1. Summary

1.1 This report provides details of the revenue and capital outturn position for Shropshire Council for 2017/18 and provides a summary of:

- The revenue outturn for each service area with a commentary of the main variations and an outline of how the position has changed since Quarter 3.
- The movements in the Council's General Fund balance.
- The Council's reserves and provisions.
- The capital outturn for each service area with a commentary of the main variations and the budget slipped for 2017/18.

1.2 The Council's revenue position for 2017/18 has improved by £0.596m when compared to projections made at Quarter 3 resulting in a net underspend of £0.655m, a variance of 0.12% on the gross budget. This improvement has been delivered as a result of variances across a number of Council services although the majority of these are not within the base budget and therefore will not be available to reduce the funding gap in future years. It should be noted however, that within this position expenditure on Environmental Maintenance as a result of severe weather in the last month of the financial year far exceeded expectations.

1.3 The outturn on non controllable insurance is a small over recovery of £0.083m. When added to the overall underspend the total adjustment to the general fund is a contribution of £0.738m

1.4 The outturn capital expenditure for 2017/18 is £49.608m, representing 83% of the re-profiled budget of £59.748m. All £10.140m of this underspend has been carried forward to the 2018/19 programme.

2. Recommendations

It is recommended that Members:

- A. Note that the Outturn for the Revenue Budget for 2017/18 is an underspend of £0.655m, this represents 0.12% of the original gross budget of £563.3m.
- B. Note that the level of general balance after adjusting for the underspend and insurance position stands at £15.436m, which is above the anticipated level assessed in February 2017.

- C. Note that the Outturn for the Housing Revenue Account for 2017/18 is an underspend of £0.007m and the level of the Housing Revenue Account reserve stands at £8.225m (2016/17 £9.031m).
- D. Note the increase in the level of Earmarked Reserves and Provisions (excluding delegated school balances) of £8.026 in 2017/18 and the reasons for this.
- E. Note that the level of school balances stand at £5.381 (2016/17 £6.280m).
- F. Approve net budget variations of £1.472m to the 2017/18 capital programme, detailed in Appendix 5/Table 11 and the re-profiled 2017/18 capital budget of £59.748m.
- G. Approve the re-profiled capital budgets of £61.795m for 2018/19, including slippage of £10.140m from 2017/18, £25.986m for 2019/20 and £15.568m for 2020/21 as detailed in Appendix 5 /Table 15.
- H. Accept the outturn expenditure set out in Appendix 5 of £49.608m, representing 83% of the revised capital budget for 2017/18.
- I. Approve retaining a balance of capital receipts set aside of £20.857m as at 31st March 2018 to generate a one-off Minimum Revenue Provision saving of £0.485m in 2018/19.

REPORT

3. Risk Assessment and Opportunities Appraisal

- 3.1 Details of the potential risks affecting the balances and financial health of the Council are detailed within the report. Each variation from budget is also RAG rated to confirm the level of risk to the Council's balances.

4. Financial Implications

- 4.1 This report is based on the financial outturn of the Council's revenue and capital budget for 2017/18 and therefore considers the effect that the underspend has on the Council's balances.

