information and to book contact:  
E: [museumeducation@shropshire.gov.uk](mailto:museumeducation@shropshire.gov.uk)  
T: 01743 258881

Group admission costs: Children £3.25.

One adult per 6 paying children will be admitted free of charge and all other accompanying adults will be charged at child rate.

- An undercover picnic area is available for children to eat lunch.
- Acton Scott Historic Working Farm is open Saturday – Wednesday between March and the end of October 10am – 4.30pm.

Acton Scott Historic Working Farm  
Wenlock Lodge, Acton Scott,  
Nr Church Stretton, Shropshire,  
SY6 6QN

**SHROPSHIRE ARCHIVES**

A visit to Shropshire Archives gives students the chance to look at a wide range of original archive documents as well as microfiche sources, books, maps, CD ROMs, etc.

**Medieval & Tudor Shropshire  
KS2/3**

The session involves using original 16th century archives. The main emphasis will be on maps of Shropshire, and on Royal documents, concentrating on their Great Seals, calligraphy and illumination. We also look at documents about the plague, inventories, and Tudor buildings.

**The First World War in  
Shropshire  
KS2/3**

Explore the First World War experiences of soldiers and those coping at home using a varied range of first-hand accounts from diaries and correspondence, photographs, newspaper sources and military records.

**Local study  
KS2/3**

A look at your local area and how it has changed, using maps, census returns, photographs, original parish registers, newspapers/trade directories and poor relief documents (if available).

**English Language & Literature  
'A' Levels**

Shropshire Archives has a fantastic range of material to demonstrate the use of the English language across the centuries, from the twelfth century to the present day.

**BOOKING INFORMATION**

For information and to book contact:  
E: [museumeducation@shropshire.gov.uk](mailto:museumeducation@shropshire.gov.uk)  
T: 01743 258881

- Visits for primary school classes include a mid-session break with a drink provided.
- We can include a behind the scenes tour of Shropshire Archives please contact us for details.

Shropshire Archives  
Castle Gates, Shrewsbury, Shropshire,  
SY1 2AQ

# MUSEUM IN SCHOOL

## we bring the museum to you!

An experienced museum educator will visit your school to deliver a two hour active learning session. All workshops are supported by a wide selection of original and replica artefacts and specimens from the museum collections.

### KS1

#### Fossils and Dinosaurs

Children become paleontologists digging up and identifying bones, looking closely at real fossils, placing dinosaurs on a timeline and investigating the varying sizes of dinosaurs in relation to themselves and other creatures.

#### Charles Darwin

Children learn about Darwin's early life by dressing up in costume of the period, sorting shells into types and organising bugs into categories or groups. They also follow the route of the Beagle to discover some of the specimens Darwin collected during the voyage.

*Absolutely fabulous morning - thank you so much. The children loved getting stuck in!*  
Worfield Primary School

#### TOYS

Children handle original toys and look for evidence of how children played in the past. They look for similarities and differences between old and modern toys, play with a selection of replica Victorian toys and help Kipper put all his toys back in his toy box.

#### Florence Nightingale

Through hands-on activities, children explore Florence's childhood and school days and meet her pet owl Athena. They learn how to tie a bandage and help to make a poultice before identifying the problems faced by the hospital at Scutari, and discovering how Florence addressed them.

### KS2

#### Ancient Greeks

Children develop an understanding of ancient Greek life through close examination of the clues left behind and costumed role-play. Children discover how ancient Greek pottery can provide direct evidence of the Greek way of life, try on replica armour and explore the differences between Athenian and Spartan society.

#### Original Olympians

Through group discussion, object handling and role play, the workshop will guide learners through a range of imaginary scenarios inspired by real events in Ancient Greece and Victorian England to understand how the modern Olympics developed from ancient ideals.

Ancient Greece and Original Olympians can be booked together as a whole day experience.

#### Ancient Egyptians

Children discover how Egyptian objects can tell us about the life and beliefs of this ancient civilisation. They draw on a variety of sources to find out what the ancient Egyptians believed about life after death before reconstructing the process of mummification.

#### Meet the Romans

Designed to develop investigative skills, children will discover how archaeology can teach us about life in the past. Through handling a wide range of original Roman artefacts and replica costume, they will see the wealth and variety of material that has survived from the Roman invasion of Britain.

#### Viking Raiders

More than 1000 years ago, fearsome Viking raiders sailed up the River Severn and into Shropshire. Who were they, where did they come from, and why did they come here? This fun workshop uncovers some of the mysteries of the Viking age, with a chance to handle Viking kit, hear tales of Viking gods and goddesses, and to re-enact some of the struggles between the Vikings and their Shropshire foes!

