Fax:

1. Summary

- 1.1 This report introduces the Better Care Fund (BCF) Plan for 19/20 (attached as Appendix A).
- 1.2 The BCF in 19/20 continues to provide a mechanism for personalised, integrated approaches to health and care the support people to remain independent at home or return to independence after an episode in hospital.
- 1.3 At a national level the BCF represents a collaboration between NHS England, the Ministry of Housing, Communities and Local Government (MHCLG), Department of Health and Social Care (DHSC) and the Local Government Association. The four partners work closely together to help local areas plan and implement integrated health and social care services across England, in line with the vision outlined in the NHS [Long Term Plan](#).
- 1.4 Locally the BCF supports the joint working between health and care, and the development of the Shropshire, Telford & Wrekin Long Term Plan.
- 1.5 The 19/20 BCF Policy Framework was published in July and provides continuity from previous rounds by maintaining 4 national conditions. These are (in brief):
 - 1.5.1 Must be signed off by the HWBB and by the Local Authority and CCG;
 - 1.5.2 Must demonstrate how the area will maintain the level of spending on social care services from the CCG minimum contribution in line with the uplift to the CCGs minimum contribution;
 - 1.5.3 Must allocate a specific proportion to out-of-hospital services;
 - 1.5.4 Must provide a clear plan for managing transfers of care through the High Impact Change Model
- 1.6 Other notable requirements of the 19/20 plan include:
 - 1.6.1 The DFG, iBCF and Winter Pressures Grant monies are included within the BCF (although there has been no confirmation on the continuation of the iBCF and Winter Pressures – additional information in the Risk section below)
 - 1.6.2 The narrative should reflect the joint plan for integration of health and social care locally as well as reflect jointly agreed approaches across the STP geography
- 1.7 The iBCF funding is additional grant funding that central government has introduced to reduce pressures on adult social care. This funding has been available for 3 years, but has reduced in value each year. The iBCF will carry on in 20/21 at the 19/20 level (the lowest value over the 3 years) of 1.9m. Shropshire has delivered a robust plan to focus the funding on initiatives that support both health and care. However the year on year grant funding formula means that there are risks in terms of delivery, workforce and effectiveness. In light of this, the Risk

section below highlights the continued risk of the year on year funding through the iBCF for admission avoidance and delayed transfers in particular.

- 1.8 In autumn/ spring 18/19, the Joint Commissioning Group conducted an annual review of the BCF; this review in combination with the Joint Statement of Intent, endorsed at the May HWBB has been used as a guide to develop the BCF plan for 19/20.
- 1.9 Through this continued system collaboration, the priorities identified for the Shropshire BCF are:
- Prevention – keeping people well and self-sufficient in the first place; community referral including Let's Talk Local and Social prescribing, Dementia companions, Voluntary and community sector, population health management
 - Admission Avoidance – when people are not so well, how can we improve their health in the community; out of hospital focus (Care Closer to Home, Integrated Community Services, new admission avoidance scheme), carers and mental health
 - Delayed Transfers and system flow - using the 8 High Impact Model; Joint equipment contract, Assistive technology, Integrated Community Service, Red Bag
- 1.10 The BCF plan and associated schemes have been identified using the above priorities and national guidance; the Plan is attached as Appendix A. The Plan is in the form of an Excel Spreadsheet with tabs highlighted for each section including; strategic narrative, income, expenditure (scheme information), High Impact Care Model (HICM) and metrics.
- 1.11 Whilst we are working at a Shropshire Council area level to develop many schemes of the BCF, we are working at a system level to develop much of the 8 High Impact model (HICM tab in the BCF template) and we are articulating our person centred care ambition for the system. The narrative, which will also feature in the STP Long Term Plan will recognise the significant transformation and shift required to deliver person centred integrated care, and highlights the system commitment to deliver at scale.
- 1.12 The plan has been recommended for approval by the regional BCF assurance process, however we have not received final sign off by the national assurance panel, who work to ensure consistency across the country. We expect this approval in mid-December. This year, plans are either 'approved' or 'not approved' and we don't have a third option to 'Approve with conditions' as in previous years.

2. Recommendations

2.1 The HASCOSC is asked to note the report and the BCF Plan attached as Appendix A.

2.2 The HASCOSC is asked to note and discuss the risks associated with continued reliance on grant funding to pay for system initiatives to support transfers of care and admission avoidance.

REPORT

3. Risk Assessment and Opportunities Appraisal

- 3.1. (NB This will include the following: Risk Management, Human Rights, Equalities, Community, Environmental consequences and other Consultation)
- 3.2. The HWB Strategy requires that the health and care system work to reduce inequalities in Shropshire. All decisions and discussions by the Board must take into account reducing inequalities.
- 3.3. The schemes of the BCF and other system planning have been done by engaging with stakeholders, service users, and patients. This has been done in a variety of ways including through patient groups, focus groups, ethnographic research.
- 3.4. Continued reliance on grant funding (iBCF and Winter Pressures), to support system flow, admissions avoidance and transfers of care schemes, holds significant financial risk should the grant funding stop.

4. Finance

The key financial information contained in the BCF Plan/ template can be summarised as follows:

BCF Total Budget 2019/20	£40,974,328
Total Pooled Fund Amount 2019/20	£7,779,302
Total Non-Pooled Amounts 2019/20	£33,195,026
Non Pooled Amounts as follows:	
CCG Revenue Schemes	£13,839,000
Shropshire Council Revenue Schemes (including iBCF and Winter Pressures Schemes)	£16,146,735
Disabled Facilities Grants	£3,209,291

Contributing Partner Organisation	Pooled Fund Contribution amount 2019/20 (£)	Contributions to be paid to the host authority:	Non-Pooled Fund Contribution Amount 2019/20 (to be held by the CONTRIBUTING Partner) (£)	Total BCF Contribution 2019/20 (£)
Shropshire Council	-	-	19,356,026	19,356,026
Shropshire CCG	7,779,302	Monthly following receipt of an invoice from the host organisation	13,839,000	21,618,302
	7,779,302		33,195,026	40,974,328

5. Background

5.1 The Better Care Fund progress is reported at every Health and Wellbeing Board, through the Joint Commissioning Report to the HWBB. These reports can be found on the Shropshire Council Health and Wellbeing Board committee web page.