5. Background

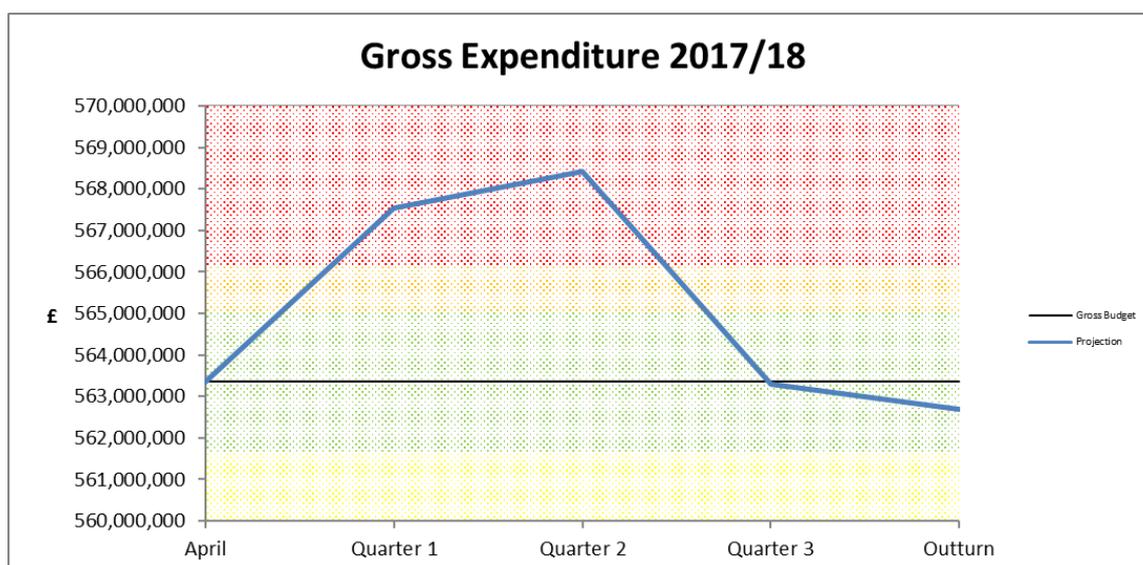

- 5.1 Cabinet has received quarterly monitoring reports on the revenue and capital budget during the course of the year. This has meant that Service Areas have identified problem areas as they have arisen and management have been able to take the action necessary to deal with the issues arising.

6. Revenue Outturn Position

- 6.1 The final outturn for 2017/18 shows overall net controllable revenue expenditure of £205.418m and a controllable underspend of £0.655m. The overall position for Service areas and Schools' balances is detailed in Table 1 below.

Table 1 – Final Controllable Outturn

	£'000
Original Budget	206,073
Controllable Outturn for 2017/18	205,418
Controllable Underspend for 2017/18	(655)

- 6.2 The controllable underspend of £0.655m for 2017/18 is presented below by Service Area in Table 2. End of year entries include items of non-controllable spend (e.g. insurance) that are not included within service projections throughout the year. To enable comparison with previous monitoring reports, the non-controllable element of spend has been excluded from the figures presented below to enable a direct comparison to be made between controllable spend at year end, and projections made throughout the year

- 6.3 Services have worked hard throughout the year to deliver a balanced council position overall through the implementation of a spending freeze in the early part of the financial year.
- 6.4 The outturn position has improved by £0.596m since Quarter 3 as a result of further underspends achieved across all service areas within the Council which have offset areas of increased cost. The most significant changes were in the following areas:
- (£0.883m) Customer Involvement – Increased income and cost reduction on IT contracts above that previously advised and savings on MRP expenditure.

- (£0.395m) Legal, Democratic & Strategy – Reduced cost of elections, additional income and spending freeze savings above that previously advised.
- (£0.302m) Human Resources – additional income above that previously advised.
- (£0.384m) Public Protection – Increased income, savings on vacancy management and spending freeze savings above that previously advised.

Offset by:

- £0.814m Environmental Maintenance – significant additional expenditure on winter maintenance and street lighting in the final month of the financial year.
- £0.679m Social Care Operations – Reduced application of iBCF grant against purchasing overspend. iBCF will be carried forward and used against commitments in future years.

Further analysis of the variations to budgets for all service areas is provided within Appendix 1.

7. Savings Delivery

- 7.1. During the year the savings projections are RAG rated in order to establish the deliverability of the savings and any potential impact on the outturn projection for the 2017/18 financial year. The RAG ratings are categorised as follows:

Red – Savings are not solved on an ongoing basis, nor have they been achieved in the current financial year. These are reflected as unachieved within this monitoring report.

Amber – Savings have been identified on an ongoing basis in the current financial year, however there is no clear evidence to support the delivery as yet. The projected outturn within this report assumes these savings will be delivered (see 5.3. below).

Green – Savings have been identified on an ongoing basis in the current financial year, with evidence of delivery.

The final outturn for savings delivery for 2017/18 is shown in Table 3.

Table 3: 2017/18 Savings Proposals – Final outturn

Service Area	Red £'000	Amber £'000	Green £'000	Total Savings £'000
Adult Services	-	-	-	-
Children's Services	1,192	-	998	2,191
Place & Enterprise	884	-	3,191	4,075
Public Health	48	-	321	369
Resources & Support	423	-	2,100	2,524
Corporate	-	-	5,868	5,868
Total Savings	2,547	-	12,479	15,026

The figures presented above show that 83% of the 2017/18 savings target were achieved and rated green with the remainder unachieved and rated Red. Paragraph 6.2 below provides further detail on the Red savings.

