Opportunity Risk Assessment

The Corporate Plan is an essential component of the Council's Strategic Planning, Governance Assurance Framework and the Opportunity Risk Management Strategy. The plans need to link up, and together support and provide direction for the Council to achieve its objectives, including delivering a balanced budget. Failure to do so and fully implement the changes required will put the Corporate Plan at risk.

Regular performance reporting against delivery of the Council's objectives established in the Corporate Plan, including through Strategic Risk Reporting will in turn provide assurance to Members and Officers that the Council is achieving against its plan and that strategic risks are being monitored and managed, or on

an exception basis activity for improvement is identified. This in turn will provide reflection on and assurance as to the strength of the governance environment.

All Committee reports to Members will continue to report on opportunities and the associated risks and these in turn should be linked to the delivery of the Council's outcomes as set out in the Corporate Plan.