5.2 Performance

National metrics

The four national metrics for the BCF are as follows:

- Care home admissions - calculated by rate per 100,000 population - target 600 annually
- Delayed Transfers of Care – target average of 17
- Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement/rehabilitation services – target 82%
- Non-elective admissions – annual target 36,632

Current performance

- The admissions rate per 100,000 people aged 65+ to the end of quarter 2 was 250 against a target of 300. Currently forecast to be below (better) the end of year target of 600.
- The delayed transfer of care figures across all services:

Q1 – average delays per day 7.86
Q2 – average delays per day 10.4 target 17

Year to date – 9.16 against target of 17
- Reablement – data not available yet
- Non-elective admissions – Q1 - 9155, Q2 - 9130 - likely not to meet target as winter months tend to see an increase in non-elective admissions.

List of Background Papers (This MUST be completed for all reports, but does not include items containing exempt or confidential information) HWBB papers can be found here

Better Care Fund 2019/20 Template

1. Guidance

Overview

Note on entering information into this template

Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a grey background, as below:

Data needs inputting in the cell

Pre-populated cells

Note on viewing the sheets optimally

For a more optimal view each of the sheets and in particular the drop down lists clearly on screen, please change the zoom level between 90% - 100%. Most drop downs are also available to view as lists within the relevant sheet or in the guidance sheet for readability if required.

The details of each sheet within the template are outlined below.

Checklist (click to go to Checklist, included in the Cover sheet)

1. This section helps identify the data fields that have not been completed. All fields that appear as incomplete should be complete before sending to the Better Care Support Team.
2. It is sectioned out by sheet name and contains the description of the information required, cell reference for the question and the 'checker' column which updates automatically as questions within each sheet are completed.
3. The checker column will appear 'Red' and contain the word 'No' if the information has not been completed. Clicking on the corresponding 'Cell Reference' column will link to the incomplete cell for completion. Once completed the checker column will change to 'Green' and contain the word 'Yes'
4. The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word 'Yes'.
5. Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to 'Complete Template'.
6. Please ensure that all boxes on the checklist are green before submission.

2. Cover (click to go to sheet)

1. The cover sheet provides essential information on the area for which the template is being completed, contacts and sign off.
2. Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green. Only when all cells are green should the template be sent to england.bettercaresupport@nhs.net
3. Please note that in line with fair processing of personal data we collect email addresses to communicate with key individuals from the local areas for various purposes relating to the delivery of the BCF plans including plan development, assurance, approval and provision of support. We remove these addresses from the supplied templates when they are collated and delete them when they are no longer needed. Please let us know if any of the submitted contact information changes during the BCF planning cycle so we are able to communicate with the right people in a timely manner.

4. Strategic Narrative (click to go to sheet)

This section of the template should set out the agreed approach locally to integration of health & social care. The narratives should focus on updating existing plans, and changes since integration plans were set out until 2020 rather than reiterating them and can be short. Word limits have been applied to each section and these are indicated on the worksheet.

1. Approach to integrating care around the person. This should set out your approach to integrating health and social care around the people, particularly those with long term health and care needs. This should highlight developments since 2017 and cover areas such as prevention.
- 2 i. Approach to integrating services at HWB level (including any arrangements at neighbourhood level where relevant). This should set out the agreed approach and services that will be commissioned through the BCF. Where schemes are new or approaches locally have changed, you should set out a short rationale.
- 2 ii. DFG and wider services. This should describe your approach to integration and joint commissioning/delivery with wider services. In all cases this should include housing, and a short narrative on use of the DFG to support people with care needs to remain independent through adaptations or other capital expenditure on their homes. This should include any discretionary use of the DFG.
3. How your BCF plan and other local plans align with the wider system and support integrated approaches. Examples may include the read across to the STP (Sustainability Transformation Partnerships) or ICS (Integrated Care Systems) plan(s) for your area and any other relevant strategies.

You can attach (in the e-mail) visuals and illustrations to aid understanding if this will assist assurers in understanding your local approach.

5. Income (click to go to sheet)

1. This sheet should be used to specify all funding contributions to the Health and Wellbeing Board's Better Care Fund (BCF) plan and pooled budget for 2019/20. On selected the HWB from the Cover page, this sheet will be pre-populated with the minimum CCG contributions to the BCF, DFG (Disabled Facilities Grant), IBCF (improved Better Care Fund) and Winter Pressures allocations to be pooled within the BCF. These cannot be edited.
2. Please select whether any additional contributions to the BCF pool are being made from Local Authorities or the CCGs and as applicable enter the amounts in the fields highlighted in 'yellow'. These will appear as funding sources when planning expenditure. The fields for Additional contributions can be utilised to include any relevant carry-overs from the previous year.
3. Please use the comment boxes alongside to add any specific detail around this additional contribution including any relevant carry-overs assigned from previous years. All allocations are rounded to the nearest pound.
4. For any questions regarding the BCF funding allocations, please contact England.bettercaresupport@nhs.net

6. Expenditure (click to go to sheet)

This sheet should be used to set out the schemes that constitute the BCF plan for the HWB including the planned expenditure and the attributes to describe the scheme. This information is then aggregated and utilised to analyse the BCF plans nationally and sets the basis for future reporting and to particularly demonstrate that National Condition 2 and 3 are met.

The table is set out to capture a range of information about how schemes are being funded and the types of services they are providing. There may be scenarios when several lines need to be completed in order to fully describe a single scheme or where a scheme is funded by multiple funding streams (eg: iBCF and CCG minimum). In this case please use a consistent scheme ID for each line to ensure integrity of aggregating and analysing schemes.

On this sheet please enter the following information:

1. Scheme ID:

- This field only permits numbers. Please enter a number to represent the Scheme ID for the scheme being entered. Please enter the same Scheme ID in this column for any schemes that are described across multiple rows.

2. Scheme Name:

- This is a free field to aid identification during the planning process. Please use the scheme name consistently if the scheme is described across multiple lines in line with the scheme ID described above.

3. Brief Description of Scheme

- This is free text field to include a brief headline description of the scheme being planned.

4. Scheme Type and Sub Type:

- Please select the Scheme Type from the drop-down list that best represents the type of scheme being planned. A description of each scheme is available at the end of the table (follow the link to the description section at the top of the main expenditure table).

- Where the Scheme Types has further options to choose from, the Sub Type column alongside will be editable and turn "yellow". Please select the Sub Type from the drop down list that best describes the scheme being planned.

- Please note that the drop down list has a scroll bar to scroll through the list and all the options may not appear in one view.

- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.

- While selecting schemes and sub-types, the sub-type field will be flagged in 'red' font if it is from a previously selected scheme type. In this case please clear the sub-type field and reselect from the dropdown if the subtype field is editable.

5. Planned Outputs

- The BCF Planning requirements document requires areas to set out planned outputs for certain scheme types (those which lend themselves to delivery of discrete units of delivery) to help to better understand and account for the activity funded through the BCF.