- 7.2. Table 4 provides further analysis of savings delivery impact on final position for each service area.
- 7.3. The £2.548m 2017/18 Red savings not delivered are within Educational Support Services, Home to School Transport, Short Breaks and Children's Centres in Children's Services. In Place & Enterprise they are within Corporate Landlord, Car Parks, the Energy Company and the Grey Fleet saving from Transport. In Resources & Support, savings projected not be delivered are within Revenues and Benefits, and are also the result of delays to a restructure within Customer Involvement. More detail on these is provided within the relevant service sections in Appendix 1.
- 7.4. Some of these savings will continue to create pressures in future years and will be added to the relevant Directorate's Savings Delivery target where they will be scrutinised at regular Savings Challenge meetings scheduled to take place with Directors throughout 2018/19. These carried forward targets are listed in table 5 below and their current 2018/19 RAG delivery status is also shown.
- 7.5. In addition to the Red savings pressures a number of ongoing pressures were identified within service areas during the year. £0.463m of these ongoing pressures have arisen as a result of previous years' unachieved savings. £0.735m is within Children's Services and relates to Home to School Transport and Early Help savings where savings cannot be made until 2019/20 at the earliest despite plans in place to achieve the full savings. £0.219m within Resources & Support relates to Multi-Functional Device contracts, Lync telephones and Credit Union savings.
- 7.6. Other ongoing pressures include increased purchasing pressures within social care; residential and foster placements and agency social worker costs within Children's safeguarding; Home to School Transport costs relating to SEND pupils and loss of grant and traded income within Learning & Skills; increased property costs and reduced income within Corporate Landlord; pressures within Environmental Maintenance reactive maintenance, Highways & Transport bus subsidies and concessionary fares costs; corporate licensing, support and maintenance costs within IT Services, and costs of the Lync system; and income inflation that is not achievable on Corporate budgets.
- 7.7. Some ongoing savings have been identified to mitigate these pressures and some have been resolved through growth allocations following the growth modelling exercise in the summer of 2017. Table 6 below shows which pressures are likely to continue to impact in 2018/19

7.8. The Council operates two internal funds to help deliver savings now and into the future. The Invest to save Fund was established in 2014 enabling business cases to be put forward with the aim to generate savings and repay the investment back into the fund with interest. From an opening balance of £2.0m in 2014, additional investment into and repayments to the fund since have resulted in an opening balance of £3.342m in 2017. In total since the fund was created investment of £1.484m has been approved, of which £0.7m has been spent to date, and repayments totaling £0.711m have been made from projects. The Development Fund was established for similar purposes, but where a proposal would not deliver a direct or short-term return on investment. Spend in year has totaled £0.656m, leaving remaining funds at £1.7m by year end. These funds are an important enabler in helping to deliver savings and relieve demand pressures in 2018/19 and beyond.

8. General Fund Balance

8.1. The effect of the forecast outturn position on the Council's reserves is detailed below. The Council's policy on balances is to have a General Fund balance (excluding schools' balances) of between 0.5% and 2% of the gross revenue budget. For 2017/18, the minimum balance required would therefore be £2.817m, although this is no longer considered to be an acceptable guide. The more appropriate risk based target balance for the General Fund, as last calculated for 2017/18 in the Robustness of Estimates and Adequacy of Reserves reported to Council on 23 February 2017, was £13.289m. This figure had been revised downwards reflecting the fact that the Council has undertaken a strategy of only pursuing robust and deliverable savings proposals for this

financial year and 2018/19, and has chosen to finance the remaining funding gap through the use of one-off resources.

- 8.2. Based on the current monitoring position, the General Fund balance will be above the required 2017/18 target, as shown in Table 7 below.

Table 7: General Fund Balance as at 31 March 2018

	(£'000)

Over recovery of insurance costs	83
2017/18 Revenue Outturn	655

- 8.3. NB: The Financial Strategy approved by Council on February 22 2018 further reviews appropriate risk based targets for the General Fund however, this report focusses on 2018/19 onwards.

9. Housing Revenue Account (Appendix 2)

- 9.1. The Housing Revenue Account (HRA) outturn for 2017/18 shows a deficit of £806k against the target of £814k, giving a £7k variance against the approved budget which represent 0.04% of the gross turnover of £18.1m. During the year the HRA made a direct contribution of £3.2m to part finance the capital works programme for major repairs and building new affordable homes as part of a planned use of the HRA reserve. As at 31 March 2018 the HRA reserve stood at £8.2m and these funds are available to finance future HRA capital works or for the repayment of HRA debt.

