## **Financial Monitoring Period 7 2025/26**

Responsible Officer:		James Walton, Executive Director (Section 151)		
email: james.walton@shropshire.gov		v.uk		
Cabine	et Member (Portfolio Holder):	Roger Evans, Finance		

### 1. Synopsis

The completion of the detailed review of financial projections ahead of an application to MHCLG for Exceptional Financial Support in December reflects a forecast outturn overspend of £50.746m. The Council is undertaking emergency actions to ensure the financial survival of the Council in the current year.

## 2. Executive Summary

- 2.1. The key issues highlighted by this report are:
  - A. The completion of an in depth review into the in-year financial position following the declaration of a financial emergency on 10 September 2025 has resulted in a worsened forecast projected outturn position as at 31 October 2025 of £50.746m a deterioration of £3.677m from that reported at Quarter 2. The authority is confident that all significant areas have now been reviewed and is working closely with the LGA to support actions to rectify the current position.
  - B. An initial General Fund Balance of £34.280m indicates that the projected variance would not be accommodated. Contingency funding has been identified within earmarked reserves to provide further resilience over the remainder of the financial year which includes the winter period.

- C. The Council is in active discussions with the Government, via the Ministry for Housing, Communities and Local Government, regarding the need for Exceptional Financial Support for 2025/26 and future years.
- 2.2. The financial position of the council remains highly challenging. Officers and Members across the Council are working under a declared financial emergency and every action is being taken to ensure in-year spend is minimised and income maximised. The key overall indicator of financial health for the Council is the General Fund Balance. However, a wide range of factors impact on that value. As such, the overall financial position has been analysed into seven separate areas that underpin the strategic risk "Inability to Contain overall committed Expenditure within the Current Available Resources within this Financial Year".
- 2.3. Table 1 below highlights the scenarios relating to the Council's revenue position only, presenting a range of possible outcomes.

Table 1 – Forecast as at 31 October showing the Revenue Monitoring central forecast and other possible scenarios

Scenario	Potential variation to budget £'000	Available General Fund Balance £'000	Unfunded Overspend £'000
Favourable	48.746	-34.280	14.466
Central	50.746	-34.280	16.466
Adverse	56.924	-34.280	22.644

- 2.4. The Council's financial position is complicated significantly by two further issues; funding for transformation activity through to March 2026 from Capital Receipts generation, and funding for the North West Relief Road should it be cancelled and/or unfunded from Department for Transport. A description of all seven risks referred to in 2.2 above and the current perspective on these is set out in the table 2 below.
- 2.5. As a result, the Council has created a three step plan to manage the revenue monitoring position in-year:
  - Setting a proposed minimum value for General Fund Balance of £5m by year end to ensure sufficient resilience to unknown shocks over the remaining five months of the financial year.
  - Created a contingency fund from earmarked reserves of £5.478m to help manage the financial risks identified within the adverse scenario and help reduce reliance on General Fund Balances from known risks.
  - Continuing active discussions with the Ministry for Housing, Communities and Local Government to request Exceptional Financial Support for 2025/26 and future years. An application of £21.466m has been identified to support revenue monitoring projections and the two points listed above.
- 2.6. The Council will continue to progress an application for in-principle Exceptional Financial Support to cover the issues raised in 2.4, in addition to the points raised in 2.6.

- A Capitalisation Direction for up to £10m to support funding for transformational activity through to March 2026 that cannot be accommodated through capital receipts generation over the remainder of the year.
- A Capitalisation Direction for up to £38.895m to enable the write off of spending relating to the North West Relief Road Project should the scheme be cancelled before year end and all costs fall upon the revenue account.
- 2.7. The issues raised in paragraphs 2.5 and 2.6 result in an in-year application for Exceptional Financial Support of up to £71.361m. The previously reported figure was £64m although, in anticipation of completing the detailed financial review in Period 7, the CEO and s151 Officer discussed a figure of up to £75m with MHCLG.
- 2.8. Confirmation of Exceptional Financial Support to the value of £71.361m, alongside the establishment of a contingency reserve of £5.478m and a proposed year end balance of £5m will ensure that the central, favourable and adverse scenarios can be accommodated would remove the need for a section 114 Report to be issued.
- 2.9. A formal application for Exception Financial Support will be made in December 2025 according to the process yet to be confirmed by MHCLG and based on the information included within this report. On this basis, it is proposed that a Period 8 Financial Monitoring Report is not completed, enabling senior officers, budget holders and the finance team to focus on establishment of the 2026/27 budget and MTFS, reflecting the financial implications arising from the completion of the deep dive review

