If your Voluntary and Community Sector Organisation is interested in taking on a Shropshire Council Owed Asset please complete the Initial Expression of Interest Form on our website giving full details of the Asset you would like to take on, and how you think your organisation could run it successfully.

The transfer of a building or property to another organisation comes with the current provision of facilities management staff. This is integral to the transfer and is covered by the TUPE regulations. Should your initial application proceed to the formal stage, the staff liability and cost will be set out for you in more detail you by colleagues in the Council's Human Resources department in order to inform your business planning for the future. If you believe TUPE does not apply to your organisation in this instance please set out your rationale for this in a brief business plan detailing how cleaning/and or facilities management will be dealt with post transfer