- The Planned Outputs fields will only be editable if one of the relevant scheme types is selected. Please select a relevant unit from the drop down and an estimate of the outputs expected over the year. This is a numerical field.

6. Metric Impact

- This field is collecting information on the metrics that a chem will impact on (rather than the actual planned impact on the metric)

- For the schemes being planned please select from the drop-down options of 'High-Medium-Low-n/a' to provide an indicative level of impact on the four BCF metrics. Where the scheme impacts multiple metrics, this can be expressed by selecting the appropriate level from the drop down for each of the metrics. For example, a discharge to assess scheme might have a medium impact on Delayed Transfers of Care and permanent admissions to residential care. Where the scheme is not expected to impact a metric, the 'n/a' option could be selected from the drop-down menu.

7. Area of Spend:

- Please select the area of spend from the drop-down list by considering the area of the health and social system which is most supported by investing in the scheme.

- Please note that where 'Social Care' is selected and the source of funding is "CCG minimum" then the planned spend would count towards National Condition 2.

- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.

- We encourage areas to try to use the standard scheme types where possible.

8. Commissioner:

- Identify the commissioning entity for the scheme based on who commissions the scheme from the provider. If there is a single commissioner, please select the option from the drop-down list.

- Please note this field is utilised in the calculations for meeting National Condition 3.

- If the scheme is commissioned jointly, please select 'Joint'. Please estimate the proportion of the scheme being commissioned by the local authority and CCG/NHS and enter the respective percentages on the two columns alongside.

9. Provider:

- Please select the 'Provider' commissioned to provide the scheme from the drop-down list.

- If the scheme is being provided by multiple providers, please split the scheme across multiple lines.

10. Source of Funding:

- Based on the funding sources for the BCF pool for the HWB, please select the source of funding for the scheme from the drop-down list

- If the scheme is funding across multiple sources of funding, please split the scheme across multiple lines, reflecting the financial contribution from each.

11. Expenditure (£) 2019/20:

- Please enter the planned spend for the scheme (or the scheme line, if the scheme is expressed across multiple lines)

12. New/Existing Scheme

- Please indicate whether the planned scheme is a new scheme for this year or an existing scheme being carried forward.

This is the only detailed information on BCF schemes being collected centrally for 2019/20 and will inform the understanding of planned spend for the iBCF and Winter Funding grants.

7. HICM (click to go to sheet)

National condition four of the BCF requires that areas continue to make progress in implementing the High Impact Change model for managing transfers of care and continue to work towards the centrally set expectations for reducing DToC. In the planning template, you should provide:

- An assessment of your current level of implementation against each of the 8 elements of the model – from a drop-down list
- Your planned level of implementation by the end March 2020 – again from a drop-down list

A narrative that sets out the approach to implementing the model further. The Narrative section in the HICM tab sets out further details.

8. Metrics (click to go to sheet)

This sheet should be used to set out the Health and Wellbeing Board's performance plans for each of the Better Care Fund metrics in 2019/20. The BCF requires plans to be agreed for the four metrics. This should build on planned and actual performance on these metrics in 2018/19.

1. Non-Elective Admissions (NEA) metric planning:

- BCF plans as in previous years mirror the latest CCG Operating Plans for the NEA metric. Therefore, this metric is not collected via this template.

2. Residential Admissions (RES) planning:

- This section requires inputting the information for the numerator of the measure.
- Please enter the planned number of council-supported older people (aged 65 and over) whose long-term support needs will be met by a change of setting to residential and nursing care during the year (excluding transfers between residential and nursing care) for the Residential Admissions numerator measure.
- The prepopulated denominator of the measure is the size of the older people population in the area (aged 65 and over) taken from ONS subnational population projections.
- The annual rate is then calculated and populated based on the entered information.
- Please include a brief narrative associated with this metric plan

3. Reablement (REA) planning:

- This section requires inputting the information for the numerator and denominator of the measure.
- Please enter the planned denominator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (or from hospital to a residential or nursing care home or extra care housing for rehabilitation, with a clear intention that they will move on/back to their own home).
- Please then enter the planned numerator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (from within the denominator) that will still be at home 91 days after discharge.
- The annual proportion (%) Reablement measure will then be calculated and populated based on this information.
- Please include a brief narrative associated with this metric plan

4. Delayed Transfers of Care (DToC) planning:

- The expectations for this metric from 2018/19 are retained for 2019/20 and these are prepopulated.
- Please include a brief narrative associated with this metric plan.
- This narrative should include details of the plan, agreed between the local authority and the CCG for using the Winter Pressures grant to manage pressures on the system over Winter.

9. Planning Requirements (click to go to sheet)

This sheet requires the Health & Wellbeing Board to confirm whether the National Conditions and other Planning Requirements detailed in the BCF Policy Framework and the BCF Requirements document are met. Please refer to the BCF Policy Framework and BCF Planning Requirements documents for 2019/20 for further details.

The Key Lines of Enquiry (KLOE) underpinning the Planning Requirements are also provided for reference as they will be utilised to assure plans by the regional assurance panel.

1. For each Planning Requirement please select 'Yes' or 'No' to confirm whether the requirement is met for the BCF Plan.
2. Where the confirmation selected is 'No', please use the comments boxes to include the actions in place towards meeting the requirement and the target timeframes.

10. CCG-HWB Mapping (click to go to sheet)

The final sheet provides details of the CCG - HWB mapping used to calculate contributions to Health and Wellbeing Board level non-elective activity figures.

Better Care Fund 2019/20 Template

2. Cover

Version 1.2

Please Note:

- You are reminded that much of the data in this template, to which you have privileged access, is management information only and is not in the public domain. It is not to be shared more widely than is necessary to complete the return.
- Please prevent inappropriate use by treating this information as restricted, refrain from passing information on to others and use it only for the purposes for which it is provided. Any accidental or wrongful release should be reported immediately and may lead to an inquiry. Wrongful release includes indications of the content, including such descriptions as "favourable" or "unfavourable".
- Please note that national data for plans is intended for release in aggregate form once plans have been assured, agreed and baselined as per the due process outlined in the BCF Planning Requirements for 2019/20.
- This template is password protected to ensure data integrity and accurate aggregation of collected information. A resubmission may be required if this is breached.

