

Local Commissioning

A brief introduction and update on activity in the north of the county

Tuesday 25th June 2013

What is Local Commissioning?

Understanding the demands/needs
of a community, and then
redesigning services that best meet
these demands as efficiently
as possible

What are we trying to achieve?

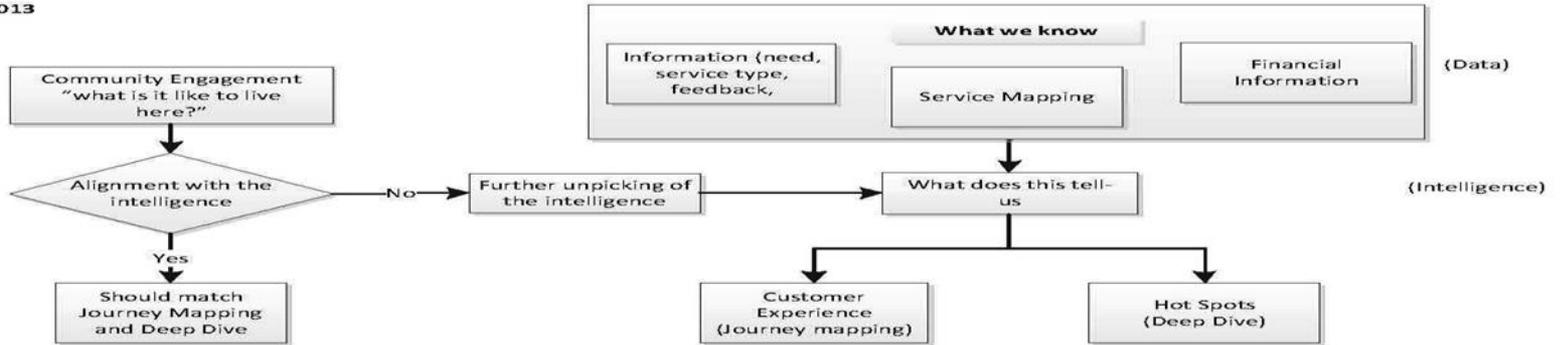

- Meeting local demand more efficiently and reducing future demand
- Providing customer value
- Engaged and resilient communities that “own” the challenges and the solutions
- Support employment & economic growth

The traditional approach

Church Stretton Demand-led Locality Commissioning Approach - work flow

w/c 11 February 2013

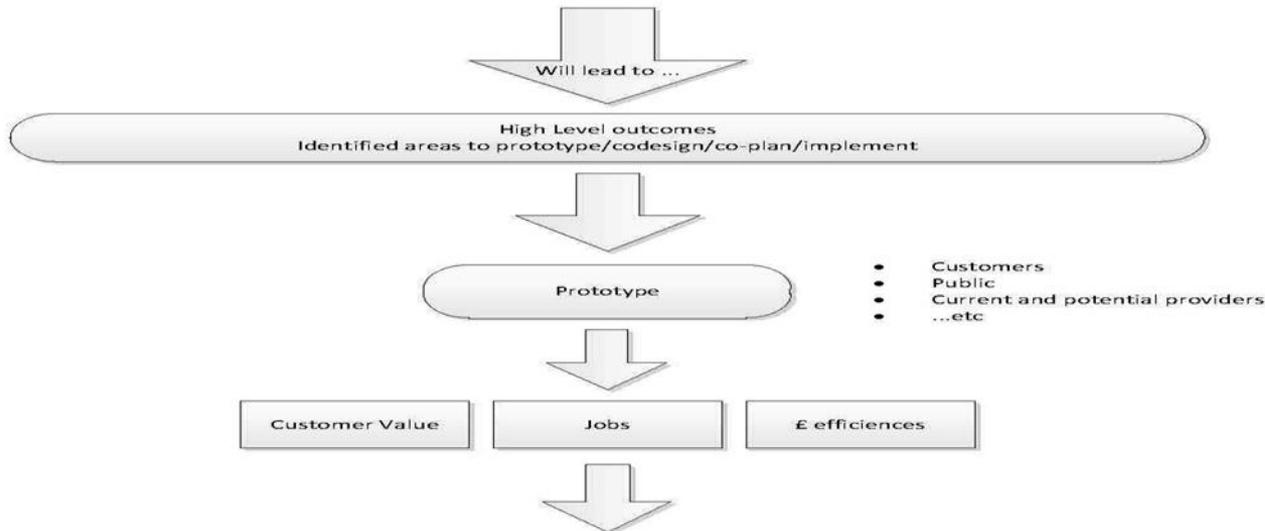

w/c 22 April 2013

Decision Accelerator Session

1 week of intense activity to identify and agree the key issues, areas of focus, priorities, standards to inform the high level outcomes and expected the areas to co-design, co-plan and implement. Will include:

- Governance Group
- Leaders Board(?)
- Customers
- Planning Team
- Core Team (doing the intel)

30 June 2013

What's been happening....

- Looking at the needs of the area
- Talking to the community
- Going into detail around three key areas:
 - Public Realm
 - Unemployment
 - Health/Social Care

What's going on at the moment....

- 3 new ways of working being 'tested' (prototypes)
- What we've discovered to be feedback to key senior partners next week
- More areas being considered (based on need)

Any Questions?