#### 3. Recommendations

- 3.1. It is recommended that Cabinet Members:
  - A. Ensure actions taken by officers under the declared Financial Emergency are focussed to ensure all spending and income generation over the remainder of the financial year is scrutinised to actively improve the Council's projected year end position. Action must predominantly focus on reducing spend, increasing income, delivering remaining savings and mitigating in-year spending pressures.
  - B. Support the continued use of Operations Boards, which have been in place from August 2025, to challenge all in-year spending, and more recently have been further enhanced to bring greater Service Director scrutiny. The impact of these boards will continue to inform future Finance Monitoring reports.
  - C. Consider the projected spend over budget at Period 7 of £50.746m.
  - D. Consider the indicative level of savings delivery at Period 7 of £20.917m (34.94%).
  - E. Support the proposal for a minimum value of £5m for the General Fund Balance and the ringfencing of a Contingency Fund of £5.478m.
  - F. Support the proposed application for Exceptional Financial Support of £71.361m made up of £21.466m for revenue monitoring pressures, up to £10m for transformation activity and up to £38.895m for NWRR write off costs (should this be necessary). The decision on the final application will be made by the s151 Officer in consultation with the Portfolio Holder for Finance.

## Report

## 4. Risk Assessment and Opportunities Appraisal

4.1. A more regular review of the emerging financial position for the year is an essential part of the risk management approach of the council during the coming year. The level of savings delivery and financial pressures in the current year are a recognised risk for the 2025/26 budget and continued focus and action are being put in place to address this.

#### 4.2. Risk table:

Risk	Mitigation
Savings delivery is below the targeted level; mitigations to unachieved savings are not secured at reasonable levels. Savings of £59.9m were agreed for the 2025/26 budget including £7.7m new savings, £10.9m of demand management activity in social care, and £41.3m of savings carried forward from 2024/25.	Savings delivery is divided into two main areas of activity – service-led activity and organisational-wide initiatives – each with different approaches. Organisational savings are the bulk of the carried forward savings from 2024/25 and are subject to support from the Project Management Office with further, deeper, initiatives proposed to mitigate shortfalls. Some areas of savings proposed by service leads have not yet been wholly achieved (or mitigated). Action must be taken in these areas to secure the savings as planned, or to mitigate unachieved savings through other measures.
That management actions required to bring the budget into balance do not yield the results being targeted, leading to a larger pressure on the general fund balance.	Engagement and action planning through the Leadership Board and Service Director's respective teams will provide mitigation to this risk. This includes visibility and closer scrutiny of all spending decisions in both pay and non-pay areas.  Implementation of operations boards, with enhanced Service Director scrutiny to oversee spending and recruitment will help enforce management actions.  From Period 7, Leadership Board now receive details on any key assumptions and risks underpinning the financial projections, so that an informed position can be agreed for the financial year and appropriate action taken, where necessary, to mitigate any know risks.  Budget holder engagement has also been flagged with the Leadership Board to ensure that all areas of the budget are being reviewed by the relevant accountable officers for the budget. This should drive better engagement and ensure that all relevant officers are sighted on actions they can take to manage their budget areas.
Insufficient reserves to cover projected overspending or other deficits	Improved budget preparation process with more analysis of current and future activity trends will help mitigate this risk. Modelling of current and future reserves levels, including both earmarked and unearmarked, against likely levels of pressure and impact on securing the desirable level of unearmarked (general) reserves. Review of ways in which further funds can be brought into unallocated general fund balances and reserves to support balance sheet repair and reserves improvement. The immediate aim is to retain a General Fund Balance of at least £5m by