Health and Wellbeing Board:	Shropshire
Completed by:	Penny Bason, Claire Spencer
E-mail:	Penny.bason@shropshire.gov.uk
Contact number:	0 1743252767
Who signed off the report on behalf of the Health and Wellbeing Board:	Cllr Lee Chapman
Will the HWB sign-off the plan after the submission date?	Yes
If yes, please indicate the date when the HWB meeting is scheduled:	01/11/19

	Role:	Professional Title (where applicable)	First-name:	Surname:	E-mail:
*Area Assurance Contact Details:	Health and Wellbeing Board Chair	Cllr	Lee	Chapman	lee.chapman@shropshire.gov.uk
	Clinical Commissioning Group Accountable Officer (Lead)	Mr	David	Stout	david.stout@nhs.net
	Additional Clinical Commissioning Group(s) Accountable Officers	n/a	n/a	n/a	david.stout@nhs.net
	Local Authority Chief Executive	Mr	Clive	Wright	clive.wright@shropshire.gov.uk
	Local Authority Director of Adult Social Services (or equivalent)	Mr	Andy	Begley	andy.begley@shropshire.gov.uk
	Better Care Fund Lead Official	Mrs	Tanya	Miles	tanya.miles@shropshire.gov.uk
	LA Section 151 Officer	Mr	James	Walton	james.walton@shropshire.gov.uk
Please add further area contacts that you would wish to be included in official correspondence -->	CCG Lead	Ms	Gail	Fortes-Mayer	gail.fortes-mayer@nhs.net

*Only those identified will be addressed in official correspondence (such as approval letters). Please ensure all individuals are satisfied with the information entered above as this is exactly how they will appear in correspondence.

Question Completion - when all questions have been answered and the validation boxes below have turned green you should send the template to england.bettercaresupport@nhs.net saving the file as 'Name HWB' for example 'County Durham HWB'

4. Strategic Narrative

Selected Health and Wellbeing Board: Shropshire

Please outline your approach towards integration of health & social care:

When providing your responses to the below sections, please highlight any learning from the previous planning round (2017-2019) and cover any priorities for reducing health inequalities under the Equality Act 2010.

Please note that there are 4 responses required below, for questions: A), B(i), B(ii) and C)

[Link to B\) \(i\)](#)

[Link to B\) \(ii\)](#)

[Link to C\)](#)

A) Person-centred outcomes

Your approach to integrating care around the person, this may include (but is not limited to):

- Prevention and self-care

- Promoting choice and independence

Remaining Word Limit: 316

System approach to person centred and ‘Personalised care’: from Shropshire, T&W Long Term Plan

Person centred care is at the heart of all our transformation programmes. We seek to improve services by developing well-coordinated, integrated care that works with the wishes, needs and understanding of those who receive the care (as well as their carers as appropriate). New ways of working will ensure that the current burdensome task of navigating the health and care system does not rest with the people needing the services; but rather is clear and supported by the way in which we work together across services and with our population.

Significant reform is required to integrate primary and community services, involving the voluntary and community sector (VCSE), while prioritising investment in prevention and social care. This will be done at scale and on a STP footprint where possible, as well as through our established place based programmes.

There is not a one size fits all for the development of person centred care. We will ensure flexibility to take forward different approaches and evaluate impact, responding to the needs of our communities and supporting the reduction of health inequalities. Across our STP there are some fundamental working practices that we aim to embed, these include (but not limited to):

- Empowering patients to live well, especially those with long term conditions
- Delivering through multidisciplinary teams, including primary and community care, VCSE, social care, public health and acute services
- Identifying and supporting people before they have a crisis of health care
- Utilising evidence based interventions
- Managing a different level of need in the community and as close to home as possible, with the following principles:
 - o Community based support and social prescribing
 - o Shared decision making and enabling choice
 - o personalised care and support planning
 - o Supported self-management

Significant culture change is required across our services to understand, support and develop new ways of working. Where needed, we will work across our organisations with our workforce to enhance skills, knowledge and professionalism regarding system thinking and approaches. We will work to embed routine and systematic risk stratification as well as early identification of health risk and prevention approaches across the system. We will work to embed Personalised Care and the 5 year ambitions of NHSE including Social Prescribing, Supported self-management (PAM) and Personal Health budgets.

Programmes delivering this work are already underway, however the commitment of this Long Term Plan is that person centred, place based approaches are delivered systematically and at scale.

In alignment with both the Long Term Plan and the Shropshire HWB strategy the work of the BCF seeks to improve healthy life expectancy and reduce inequalities. This includes working with those who are most in need through Social Prescribing, Let’s Talk Local and the Community Care Coordinators.

Local approach:

Building on the system narrative, Shropshire Council, Shropshire CCG and partners have worked closely to develop joint commissioning and integrated care. The work has resulted in a strengthened strategic approach and integrated delivery. The group has used the BCF to facilitate this process.

Agreed principles for developing the BCF:

- Ensure delivery of BCF priorities, national conditions and improvements in integration;
- Effective use of the Section 75 Partnership Agreement to better reflect Shropshire system;
- Joint decision making and relationship development;

B) HWB level

- (i) Your approach to integrated services at HWB level (and neighbourhood where applicable), this may include (but is not limited to):
- Joint commissioning arrangements
 - Alignment with primary care services (including PCNs (Primary Care Networks))
 - Alignment of services and the approach to partnership with the VCS (Voluntary and Community Sector)

[^^ Link back to top](#)

Remaining Word Limit:	0
-----------------------	---

At a HWBB level, the system is focussing clearly on place based integrated care for Admissions Avoidance, which has been delivered through a number of schemes including:

- Integrated Community Services (ICS)
- Community Social Work Teams
- Short Term Assessment and Reablement Team (START)
- Occupational therapy

A cornerstone of the BCF has been the ICS team which has focussed hospital transfers and keeping people out of hospital once they have returned home. This programme is ongoing and enabled by the BCF, however the system is now working to keep many more people from reaching hospital in the first place. Care Closer to Home provides person centred, place based care, supporting people where they live. Enabled by an Alliance MoU, this programme focusses on joint working across commissioners and providers (namely Shropshire CCG, Shropshire Council, Shropshire Community Health Trust, Midlands Partnership Foundation Trust) and is a key programme of the BCF’s Admission Avoidance strategic priority. The programme works to:

“Use all available resources to commission integrated health and care services that are clinically effective and cost-efficient and as close as possible to where people with the greatest need live”.

