Local Joint Committee

10th February 2010

Dear Committee

Please see the attached application in respect of our proposed
'Community Gardening Club'

Our students have been instrumental in devising this project and for its sustainable development in the future. This is a project that stands outside of the national curriculum and therefore is unfunded by the normal school budgetary channels. The students will be fund raising via non-uniform events, but this will not be enough to cover the initial set up costs of the plot preparation, fencing and shed.

We have encouraged students and their parents to collect supermarket vouchers in order to assist in the purchase of seeds and other equipment.

There is an enthusiastic committee made up primarily of students and staff volunteers who would be grateful for any support that you are willing to contribute.

Yours faithfully