Transformation & Improvement Scrutiny 1st December 2025, Cabinet 3rd December 2025 - Financial Monitoring Period 7

	year end and then increase within the range of £15m to £30m.
eted risks arise of the financial	The general fund balance is reviewed as part of setting the budget each year and compared with known areas of local risks (such as the pay settlement for staff, supply chain inflation, resident need for different services). The assessment at the start of the year indicated that the balance at 1 April would be sufficient to cover a range of risks. The current forecast indicates that risks are exceeding this assessment and cannot be sustained.

- 4.3. The key opportunity is that the reporting period is to the end of October, and this report will be considered in early December by Cabinet. Therefore, action can be taken to secure an improved financial position in the last five months of the financial year.
- 4.4. The Council continues to review 7 key risks around financial pressures, as set out in previous reports. These summarise key areas which could substantially change the overall position of the Council. Table 2 (below) summarises the nature of each risk and the P7 view on the position for each, as well as how those might change, both favourably and unfavourably.

Table 2 – Analysis of Three Forecast Scenarios with commentary

					Period 7		
Survival factor	MTFS assumption	Fav		Central		Adv	
1. Savings delivery	Budget and MTFS assume 100% delivery of all savings on a recurrent basis. For 2025/26 a mitigation against in-year optimism bias was included in the GFB calculation at £11.5m (equating to c75% delivery against the 2025/26 target of £59.9m (excluding demand mitigations)	38.959	Tracker reds as at 31 Oct are £38.959m of which £34.395m elates to brought forward savings from 2024/25 for which there are not robust delivery plans in place.	38.959	tracker reds @ 31 Oct are £38.959m of which £34.395m relates to brought forward savings from 2024/25 for which there are not robust delivery plans in place.	41.137	tracker reds @ 31 Oct are £38.959m of which £34.395m relates to brought forward savings from 2024/25 for which there are not robust delivery plans in place. Potential risk around amber savings that may not be realised in-year (£2.178m).
2. Social care demand pressure beyond budget estimates	Demand reduction measures assumed to support delivery within budget. Excess demand beyond that will impact overall financial performance.	34.350	No more favourable position currently identified.	34.350	Social Care Demand pressures in Adults and Childrens are not managed to available budget. Aim to mitigate against higher overspends in future months. Plus an increased risk of insufficient health contributions towards complex cases in light of increased CHC transfers.		Social Care Demand pressures in Adults and Children's are not managed to existing overspend, generating higher overspends in future months. Plus an increased risk of insufficient health contributions towards complex cases in light of increased CHC transfers.
	The budget assumes all material considerations are included in the estimates. Other pressures outside those estimates are not included, hence the provision of a general fund balance (although other Councils include a revenue contingency budget).		Assumes an improvement in one-off savngs delivery.	-22.563	No material pressures identified beyond those in the two sections above. Significant one-off savings currently identified offsetting pressures in savings delivery and social care. Use of remaining General Fund Balance	-20.563	Assumes a deterioration in one-off savngs delivery.
Subtotal - Reven	ue Monitoring Postion	48.746		50.746		56.924	
4. Capital receipts sufficiency	Capital receipts are generated at a level that, when added to 'in-hand' and 'decommitted' amounts, will cover VR costs plus transformation costs (capitalised). Any shortfall in capital receipts generated or increase in transformation costs could cause an additional pressure	8.000	Assumes a partial improvement in realising capital receipts in 2025/26	10.000	Delays in realisation of capital receipts in 2025/26, suggest a potential shortfall during the year, available to fund transformation activities.	10.000	No further dealys antiicpated beyond those already projected.
5. External factors	A number of factors are known to be able to impact the financial position indrectly, but the timing or likelihood of these is unknown at the time of setting the budget. The GFB level is set on the basis of being a fund of last resort in the face of such pressures.	0.000	Assume no additional cost pressures arise during the financial year	0.000	Assume no additional cost pressures arise during the financial year	1.500	Other financial risks that may arise including application of specific grants, cost implications of winter pressures and risks involving partner organisations
6. Project risks	No direct or indirect implications are assumed in the budget. Possible risks include the withdrawal of funding for major capital projects which may lead to revenue pressure as "sunk" costs are written off. This must be balanced against the risk of increased borrowing requirements in the event of continuing with significantly increased project costs. NWRR is currently paused pending review in light of increasing borrowing requirement of £155m.		Assume no in-year costs arising from project funding withdrawal or reduction.	13.495	Decision taken to pause NWRR. If Council decide to cancel the scheme, spend to date of £38.895m needs to be accounted for. Central assumption: £20.4m DFT LLMF retained. £4.2m LEP funding for OLR retained £0.8m other OLR spend retained. Balance £13.495m would need a Capitalisation Direction through EFS to enable write off to revenue funded from borrowing.	38.895	Decision taken to pause NWRR. If Council decide to cancel the scheme, spend to date of £38.895m needs to be accounted for. Adverse assumption: All funding clawed back All spend would need a Capitalisatior Direction through EFS to enable write off to revenue funded from borrowing.
7. Cash position (Liquidity)	The MTFS assumes that day-to-day liquidity is planned for an maintained. Failure to do this, or a rapid deterioration in the council's financial position may lead to unbudgeted finance		No more favourable position currently identified.	0.000	Detailed day-to-day cash forecast in place. MUFG (treasury advisors) engaged and advising on externalisation of previous internal borrowing. Qear management with £20m cash	0.000	All borrowing anticipated for 2025/26 has been built into the P7 monitoring position.
	costs, and reputational damage as staff and supplier payments are placed in jeopardy.				buffer. Projected borrowing required for 2025/26 built into monitoring position		