The programme works across health, care and the VCS to identify people who could benefit from case management support in order to avoid future ill health and hospital admissions. The programme is being delivered with 8 pilot sites (GP practices), transformation is underpinned by the ambition for earlier identification of need, earlier intervention, and proactive & preventative care and support that keeps people as well as possible, for as long as possible and in their own home or community. This is intended to deliver better patient experience, improved health outcomes, improved system pathways, one point of contact for patient/families & carers, and reduction of unnecessary emergency admissions into the acute hospital. It has been broken down into phases as follows:

Phase 1 – A dedicated Frailty Intervention Team (FIT) based in the Emergency Department and responsible for the early identification, treatment, risk assessment and planning for frail and long term condition patients. The team facilitate appropriate triage of patients to either the acute/community/home setting. This team liaise and work with existing teams in the community such as intermediate care, Care Co-ordinators etc. 90+ patients are added to the FIT case load each week and the team facilitate an average of 7 discharges every day. 83% of those discharged go home. There has been a reduction in the conversion rate from ED to admission for >75s at RSH to 53.02% compared to 57.71% in the same period the previous year. The target admission avoidance for this phase of the Programme is 558 in 18/19.

Phase 2 – Risk stratification and proactive/preventative Case Management through integrated health & social care case management teams working in hub buildings, delivering services to clusters of GP practices. The model was collaboratively developed and approved in August 2018. The risk stratification process is a quarterly report produced by an electronic tool combining primary, secondary, and social care data to pick up patients who would be suitable for the multi-disciplinary, health and social care Case Management Team to review and actively case manage. GP’s and other healthcare professionals will be able to refer into this service at any time.

Phase 3 – The third phase, which is community-based acute and semi-acute responsive services is made up of a range of high-level models:

- Hospital at Home
- Standardised DAART (rapid access to diagnostics, rehab and certain interventions)
- Rapid Response
- Crisis

While Care Closer to Home develops, work is underway to ensure that winter 19/20 is safeguarded from rising pressure in the acute setting. Winter 2018/19 demonstrated significant pressures on the health system. Medical bed capacity was on occasion insufficient for demand, and the CCG received reports of corridor waits and ambulance handover delays which cause concern from a patient safety and quality of care perspective.

An additional admissions avoidance scheme that will be implemented for winter 19/20 will provide rapid assessment and interventions to avoid an unnecessary emergency admission to an acute or community hospital. The service will work with people requiring support, in their own home utilising a person centred, strength and asset based approach.

(ii) Your approach to integration with wider services (e.g. Housing), this should include:	
- Your approach to using the DFG to support the housing needs of people with disabilities or care needs. This should include any arrangements for strategic planning for the use of adaptations and technologies to support independent living in line with the	
Remaining Word Limit:	339

[^^ Link back to top](#)

Using the BCF as a catalyst for further integrated working, Shropshire council and partners are working to ensure people can remain in their homes for as long as possible using appropriate legislation and the Disabled Facility Grant (under a duty to award mandatory Disabled Facilities Grants (DFGs) in accordance with the Housing Grants, Construction and Regeneration Act 1996) for aids, adaptations and technology.

The Regulatory Reform (Housing Assistance) Order 2002, introduced a new, wider discretionary power to allow local authorities to provide a range of financial and other assistance for repairs, improvements and adaptations. The intention is to allow greater flexibility and discretion in delivering housing renewal.

It is a Shropshire priority to ensure that people with a disability are supported to maximise their independence within the community. It is important that at the earliest stage, after contacting Shropshire Council for assistance, that individuals are engaged in discussions around how best both their short and longer-term needs can be met. Several key partners may be able to assist with this process eg, Shropshire Council’s Private Sector Housing Grants Officers and Home Improvement Service, Occupational Therapists and Social Workers as well as Registered Social Landlords, Private Landlords and Shropshire Disability Network.

Equipment and Minor Adaptations

The provision of equipment or minor adaptations e.g. grab rails can often assist disabled people in meeting their needs.

Moving to more suitable accommodation

Shropshire Council works closely with partners with the aim of optimising the opportunities for re-housing people with disabilities in properties which either have appropriate adaptations in place which meet the individuals housing need or can be easily adapted to meet that need. A relocation grant can be available for this purpose.

Adaptations

If equipment or relocation are not a suitable option, it may be appropriate to consider the possibility of carrying out adaptations to an existing home.

Shropshire Council may provide the following discretionary assistance:

- Relocation Grant
- Major Equipment Grant (MEG)
- Discretionary Adaptation Funding Assistance
- Discretionary Emergency Funding Assistance

Tenants of Registered Social Landlords (i.e. Housing Associations) should contact their landlord in the first instance so that the landlord can consider funding the work themselves.

Shropshire Council works in partnership with Housing Associations in the area and funding equivalent to a Disabled Facilities Grant may be provided through alternative mechanisms.

Technology

The DFG is supporting community based and technology enabled programmes to keep people independent in their communities for longer.

These projects explore different delivery models for existing telecare provision, as well as seeing how the latest consumer technology can be used or repurposed as Technology Enabled Care. Currently there are 3 such projects underway:

- Hospital Discharge Telecare Pilot
- The Broseley Project
- Beech Gardens Step-Down Beds

C) System level alignment, for example this may include (but is not limited to):	
- How the BCF plan and other plans align to the wider integration landscape, such as STP/ICS plans	
- A brief description of joint governance arrangements for the BCF plan	
Remaining Word Limit:	436

[^^ Link back to top](#)

The BCF and the 8 High Impact Change Model provides a framework and an impetus for the system to work collaboratively on transfers of care. The BCF schemes along with a number of schemes in the iBCF and winter pressures has ensured our improved and stable DTOC metrics. Additionally, as this system has one NHS acute provider, one NHS community provider and one NHS mental health provider, we work as one system across Shropshire and Telford and Wrekin, to deliver the 8 High Impact Change Model, which is governed through the system A&E Delivery Group/ Board and for Shropshire the Joint Commissioning Group.

Early discharge planning is supported through Frailty at the Front door (Care Closer to Home Phase 1), Red2Green, EDDs are in place within 48 hours with 75% achievement rate of date set, and utilisation of Criteria led discharge.

The Shropshire Integrated Community Service continues to provide a locality based health and social care, community and voluntary sector integrated team with responsibility to facilitate discharge from an in-patient bed.

Key service aims are:

- Develop and deliver services that offer a robust, effective alternative to bed based rehabilita-tion and enablement.
- To maintain people in their home when they experience an acute exacerbation of a long term condition or a rapid deterioration in health or wellbeing to avoid an unnecessary emergency admission to an acute or community hospital.
- Simplify and rationalise the range and pattern of intermediate care services to reduce com-plexity and fragmentation so they are more consistent in both their quality and the services of-fered.
- Deliver the best, outcome-based, efficient, integrated health and social care pathways based on the needs of patients and carers for intermediate care services routed within a mixed econ-omy, including the community and voluntary sector.
- Develop the capability to harness the power of the wider community to support people in their own homes.

- To deliver the optimum skill mix which ensures that the response provided to the patient is ap-propriate and proportionate to the assessed needs.

