	10 May 2010 meeting			
CS/1	When will the CCTV camera be placed in the Church Stretton park, as promised?	Councillor Bob Welch [Church Stretton Town Council]	Dave Roberts Shropshire Council's Environmental Enforcement Manager	Dave Roberts, Environmental Enforcement Manager, has advised that the mobile deployable CCTV camera earmarked for Church Stretton is still located in Highley whilst the introduction of a permanent system there is awaited. Dave states that the permanent installation at Highley is imminent and he has spoken with the CCTV contractors to arrange the removal of the mobile system.
CS/2	The Committee was concerned that the Smart Water campaign did not appear to be promoted by Shropshire Council [as it had been by the former South Shropshire District Council] and requested further information on how this could be undertaken in future.	LJC Committee members	Sam Hine Lead Officer	The Lead Officer stated that she would investigate how the Council could promote this campaign in future. This has been raised with partners from the Safer, Stronger Communities Partnership. Their view is that Smart Water should not be promoted and made generally available by the Council. Its use should be targeted at properties that are considered to be specifically at risk.