4.5. The Council is in active discussions with the Government regarding the need for Exceptional Financial Support for 2025/26 and future years. To address the projected financial risks highlighted in the report and in Table 2 above, a request will be made for Exceptional Financial Support in-year for 2025/26. The total financial risks identified under the adverse scenario amount to £107.32m, including insufficient funding for transformation activity through to March 2026 from Capital Receipts generation, and funding for the North West Relief Road should it be cancelled and/or unfunded from Department for Transport.

- 4.6. The Council has created a three step plan to manage the revenue monitoring position in-year:
  - Setting a proposed minimum value for General Fund Balance of £5m by year end to ensure sufficient resilience to unknown shocks over the remaining five months of the financial year.
  - Created a contingency fund from earmarked reserves of £5.478m to help manage the financial risks identified within the adverse scenario and help reduce reliance on General Fund Balances from known risks.
  - Continuing active discussions with the Ministry for Housing, Communities and Local Government to request Exceptional Financial Support for 2025/26 and future years. An application of £21.466m has been identified to support revenue monitoring projections and the two points listed above.
- 4.7. The Council will continue to progress an application for in-principle Exceptional Financial Support to cover the issues raised in 4.5, in addition to the points raised in 4.6.
  - A Capitalisation Direction for up to £10m to support funding for transformational activity through to March 2026 that cannot be accommodated through capital receipts generation over the remainder of the year.
  - A Capitalisation Direction for up to £38.895m to enable the write off of spending relating to the North West Relief Road Project should the scheme be cancelled before year end and all costs fall upon the revenue account.
- 4.8. As a result, an in-year application for Exceptional Financial Support of up to £71.361m is proposed for December 2025. It has previously been reported that an application for EFS of up to £64m had been discussed with MHCLG. In anticipation of completing the detailed financial review in Period 7, the CEO and s151 Officer met with MHCLG on 14 November 2025 discussing a contingent figure of up to £75m.
- 4.9. Confirmation of Exceptional Financial Support to the value of £71.361m, alongside the establishment of a contingency reserve of £5.478m and a proposed year end balance of £5m will ensure that the central, favourable and adverse scenarios can be accommodated would remove the need for a section 114 Report to be issued. This assessment is underpinned by legal advice from a leading barrister in this area.
- 4.10. A formal application for Exception Financial Support will be made in December 2025 according to the process yet to be confirmed by MHCLG and based on the information included within this report. On this basis, it is proposed that a Period 8 Financial Monitoring Report is not completed, enabling senior officers, budget holders and the finance team to focus on establishment of the 2026/27 budget and MTFS, reflecting the financial implications arising from the completion of the deep dive review.

