

## FLY TIPPING

Investigations are being carried out relating to some localised incidents of fly tipping with a view to prosecuting offenders as appropriate.

Interviews on-going regarding the following offences

- Knowingly causing a fly tipping event,
- Breaches in duty of care for commercial waste,
- Illegal disposal of commercial waste in household waste stream

The Council/Environment Agency will liaise with the police, as appropriate, to ascertain if any vehicle being used in serious waste offences are wanted in connection with any criminal activity.

On occasions, covert cameras will be located at known fly tipping sites once a RIPA (Regulation of Investigatory Powers Act) authorisation has been granted, to capture any illegal disposal of waste offences.

Details of fly tipping figures for the south east of the County for 2011/12 are attached.
