

School Library Service Consultation

Background Information:

Shropshire Council are exploring options to secure a sustainable financial future for the Schools Library Service (SLS). The Schools Library Service is a traded service with schools and has been operating at a loss for the last two financial years.

We are encouraging all schools to share their views on all options that they believe would enable the Schools Library Service to secure a sustainable financial future, including the level of price increase that would be financially viable for schools, whether additional schools are willing to subscribe to the service and any other options that could be considered to increase income and/or reduce operating costs.

It is anticipated that based on the operating costs for the Schools Library Service whilst the service remains at Shirehall, an increase in income of around 40% will be necessary to bring the service to a 'break even' point. If the service moves to alternative accommodation a further additional increase is very likely to be required.

Considering the financial challenges faced by Shropshire Council, we cannot continue to subsidise a non-mandatory traded service, but we will ensure that all possible options to continue the service are explored and we welcome all possible solutions.

The consultation feedback we receive will be presented to a future Cabinet meeting, detailing the options available and a suggested way forward.

Your feedback is important to us, so thank you for taking a few minutes to complete this survey.

Please note: this survey is designed to be completed by schools, with one survey response per school.

If you are a member of school staff or other interested party, please send your feedback via the alternative survey, available on the Shropshire Council [Get Involved page](#).