- 9.2. Significant variance in the year included increased collection rate for housing rent which now stands at 99.3% and this has contributed to a favourable variance of £122k (0.7%) of income above target and a consequential saving of £30k against the budgeted bad debt provision. In 2016/17 the HRA adopted component based depreciation in accordance with Government requirements and this has created greater volatility in the depreciation calculation. For 2017/18 the actual depreciation charge was £3.8m which was £171k (4.7%) above the budget. This money is paid into the Major Repairs Reserve and can be utilised to finance HRA capital works.

10. Reserves and Provisions (Appendix 4)

- 10.1. The Council has created a number of specific reserves and provisions to provide for known or anticipated future liabilities and to assist in protecting essential services. Earmarked reserves are balances held for specific items that will occur in the future. Provisions are held to meet expenses that will occur as a result of past events and where a reliable estimate can be made of the obligation.

10.2. The overall position for reserves and provisions is set out in the Statement of Accounts 2017/18, however a detailed breakdown of the balances is contained at Appendix 4, with an explanation of each reserve and provision. These figures may be subject to change before the Council's final Statement of Accounts is produced. The change in revenue reserves and provisions are detailed in table 8 below.

Table 8: Movement in Reserves and Provisions 2017/18

Balance Held	Reserves £000	Provisions £000	Bad Debt Provisions £000	Total Reserves & Provisions £000
As at 31 March 2017	63,859	9,815	11,811	85,485
As at 31 March 2018	69,839	11,423	11,344	92,606
Increase/(Decrease)	5,980	1,608	(467)	7,121
Delegated School Balances Movement	(899)	0	0	(899)
Increase/(Decrease) (excluding Delegated School Balances)	6,879	1,608	(467)	8020

10.3. In accordance with the financial strategy the Council will be using one off funding to close the funding gap between 2018/19 and 2020/21. This will result in the Financial Strategy Reserve reducing to zero by 2020/21 unless an alternative strategy is followed. Other Earmarked Reserves are expected to fall over the coming years for a number of reasons. It is difficult to project use with any accuracy but balances would not be expected to fall to below £18m in the long term. The estimated future balances on earmarked reserves are as shown in table 9 below:

Table 9: Estimated Future Balances on Earmarked Reserves

£'000	Balance c/f 2017/18	Estimated Closing Balance		
		2018/19	2019/20	2020/21

Delegated School Balances

10.4. The movement in delegated schools' balances are detailed in table 10.

Table 10: Movement in delegated schools' balances 2017/18

Purchasing IT equipment	(185)	(129)	56
Carbon efficiency measures	(31)	0	31
Total Delegated School Balances	(216)	(129)	87

- 10.5. Schools' balances have to be ringfenced for use by schools and schools have the right to spend those balances at their discretion. Of the 116 schools with balances, 104 schools have surplus balances and 12 have deficit balances.
- 10.6. The Extended Schools Grant allocations for schools were paid over during 2016/17, these balances have been ringfenced to each individual school within School Balances.
- 10.7. Following consultation with the school's forum and head teachers, the school balances have been used to purchase IT equipment for schools, the cost of this equipment is then recharged to schools over the life of that equipment, effectively operating as an internal leasing arrangement. At the end of 2017/18 £0.129m of the £5.504m was being used in this way.

11. Original and Final Capital Programme for 2017/18

- 11.1. The capital budget for 2017/18 is subject to change, the largest element being slippage from 2016/17 and re-profiling into future years. In Quarter 4 there has been a net budget increase of £1.472m, compared to the position reported at Quarter 3. Table 11 summarises the overall movement, between that already approved, and changes for Quarter 4 that require approval.

11.2. Full details of all budget changes are provided in Appendix 5 to this report. A summary of the significant changes for 2017/18 and future years are detailed below:

Budget Increases

- Confirmation of final 17/18 Highways Maintenance Funding of £0.618m.
- Confirmation of additional Disabled Facilities Grant funding for 2017/18 of £0.275m.
- Further S106 funding of £0.154m in 2017/18, £0.154m for Shifnal Highways Development Planning.
- Revenue contributions of £0.377m have been added to the capital programme. The major areas are Public Health contribution for digital and scanning equipment and HRA contribution to the HRA Major Repairs programme.

