Integration & BCF Plan 17-19

Update to Health and Wellbeing Board
6th July 2017

Integration in Shropshire

- Significant progress on systems leadership working towards integrated working at all levels
- Integration of key programmes- BCF, STP workstreams
- Focused system wide work to tackle our key challenges- Out of hospital, Non elective admissions (NEA), Delayed Transfers of care (DTOC) & financial pressures
- Test & roll out of transformational schemes- e.g. Healthy Lives
- Stronger performance against national conditions and metrics
- Development of joint commissioning arrangements
- Significant challenges bringing us together

Current BCF Position

- The guidance received Tuesday, 4th June – need to be digested and understood
- Policy Framework (Mar 17) gave us the policy basis for the BCF but not the detailed requirements (finances, metrics)
- 2 year plan (2017/18 & 18/19) with refresh in winter 2018
- Reduced number of national conditions
- Efforts to reduce complexity of assurance process
- Emphasis on enabling areas to produce a local plan for integration that meets national conditions and metrics
- Mandated minimum contributions from CCG and LA will be confirmed with the publication of the guidance
- BCF Plan must be signed off by the HWBB

Our approach to the plan

- We've got on with it and completed an initial draft
- The 2 year plan enables us to describe our integration journey where work in 17/18 leads to greater integration from 18/19
- Describes broader system integration work- BCF an enabler
- Delays in guidance have helped us create our own plan that meets our own needs not just those of external agencies
- A plan that compliments and enables other activity
- A concise easy read document that is accessible to all
- Clearer links between vision, schemes, finances & outcomes

National Conditions & Metrics

Our plan describes system wide work to meet these:

National Conditions:

- Plans to be jointly agreed
- NHS contribution to Adult Social Care maintained in line with inflation
- Agreement to invest in out-of-hospital services
- Managing Transfers of Care

Metrics:

- Delayed transfers of care
- Non-elective admissions (General and Acute)
- Admissions to residential and care homes
- Effectiveness of reablement

Awaiting publication of our targets with the guidance

Report on these quarterly as in previous years

Pooled budget (draft)

Based on 16/17 budget- (subject to change with publication of guidance)