Systems to monitor patient flow will move to mature by the end of the year and include step down beds, additional bed capacity in the appropriate pathways through the iBCF and winter pressures, embedding IDTs and the development of the out of hospital models of working support this requirement.

Fact Find Assessments (FFAs) are fully implemented and used jointly. In addition to ICS, multidisciplinary teams are being developed through Phases 1 and 2 of Care Closer to Home and going forward through phase 3. Close working with the voluntary and Community Sector and the independent sector provide additional capacity in the system and are supported by the iBCF and winter pressures. Seven day services are being delivered through primary care, discharge teams, independent assessor roles, social care, care providers and brokerage. New service specifications and contracting are ensuring 7 day services where possible.

Additionally, the iBCF and winter pressures are used to develop schemes to ensure people are supported in their homes as much as possible. These schemes can be seen as both admission avoidance and supporting transfers of care and in include 2 Carers in a Car, Carers information hub, expansion of START (to ensure that Home First is the preferred pathway), additional discharge beds, brokerage, and working with the Red Cross.

This grant funding is also supporting the Trusted Assessor programme. Trusted assessors employed by Shropshire Community Trust support care homes, the acute and ambulance services to ensure good patient flow and improved outcomes for people in care homes. The Trusted Assessor team are also delivering the Red Bag programme – which is being rolled out in phases.

Additional work is underway as a system to support care homes. The Care Home Advance Scheme in Shropshire aligns GP practices to care home settings and ensures that patients get the care planning that they need. The aim is to reduce hospital admissions and allow people to return home as soon as possible.

Health Inequalities

The BCF aligns with system work on improving health inequalities. The government publication, Place based approaches to health inequalities demonstrates causes of health inequalities and provides a map for strategic planners to consider how the system can work toward reducing inequalities through

[illegible]

[illegible]

[^^ Link back up](#)

<u>Scheme Type</u>	<u>Description</u>	<u>Sub Type</u>
Assistive Technologies and Equipment	Using technology in care processes to supportive self-management, maintenance of independence and more efficient and effective delivery of care. (eg. Telecare, Wellness services, Digital participation services).	Telecare Wellness Services Digital Participation Services Community Based Equipment Other
Care Act Implementation Related Duties	Funding planned towards the implementation of Care Act related duties.	Deprivation of Liberty Safeguards (DoLS) Other
Carers Services	Supporting people to sustain their role as carers and reduce the likelihood of crisis. Advice, advocacy, information, assessment, emotional and physical support, training, access to services to support wellbeing and improve independence. This also includes the implementation of the Care Act as a sub-type.	Carer Advice and Support Respite Services Other
Community Based Schemes	Schemes that are based in the community and constitute a range of cross sector practitioners delivering collaborative services in the community typically at a neighbourhood level (eg: Integrated Neighbourhood Teams)	
DFG Related Schemes	The DFG is a means-tested capital grant to help meet the costs of adapting a property; supporting people to stay independent in their own homes.	Adaptations Other

Enablers for Integration	Schemes that build and develop the enabling foundations of health and social care integration encompassing a wide range of potential areas including technology, workforce, market development (Voluntary Sector Business Development: Funding the business development and preparedness of local voluntary sector into provider Alliances/ Collaboratives) and programme management related schemes. Joint commissioning infrastructure includes any personnel or teams that enable joint commissioning. Schemes could be focused on Data Integration, System IT Interoperability, Programme management, Research and evaluation, Supporting the Care Market, Workforce development, Community asset mapping, New governance arrangements, Voluntary Sector Development, Employment services, Joint commissioning infrastructure amongst others.	
High Impact Change Model for Managing Transfer of Care	The eight changes or approaches identified as having a high impact on supporting timely and effective discharge through joint working across the social and health system. The Hospital to Home Transfer Protocol or the 'Red Bag' scheme, while not in the HICM as such, is included in this section.	Chg 1. Early Discharge Planning Chg 2. Systems to Monitor Patient Flow Chg 3. Multi-Disciplinary/Multi-Agency Discharge Teams Chg 4. Home First / Discharge to Access Chg 5. Seven-Day Services Chg 6. Trusted Assessors Chg 7. Focus on Choice Chg 8. Enhancing Health in Care Homes Other - 'Red Bag' scheme Other approaches
Home Care or Domiciliary Care	A range of services that aim to help people live in their own homes through the provision of domiciliary care including personal care, domestic tasks, shopping, home maintenance and social activities. Home care can link with other services in the community, such as supported housing, community health services and voluntary sector services.	
Housing Related Schemes	This covers expenditure on housing and housing-related services other than adaptations; eg: supported housing units.	

Integrated Care Planning and Navigation	<p>Care navigation services help people find their way to appropriate services and support and consequently support self-management. Also, the assistance offered to people in navigating through the complex health and social care systems (across primary care, community and voluntary services and social care) to overcome barriers in accessing the most appropriate care and support. Multi-agency teams typically provide these services which can be online or face to face care navigators for frail elderly, or dementia navigators etc. This includes approaches like Single Point of Access (SPoA) and linking people to community assets.</p> <p>Integrated care planning constitutes a co-ordinated, person centred and proactive case management approach to conduct joint assessments of care needs and develop integrated care plans typically carried out by professionals as part of a multi-disciplinary, multi-agency teams.</p> <p>Note: For Multi-Disciplinary Discharge Teams and the HICM for managing discharges, please select HICM as scheme type and the relevant sub-type. Where the planned unit of care delivery and funding is in the form of Integrated care packages and needs to be expressed in such a manner, please select the appropriate sub-type alongside.</p>	<p>Care Coordination</p> <p>Single Point of Access</p> <p>Care Planning, Assessment and Review</p> <p>Other</p>
Intermediate Care Services	<p>Short-term intervention to preserve the independence of people who might otherwise face unnecessarily prolonged hospital stays or avoidable admission to hospital or residential care. The care is person-centred and often delivered by a combination of professional groups. Four service models of intermediate care are: bed-based intermediate care, crisis or rapid response (including falls), home-based intermediate care, and reablement or rehabilitation. Home-based intermediate care is covered in Scheme-A and the other three models are available on the sub-types.</p>	<p>Bed Based - Step Up/Down</p> <p>Rapid / Crisis Response</p> <p>Reablement/Rehabilitation Services</p> <p>Other</p>

Personalised Budgeting and Commissioning	Various person centred approaches to commissioning and budgeting.	Personal Health Budgets Integrated Personalised Commissioning Direct Payments Other
Personalised Care at Home	Schemes specifically designed to ensure that a person can continue to live at home, through the provision of health related support at home often complemented with support for home care needs or mental health needs. This could include promoting self-management/expert patient, establishment of ‘home ward’ for intensive period or to deliver support over the longer term to maintain independence or offer end of life care for people. Intermediate care services provide shorter term support and care interventions as opposed to the ongoing support provided in this scheme type.	
Prevention / Early Intervention	Services or schemes where the population or identified high-risk groups are empowered and activated to live well in the holistic sense thereby helping prevent people from entering the care system in the first place. These are essentially upstream prevention initiatives to promote independence and well being.	Social Prescribing Risk Stratification Choice Policy Other
Residential Placements	Residential placements provide accommodation for people with learning or physical disabilities, mental health difficulties or with sight or hearing loss, who need more intensive or specialised support than can be provided at home.	Supported Living Learning Disability Extra Care Care Home Nursing Home Other
Other	Where the scheme is not adequately represented by the above scheme types, please outline the objectives and services planned for the scheme in a short description in the comments column.	