## 5. Financial Implications

5.1. Shropshire Council continues to manage unprecedented financial demands and a financial emergency was declared by Cabinet on 10 September 2025. The overall financial position of the Council is set out in the monitoring position presented to Cabinet on a monthly basis. Significant management action has been instigated

at all levels of the Council reducing spend to ensure the Council's financial survival. While all reports to Members provide the financial implications of decisions being taken, this may change as officers and/or Portfolio Holders review the overall financial situation and make decisions aligned to financial survivability. All non-essential spend will be stopped and all essential spend challenged. These actions may involve (this is not exhaustive):

- scaling down initiatives,
- changing the scope of activities,
- delaying implementation of agreed plans, or
- extending delivery timescales.
- 5.2. This report sets out the financial projections for the Council in the 2025/26 Financial Year as at Period 7. A summary of the key elements for managing the Council's budget are detailed elsewhere in this report.

### **6. Climate Change Appraisal**

- 6.1. The Council's Financial Strategy supports its strategies for Climate Change and Carbon Reduction in several ways. A specific climate change revenue budget is held. The climate change schemes involving the Council's assets or infrastructure are included within the capital programme. These two areas of expenditure are anticipated to have a positive contribution towards climate change outcomes.
- 6.2. Securing a robust and sustainable financial base will help the Council meet the challenges of climate change this is not separate to our budget management, but integral to it, as set out in the objectives of The Shropshire Plan and our aim to secure a Healthy Environment.

## 7. Background

7.1. Given that the financial position of the council remains highly challenging, summary budget monitoring reports highlighting the anticipated year end projection are produced monthly for Cabinet, with detailed updates reported quarterly to Cabinet.

#### 8. Forecast Outturn as at Period 7

- 8.1. At Period 7 (1 April 31 October), the Council is reporting a forecast overspend of £50.746m. This forecast is based on the current projections for savings delivery and levels of demand and pressures being catered for that exceed available budgets. While this report provides an update on the short-term position, it is important to reference the work being done alongside this to create a more sustainable financial position over the following three years.
- 8.2. Table 3 below summarises the position by service area (see also Appendix 1).

Table 3: Projecte	d Outturn	by Servi					
	Revised Budget (£'000)	YTD Actual (£'000)	Projected Outturn (£'000)	(Under)/ Overspend (£'000)	RAGY Classific ation	P6 (Under)/ Overspend	DoT

Total	0		50,746	50,746			

### 8.3. The current forecast overspend can be summarised as:

- 38.959m of savings not yet identified or without a clear delivery plan in place. The majority of these savings were brought forward from previous year and were dependent upon a clear transformation plan built around the new operating model. While savings are generally deliverable within service areas, several overarching savings are shown mostly within the 'Corporate' line in the table above. Work to create an Improvement Plan and subsequent Corporate Plan are essential to reconfigure the Council and revise service delivery ambitions to create a sustainable financial position. This will be set out in future Medium Term Financial Strategies.
- £17.851m spend over budget against net purchasing costs within Adult Social Care operations shown within the Care and Wellbeing line as purchasing pressures identified in 2024/25 outturn are continuing. Demand on the service continues to rise as we see increased complexity and cases transferring from health. The service is forecasting (as part of the purchasing costs) to deliver mitigations in increased income against demand pressures. The service is working to mitigate the growing costs from people being transferred from health services to the Local Authority and people that have funded care and fallen below the funding threshold. Given the nature of the Adult Social Care service, risks continue to be acknowledged regarding income levels (particularly from partners), and winter pressures, alongside any other demand led pressures that may materialise before the end of the year.
- £14.050m spend over budget forecast on External Residential Placements shown within Children and Young People. We continue to see similar trends to the last financial year with an increase in number of placements including across the Disabled Children's Team where placement costs are higher due to the needs of the children and young people. Forecasted numbers of external residential placements have been reviewed and increased based

