The Council's policy is that Councillors should attend national events of this kind only where it can be demonstrated that they are directly relevant to their particular individual responsibilities, and that there is likely to be a real benefit to local residents in Shropshire from such attendance, in terms of understanding of new Government initiatives or of best practice elsewhere; opportunities to influence and advocate on behalf of the County; and networking to promote inter-council collaboration and joint working. Those councillors thending such events are requested to share with relevant colleagues afterwards those matters likely to be of wider interest. This avoids the need to send several people to the same event, and so reduces costs.

This table contains the most current information presently available. Omissions can reflect delays in the submission of invoices/claims from members in relation to travel and subsistence and accommodation. The table is normally updated monthly after the receipt of members' claims. Late submissions can lead to a delay in the relevant information being included.