Better Care Fund 2019/20 Template

7. High Impact Change Model

Selected Health and Wellbeing Board:

Shropshire

Explain your priorities for embedding elements of the High Impact Change Model for Managing Transfers of Care locally, including:

- Current performance issues to be addressed
- The changes that you are looking to embed further - including any changes in the context of commitments to reablement and Enhanced Health in Care Homes in the NHS Long-Term Plan
- Anticipated improvements from this work

Early discharge planning is supported through Frailty at the Front door (Care Closer to Home Phase 1), Red2Green, EDDs are in place within 48 hours with 75% achievement rate of date set, and utilisation of Criteria led discharge. The system is working to move from established to mature, however it is not anticipated by Q4 - additional work will be undertaken through primary care and the A&E Delivery Group to accelerate this work.

The Shropshire Integrated Community Service continues to provide a locality based health and social care, community and voluntary sector integrated team with responsibility to facilitate discharge from an in-patient bed.

Systems to monitor patient flow will move to mature by the end of the year and include step down beds, additional bed capacity in the appropriate pathways through the iBCF and winter pressures, embedding IDTs and the development of the out of hospital models of working support this requirement.

Fact Find Assessments (FFAs) are fully implemented and used jointly. In addition to ICS, multidisciplinary teams are being developed through Phases 1 and 2 of Care Closer to Home and going forward through phase 3. Close working with the voluntary and Community Sector and the independent sector provide additional capacity in the system and are supported by the iBCF and winter pressures. Seven day services are being delivered through primary care, discharge teams, independent assessor roles, social care, care providers and brokerage. New service specifications and contracting are ensuring 7 day services where possible.

Trusted assessors employed by Shropshire Community Trust support care homes, the acute and ambulance services to ensure good patient flow and improved outcomes for people in care homes. The Trusted Assessor team are also delivering the Red Bag programme – which is being rolled out in phases.

Additional work is underway as a system to support care homes. The Care Home Advance Scheme in Shropshire aligns GP practices to care home settings and ensures that patients get the care planning that they need. The aim is to reduce hospital admissions and allow people to return home as soon as possible.

		Please enter current position of maturity	Please enter the maturity level planned to be reached by March 2020	If the planned maturity level for 2019/20 is below established, please state reasons behind that?

8. Metrics

Selected Health and Wellbeing Board:

Shropshire

8.1 Non-Elective Admissions

	19/20 Plan	Overview Narrative
Total number of specific acute non-elective spells per 100,000 population	Collection of the NEA metric plans via this template is not required as the BCF NEA metric plans are based on the NEA CCG Operating plans submitted via SDCS.	Admission Avoidance schemes - Risk stratification and proactive/preventative Case Management through integrated health & social care case management teams working in hub buildings, delivering services to clusters of GP practices. The risk stratification process is a quarterly report produced by an electronic tool combining primary, secondary, and social care data to pick up patients who would be suitable for the multi-disciplinary, health and social care Case Management Team to review and actively case manage. GP's and other healthcare professionals will be able to refer into this service at any time. An additional admissions avoidance scheme that will be implemented for winter 19/20 will provide rapid assessment and interventions to avoid an unnecessary emergency admission to an acute or community hospital. The service will work with people requiring support, in their own home utilising a person centred, strength and asset based approach. Once stabilised, the patient will receive a comprehensive assessment of their needs and be supported to develop a time limited independence plan enabling individual and their carers to remain as independent as possible, for as long as possible. The scheme is expected to reduce NEA over the winter months, and will be evaluated for effectiveness.

Please set out the overall plan in the HWB area for reducing Non-Elective Admissions, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Plans are yet to be finalised and signed-off so are subject to change; **for the latest version of the NEA CCG operating plans at your HWB footprint please contact your local Better Care Manager (BCM)** in the first instance or write in to the support inbox:
ENGLAND.bettercaresupport@nhs.net

8.2 Delayed Transfers of Care

19/20 Plan	Overview Narrative
------------	--------------------

Delayed Transfers of Care per day (daily delays) from hospital (aged 18+)	17.0	<p>The BCF and the 8 High Impact Change Model provides a framework and an impetus for the system to work collaboratively on transfers of care. The BCF schemes along with a number of schemes in the iBCF and winter pressures have ensured our improved and stable DTOC metrics. The grant funding is used to develop schemes to ensure people are supported in their homes as much as possible. These schemes can be seen as both admission avoidance and supporting transfers of care and in include 2 Carers in a Car, Carers information hub, expansion of START (to ensure that Home First is the preferred pathway), additional discharge beds, brokerage, and working with the Red Cross.</p>	<p>Please set out the overall plan in the HWB area for reducing Delayed Transfers of Care to meet expectations set for your area. This should include any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric. Include in this, your agreed plan for using the Winter Pressures grant funding to support the local health and care system to manage demand pressures on the NHS, with particular reference to seasonal winter pressures.</p>
---	------	---	--

Please note that the plan figure for Greater Manchester has been combined, for HWBs in Greater Manchester please comment on individuals HWBs rather than Greater Manchester as a whole.
Please note that due to the merger of Bournemouth, Christchurch and Poole to a new Local Authority will mean that planning information from 2018/19 will not reflect the present geographies.

