He added that the increase in the use of the rights of way network and the countryside sites had brought with it increased littering, damage to surfaces and elements of antisocial behaviour all of which were adding to the workload. The Interim Outdoor Partnership Manager informed the meeting that additional funding has been gained from the Government Covid Funding and that two additional maintenance officers were being recruited on a six-month contract along with securing additional vehicles to enable socially distanced working practices.
- 39.3 The ROW Mapping & Enforcement Manager advised that the increase in the use of the ROW network had led to a large increase in the reporting of enforcement issues

along with an increase in the number of claims for rights of way being submitted which had increased the workload considerably.

39.4 The Portfolio Holder advised the meeting that following the issues around respect for the countryside the council was putting together a pack to get the message across around responsible use of the countryside and asked all members to distribute this through their networks.