*Fantastic hands-on approach really suited our children*  
Oakwood School

#### Anglo-Saxons

Children reconstruct a typical Anglo-Saxon grave to find out what burials tell us about their beliefs, way of life, crafts and technology. They compare this to the royal burial at Sutton Hoo and to the finds from the Staffordshire Hoard.

Our Viking Raiders and Anglo-Saxon workshop sessions can be booked together as a whole day experience.

## MUSEUM IN A BOX

The Museum in a Box object loan service is run in partnership with the Schools Library Service. Boxes contain a mix of original and replica artefacts and specimens with information to support learning across the curriculum.

Choose from:

- Romans in Britain
- Toys & Games from the Past
- Seaside Holidays in the Past
- Victorian Clothing
- Victorian Laundry
- When Granny Was a Child
- Grandpa loves Football
- Victorian Daily Life
- Time for Tea
- Lighting Up!
- A Soldier's Life In the First World War
- Evacuee's Suitcase
- Investigating Rocks and Soils
- Shropshire Rocks and Fossils
- The Story Coat of the World.

For information and to book contact the Schools Library Service on 01743 255035 or email [sls@shropshire.gov.uk](mailto:sls@shropshire.gov.uk)

### BOOKING INFORMATION

For information and to book contact:  
E: [museumeducation@shropshire.gov.uk](mailto:museumeducation@shropshire.gov.uk)  
T: 01743 258881

- Two hour session in the morning or afternoon to suit your timetable.
- £110 for a two hour session, £190 for two of the same workshop sessions in one day.

## SHREWSBURY FLAXMILL MALTINGS

### Mill Apprentice Experience KS1/2

Children as young as nine years old worked at the Shrewsbury flax mill. Some were supplied under the apprenticeship system from orphanages, the local workhouse and further afield.

During this interactive two hour workshop children will discover what life was like for a child apprentice living and working at a flax mill in the early 19th century. Children will adopt a role, dress in costume and try out some of the daily tasks performed by a hard-working mill apprentice. Our young visitors will compare their life with children in the past and via documentary evidence decide whether working conditions were good or bad for young mill apprentices.

This cross-curricular workshop allows pupils to investigate historical events, people and places in their own locality and will encourage children to pose historically valid questions about change, cause, similarity, difference and significance.

### BOOKING INFORMATION

For information and to book contact:  
E: [museumeducation@shropshire.gov.uk](mailto:museumeducation@shropshire.gov.uk)  
T: 01743 258881

- Workshop sessions last two hours, include a tour of the mill and cost £95 per class
- Mill tours (without a booked workshop) are available Monday - Thursday. Tours last one hour. Booking essential

**Why not combine your visit to Shrewsbury Flax Mill with a visit to Shrewsbury Museum & Art Gallery?**

### LEGO® Education Simple Machines – Pulley Power KS2

Shrewsbury Flaxmill Maltings is a pioneering building of the Industrial Revolution. Built from 1796, the Main Mill is the world's first iron-framed building - a building that has helped shape the skyline of every major city in the world. During this hands-on workshop children will investigate the reasons for constructing the mill with this innovative 'new' material and look at the ways the entrepreneurial John Marshall utilised steam power to turn the machinery of this fascinating factory.

Children will use LEGO® Education Simple Machines kits to actively investigate the forces at work in the mill, recognising that some mechanisms, including pulleys and gears, allow a smaller force to have a greater effect.

### Why not combine your visit to Shrewsbury Flax Mill with a visit to Shrewsbury Museum & Art Gallery?

The Friends of Flaxmill Maltings were formed in August 2010 in response to public consultation and growing interest and enthusiasm in the development of the Flax Mill Maltings amongst the community. Their vision is that Shrewsbury Flax Mill Maltings is brought back to life at the heart of the community. To find out more visit [www.flaxmill-maltings.co.uk](http://www.flaxmill-maltings.co.uk)

## WORKSHOP PROGRAMME AT A GLANCE

### LUDLOW MUSEUM RESOURCE CENTRE

WORKSHOP	DURATION	KEY STAGE	COST PER CLASS
Life in a Medieval Castle	4 hours	1	£140 (plus half price admission to Ludlow Castle)
Medieval & Tudor Ludlow	4 hours	2/3	£140
Rock Detectives	4 hours	2	£140
Darwin's Discoveries	4 hours	2	£140

### SHREWSBURY MUSEUM & ART GALLERY

WORKSHOP	DURATION	KEY STAGE	COST PER CLASS