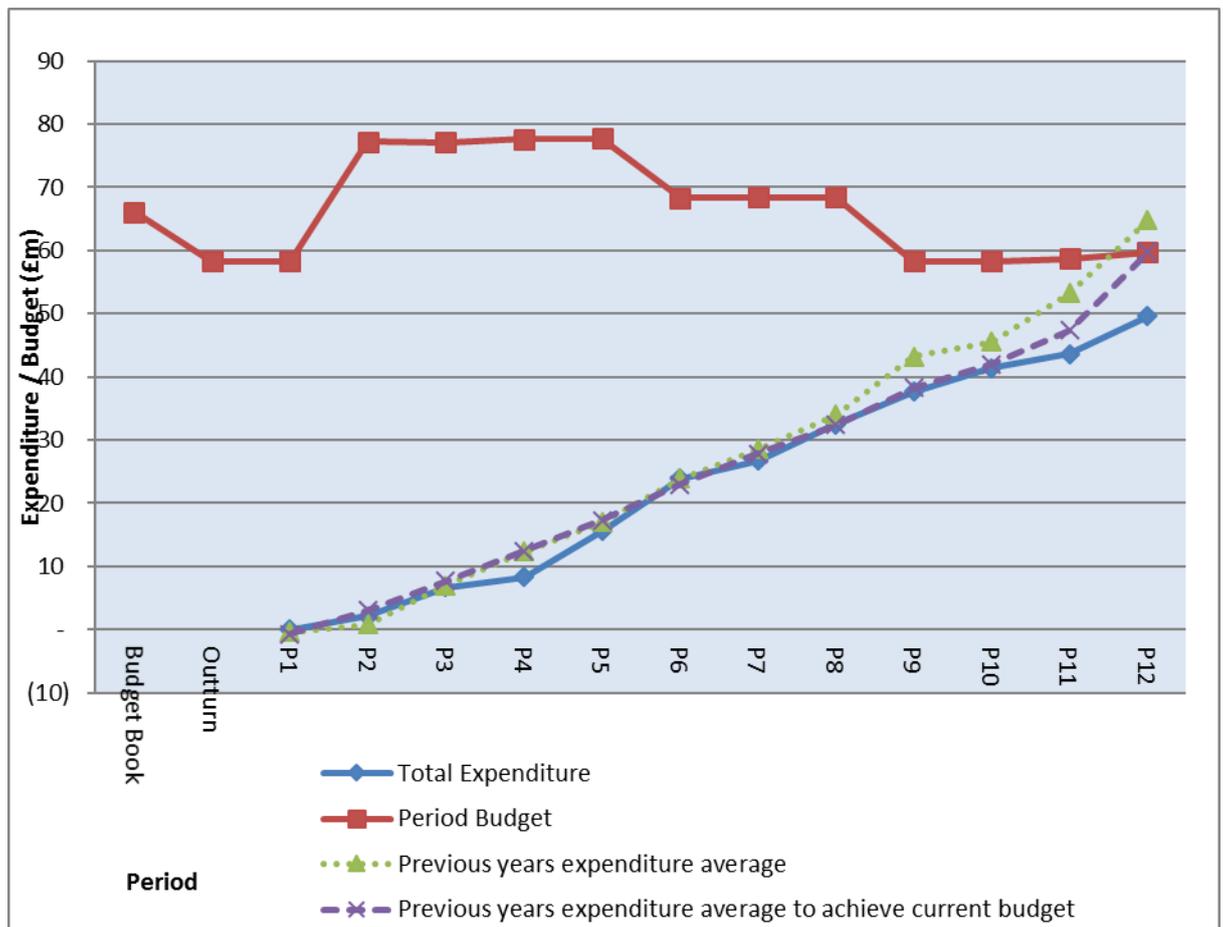

12. Capital Outturn Position

12.1. The capital programme is reviewed on a regular basis to re-profile the budget to reflect the multi-year nature of capital schemes, whereby spend may slip into later years. However, it is possible that a level of underspend or overspend may be experienced against the revised capital budget at outturn. Outturn projections are incorporated into the capital monitor to enhance the monitoring information provided and allow the early identification where schemes are deviating from budget. Table 12 summarises the outturn position for 2017/18.

Table 12: Capital Programme Outturn Position by Service area 2017/18

Service Area	Revised Capital Programme – Outturn 2017/18	Actual Expenditure 29/03/18	Variance	Spend to Budget %

Housing Revenue Account	8,523,303	6,857,580	1,665,723	80%
Total Approved Budget	59,747,941	49,608,348	10,139,594	83%

12.2. Total capital expenditure for 2017/18 was £49.608m, which equated to 83% of the re-profiled capital programme of £59.748m. The graph below shows actual expenditure by period and also tracks the period by period changes to the budget.