- on the Children's Placements Sufficiency Strategy refresh underway, as this takes into account 24/25 and year to date numbers of actual placements being made. This approach will be further refined ahead of Period 9 in line with service delivery and feedback from the LGA Children's Services Diagnostic Review completed w/c 17 November 2025.
- £2.5m shortfall in savings due to rationalisation of Council assets and property plus Housing Benefit overpayments of £1.6m relating to the lack of temporary accommodation. This is shown within Enabling Services, offset by vacancy savings.
- Establishment of a Contingency Fund and a proposal to retain £5m in General Fund Balance by year end provide mitigation to the risks identified in the points above.
- 8.4. The Council has implemented a series of Operations Boards focussing on controlling spend within the organisation to help deliver short term financial survival. There are three Operations Boards in place:
  - A. Spending Control Board overseeing all items of expenditure processed through the Council's ERP (financial) system over £500.
  - B. Workforce Review Board overseeing all recruitment and staffing activity
  - C. Technical Board overseeing all income and grant funding
- 8.5. The Spend Control Board, Workforce Review Board and Technical Board continue to meet regularly. The benefits analysis of each of the Operations Boards is being assessed and will be published and fed into projections shown within future monitoring reports. There are several more detailed meetings, boards or processes that sit below the Operations Boards to inform them. These include Commissioning and Procurement Boards and Adults and Children's Forums.
- 8.6. Emergency action is necessary to deliver reduced projected spend, increased income and greater mitigation against demand pressures, and the Leadership Board of the Council are actively pursuing options to deliver this where possible in the remaining months of the year.

#### 9. General Fund Balance

- 9.1. The Council holds earmarked reserves and a general reserve referred to as the General Fund Balance (GFB). Earmarked reserves are held for a specific purpose and cannot, generally, be used to cover the impact of overspends or non-delivery of savings proposals.
- 9.2. The 2024/25 year ended with a General Fund Balance (GFB) of £4.825m, which was brought forward into the new year. The 2025/26 budget included a contribution of £29.455m to the GFB. The total on hand in this reserve at the beginning of the year was therefore £34.280m. This was considered a safe level given the profile of financial risks as anticipated when the budget was set by Council in February and before the final outturn position for 2024/25 was established, at a significantly deteriorated position. As the current year is progressing, maintenance of our level of GFB appears, currently, impossible and it is of great concern that the Council has minimal resilience against any unforeseen variances. This was established at Period 4, and has deteriorated further as at Period 7. The GFB would be exhausted and if projections are borne out, and the authority would be in an illegal financial position.

- 9.3. This position has been reviewed at Period 7 to retain a GFB of at least £5m before year end and establish a contingency fund, taken from earmarked reserves. This is shown in the table below.
- 9.4. Considering the Council's difficult financial position, and GFB projections, conversations continue to be held with Ministry for Housing, Communities and Local Government (MHCLG) to discuss and consider the Council's short term financial viability and requirements for Exceptional Financial Support (EFS). The approach is to maintain open dialogue with MHCLG, including the intention to submit an EFS request, as advised by the LGA and in line with best practice for authorities facing significant financial risk. Updates on EFS discussions will continue to be included in future monitoring reports, to maintain transparency and oversight of the Council's financial resilience strategy.

### APPENDIX 2 2025/26 SAVINGS DELIVERY

#### 2.1 SUMMARY

The savings projections for 2025/26 are being tracked monthly with savings delivery being mapped against projected delivery during the course of the year. The table below summarises the position as at 31st October 2025.

Projected delivery and indicative plans are in place for 34.94% of the savings identified. Some of these plans may be being achieved through one off means rather than an ongoing basis. Work continues to progress to ensure that savings proposals delivered can be delivered on an ongoing basis in order to reduce any further savings pressures into 2026/27.

The table below shows the projected delivery of each saving proposal.

## Shropshire Council 25/26 Individual Savings List
