

Whitchurch Photographic Society

Presentation to the Local Joint Committee
18th October 2012

WPS was established in 1962
We are proud to be celebrating our
50th Anniversary this year

Based in Whitchurch the society meets weekly
from September to April

In 2011/12 the society had 32 full members

The society offers tuition, encouragement and the
opportunity to compete at club, inter-club and
national level

To achieve this, higher spec future proof
equipment is required

This will also help grow and maintain membership

Why do we need a new computer?

The primary role of the society is to provide group coaching and for this a higher-spec computer is required

Widescreen, high definition, large processing and memory

Will then be able to utilise the latest PhotoShop CS6 software

Why do we want a new projector & screen?

Whitchurch members want to have the best opportunity to compete with their images

Hours can be spent producing digital images which are let down by poor projection equipment

Colour shifts, poor resolution, brightness and contrast all affect the finished image

Exhibition at Theatre Severn

The society members will be proud to exhibit their work to potentially 40,000 patrons of the theatre

The society consider that Theatre Severn is 'THE' prime exhibition location in Shropshire and will demonstrate Witchchurch's capabilities

The society will underwrite the cost of the exhibition with existing club funds and sponsorship

In Summary

This society has a genuine aspiration to offer excellent opportunities to people wanting to improve their photographic techniques

This society is open to all, catering for all ages and abilities

If the Local Joint Committee is able to support the society with a monetary award, the membership will ensure it is employed in the manner described

Any award will help the longevity of this society

Thank you