- 12.3. There was a total variance of £10.140m between the revised Outturn Budget and the Outturn Expenditure. All of this underspend will be slipped to 2018/19, to facilitate completion of projects commenced in 2017/18. Full details of expenditure variances at scheme level are in Appendix 5. A summary of significant variances by service area are provided below.
- 12.4. **Place & Enterprise** – Total underspend against the Place & Enterprise capital programme was £4.358m. The most significant area of underspend was £4.008m against the Broadband programme due to a lower than profiled claims from Contractors in the final the Quarter. There were minor underspends on projects across other areas of Place & Enterprise but with Highways maintenance fully spending to their budget allocation.
- 12.5. **Adult Services** – Total underspend against Adult Services was £2.855m, all of which is committed to be spent in 2018/19. This was £0.776m on Social Care schemes despite significant re-profiling and £2.079m on Housing Health & Wellbeing.
- 12.6. **Children’s Services** – The total underspend against the Children’s Services capital programme was £1.017m. This was spread through-out the different areas of the programme despite significant re-profiling in year.
- 12.7. **Housing Revenue Account** – Total underspend against the HRA programme of £1.666m, of which £1.476m was on the Major Repairs Programme.

13. Financing of the capital programme

13.1. Appendix 5 provides a full summary of the financing of the 2017/18 capital programme. Table 13 summarises the financing sources and changes made to Quarter 3 and to be approved to Quarter 4.

- 14.2. The Corporate Resources financing line above is the element of internal resources through capital receipts and corporately financed prudential borrowing required to finance the programme. Current expectation is these will all be through capital receipts, see section 14 for the current projected position. Proposals are currently been considered through the Capital Investment Board for new schemes for the Council to invest in, with an emphasis on invest to save schemes or schemes that create revenue generation.

15. Capital Receipts Position

- 15.1. The current capital programme is heavily reliant on the Council generating capital receipts to finance the capital programme. There is a high level of risk in these projections as they are subject to changes in property and land values, the actions of potential buyers and being granted planning permission on sites. Table 15 below, summarises the current allocated and projected capital receipt position across 2017/18 to 2020/21. A RAG analysis has been included for capital receipts projected, based on the current likelihood of generating them by the end of each financial year. Those marked as green are where they are highly likely to be completed by the end of the financial year, amber are where they are achievable, but challenging and thus there is a risk of slippage and red are highly unlikely to complete in year and thus there is a high risk of slippage. However, no receipts are guaranteed to complete in this financial year as there may be delays between exchanging contracts and completing.
- 15.2. Capital receipts of £18.370m were brought forward from 2016/17 and £10.436m was generated in 2017/18. As previously reported, following the re-profiling in the capital programme and mid-year review of the programme, sufficient receipts had been generated to finance this year's capital programme without any corporate prudential borrowing. Of the receipts generated in year, £2.843m has been used to finance both redundancy costs and the Digital Transformation Programme under the new flexibilities around the use of Capital Receipts for transformational revenue purposes.

- 15.3. Following the underspend position for the capital programme for 2017/18 and the Council policy of applying un-ringfenced capital grants in place of capital receipts where they are not required in full due to scheme underspends, the Council has £20.857m in capital receipts in hand at 31/03/18. These will be set-aside, enabling the Council to achieve an additional MRP saving of £0.485m in 2018/19. These capital receipts are required to finance schemes they are allocated to in the future years capital programme.
- 15.4. Based on the current approved position, across the life of the programme there is a shortfall in capital receipt projections of £5.040m in 2018/19 and £4.845m in 2019/20 based in receipts rated green in the RAG analysis to fund the required budget in the capital programme. There is, therefore, the requirement to progress the disposals rated amber and red which total £15.874m to ensure they are realised, together with realising the revenue running cost savings from some of the properties. Considerable work is required to realise these receipts, with generally a lead in in time of at least 12 to 18 months on larger disposals. In addition to the current expenditure commitments, the programme will also grow as new schemes are approved through the Capital Investment Board or as the Council utilises the new flexibilities around the use of Capital Receipts for transformational revenue purposes over the 3 year period 2016/17 to 2018/19.
- 15.5. It is important that work progresses, to avoid a funding shortfall in 2018/19 and future years. Failure to generate the required level of capital receipts will result in the need to further reduce or re-profile the capital programme, some of which will occur naturally as part of the review of the delivery of schemes; or undertake prudential borrowing, which will incur future year's revenue costs that are not budgeted in the revenue financial strategy.