8.3 Residential Admissions

		18/19 Plan	19/20 Plan	Comments
Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000 population	Annual Rate	596	594	START is a very successful hospital discharge and admission avoidance reablement service. The service works alongside the ICS service and aims to provide personal care and support to all Shropshire Council residents aged 18 and over who have been assessed as requiring short term support to help them regain the level of independence they had before they became unwell, or to achieve their personal new level of independence. The team supports a large number of people back to independence with no need for any ongoing formal services. START reduces the number of who go on to need long term formal support at the end of the 6 week reablement period. Hospital readmission numbers for individuals being supported by START is very low.
	Numerator	464	470	
	Denominator	77,788	79,097	

Please set out the overall plan in the HWB area for reducing rates of admission to residential and nursing homes for people over the age of 65, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000 population (aged 65+) population projections are based on a calendar year using the 2016 based Sub-National Population Projections for Local Authorities in England;

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

8.4 Reablement

		18/19 Plan	19/20 Plan	Comments
Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement / rehabilitation services	Annual (%)	82.0%	82.0%	This percentage is about 94% when you don't count people who have died. Therefore, given the age of our population, we proposed to keep this at 82% for this year. Combination of the schemes described throughout this plan including: - ICS and START - Care closer to home - Use of the Disabled Facilities Grant (DFG) - Assistive technology
	Numerator	1,584	1584	
	Denominator	1,932	1932	

Please set out the overall plan in the HWB area for increasing the proportion of older people who are still at home 91 days after discharge from hospital into reablement/rehabilitation, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

Better Care Fund 2019/20 Template

9. Confirmation of Planning Requirements

Selected Health and Wellbeing Board:

Shropshire

Theme	Code	Planning Requirement	Key considerations for meeting the planning requirement These are the Key Lines of Enquiry (KLOEs) underpinning the Planning Requirements (PR)	Please confirm whether your BCF plan meets the Planning Requirement?	Please note any supporting documents referred to and relevant page numbers to assist the assurers	Where the Planning requirement is not met, please note the actions in place towards meeting the requirement	Where the Planning requirement is not met, please note the anticipated timeframe for meeting it
NC1: Jointly agreed plan	PR1	A jointly developed and agreed plan that all parties sign up to	Has a plan; jointly developed and agreed between CCG(s) and LA; been submitted? Has the HWB approved the plan/delegated approval pending its next meeting? Have local partners, including providers, VCS representatives and local authority service leads (including housing and DFG leads) been involved in the development of the plan? Do the governance arrangements described support collaboration and integrated care? Where the strategic narrative section of the plan has been agreed across more than one HWB, have individual income, expenditure, metric and HICM sections of the plan been submitted for each HWB concerned?	Yes	Plan will be formally approved at the November HWBB. The Joint Commissioning Group has been given delegated authority. The Group has been guided by the section 75 Partnership agreement and the Joint Statement of Intent.		
	PR2	A clear narrative for the integration of health and social care	Is there a narrative plan for the HWB that describes the approach to delivering integrated health and social care that covers: - Person centred care, including approaches to delivering joint assessments, promoting choice, independence and personalised care? - A clear approach at HWB level for integrating services that supports the overall approach to integrated care and confirmation that the approach supports delivery at the interface between health and social care? - A description of how the local BCF plan and other integration plans e.g. STP/ICs align? - Is there a description of how the plan will contribute to reducing health inequalities (as per section 4 of the Health and Social Care Act) and to reduce inequalities for people with protected characteristics under the Equality Act 2010? This should include confirmation that equality impacts of the local BCF plan have been considered, a description of local priorities related to health inequality and equality that the BCF plan will contribute to addressing. Has the plan summarised any changes from the previous planning period? And noted (where appropriate) any lessons learnt?	Yes	supporting documents include: HWB Strategy, Section 75 P'ship agreement, Statement of Intent, NHS draft Long Term Plan		
	PR3	A strategic, joined up plan for DFG spending	Is there confirmation that use of DFG has been agreed with housing authorities? Does the narrative set out a strategic approach to using housing support, including use of DFG funding that supports independence at home. In two tier areas, has: - Agreement been reached on the amount of DFG funding to be passed to district councils to cover statutory Disabled Facilities Grants? or - The funding been passed in its entirety to district councils?	Yes			
NC2: Social Care Maintenance	PR4	A demonstration of how the area will maintain the level of spending on social care services from the CCG minimum contribution to the fund in line with the uplift in the overall contribution	Does the total spend from the CCG minimum contribution on social care match or exceed the minimum required contribution (auto-validated on the planning template)?	Yes			
NC3: NHS commissioned Out of Hospital Services	PR5	Has the area committed to spend at equal to or above the minimum allocation for NHS commissioned out of hospital services from the CCG minimum BCF contribution?	Does the total spend from the CCG minimum contribution on non-acute, NHS commissioned care exceed the minimum ringfence (auto-validated on the planning template)?	Yes			
NC4: Implementation of the High Impact Change Model for Managing Transfers of Care	PR6	Is there a plan for implementing the High Impact Change Model for managing transfers of care?	Does the BCF plan demonstrate a continued plan in place for implementing the High Impact Change Model for Managing Transfers of Care? Has the area confirmed the current level of implementation and the planned level at March 2020 for all eight changes? Is there an accompanying overall narrative setting out the priorities and approach for ongoing implementation of the HICM? Does the level of ambition set out for implementing the HICM changes correspond to performance challenges in the system? If the current level of implementation is below established for any of the HICM changes, has the plan included a clear explanation and set of actions towards establishing the change as soon as possible in 2019-20?	Yes	8 High Impact Action Plan		

Agreed expenditure plan for all elements of the BCF	PR7	Is there a confirmation that the components of the Better Care Fund pool that are earmarked for a purpose are being planned to be used for that purpose?	Have the planned schemes been assigned to the metrics they are aiming to make an impact on? Expenditure plans for each element of the BCF pool match the funding inputs? (auto-validated) Is there confirmation that the use of grant funding is in line with the relevant grant conditions? (tick-box) Is there an agreed plan for use of the Winter Pressures grant that sets out how the money will be used to address expected demand pressures on the Health system over Winter? Has funding for the following from the CCG contribution been identified for the area? - Implementation of Care Act duties? - Funding dedicated to carer-specific support? - Reablement?	Yes			
	PR8	Indication of outputs for specified scheme types	Has the area set out the outputs corresponding to the planned scheme types (Note that this is only for where any of the specified set of scheme types requiring outputs are planned)? (auto-validated)	Yes			
Metrics	PR9	Does the plan set stretching metrics and are there clear and ambitious plans for delivering these?	Is there a clear narrative for each metric describing the approach locally to meeting the ambition set for that metric? Is there a proportionate range of scheme types and spend included in the expenditure section of the plan to support delivery of the metric ambitions for each of the metrics? Do the narrative plans for each metric set out clear and ambitious approaches to delivering improvements? Have stretching metrics been agreed locally for: - Metric 2: Long term admission to residential and nursing care homes - Metric 3: Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement	Yes			

CCG to Health and Well-Being Board Mapping for 2019/20