16. Unsupported borrowing and the revenue consequences

- 16.1. The Council can choose what level of unsupported (prudential) borrowing to undertake to fund the capital programme, based on affordability under the prudential code. There is an associated revenue cost to fund the cost of the unsupported borrowing. This consists of the Minimum Revenue Provision (MRP) charge for the repayment of the principal amount, based on the asset life method and the interest charge associated with the borrowing. The current PWLB borrowing rate over 25 years is around 2.7% and currently only projected to rise by 0.3% across the next two years. As covered in section 13 above there are sufficient receipts in hand/projected to finance the existing approved programme. If there were to be a requirement for new schemes financed from borrowing, this could be accommodated from within existing borrowing and current cash balances in the short term, without the requirement to undertake new borrowing. This would, however, create an additional MRP cost, which would need to be met from the revenue budget.

*The non controllable items included in the table above include items such as depreciation, impairment of assets, other capital charges and IAS19 (pension costs) that are not included within service projections throughout the year. These charges are produced at the year-end as they are calculated as part of the closedown procedures. The budgets for the year are set in the February of the preceding financial year, and rather than reallocate these budgets at the year end to match where the accounting entries are processed, we allow variations from budget to be reported instead. The net effect of these variations across the Council will always be zero, as any overspends within non controllable budgets for service areas will be offset by a Corporate underspend which reflects the statutory requirement that any variations in these budgets should impact on the Council Tax Payer and ultimately the Council Tax that we charge.

<p>An overspend of £1.307m has been incurred within the Social Care Operations section of Adult Services. Expenditure on adult social care purchasing is exceeding the current growth model estimates and work to analyse and understand where the pressures are arising is continuing. This includes the senior management review of new clients entering the system to ensure that decision making processes with adult social care continue to remain robust. There are still concerns about the disinvestment intentions and actions of the Clinical Commissioning Group (CCG), particularly in relation to the Better Care Fund and Continuing Health Care.</p> <p>The variances are:</p> <ul style="list-style-type: none"> £1.510m net overspend on purchasing £0.516m overspend on supported living properties £0.008m overspend on assistive technology £0.034m underspend on transport costs £0.693m underspend on staff team budgets due to delays in appointing to a number of vacancies. <p>£2.110m of the additional iBCF grant has been utilised on new schemes in 2017/18, with a contribution to reserves of the remaining grant (£3.866m) for use in 2018/19 and 2019/20.</p>

The final outturn position reflects unachieved 2017/18 savings of £0.525m. Originally savings targets totalling £0.338m were assigned to Education Support Service budgets, however the subsequent removal of the general duties part of the Education Services Grant has rendered it impossible to achieve any further savings in these areas as the budgets have either already been removed, or alternatively schools have agreed to maintain the current level of service on a one-off basis for 2017/18 through a top-slicing of their School Budget Shares. This is for a 12 month period while these services review their structures and service offers, or move to a self-sufficient, fully traded model from 2018/19. The remaining £0.188m of unachieved savings are attributable to "Home to school transport" where proposed savings will not be achieved until the 2019/20 financial year at the earliest.

There is also £0.132m of unachieved savings target carried forward from 2016/17 against Education Support Services.

Besides unachieved savings targets, Learning and Skills' overspend results from reductions in Central Government grants. £0.087m relates to the loss of Education Services Grant and a further £0.319m relates to the loss of Dedicated Schools Grant funding. The latter is a direct result of a baselining exercise undertaken by the Department for Education to remove any Dedicated Schools Grant funding that did not meet strict criteria that constitutes a historic spending commitment.

There are also specific ongoing budget pressures in some services that have resulted in overspends including a £0.050m shortfall against the Education Improvement Service's traded income target and a historic budget pressure totalling £0.033m within Learning and Skills Business Support relating to the high-speed schools network. Additionally, there was an overspend of £0.287m in Home to School Transport as a consequence of an increase in the Special Education Needs cohort. A shortfall of £0.028m in Governor Services income has occurred and this is also likely to be an ongoing pressure as the demand for traditional Governor Support Services has started to reduce as some schools have federated under one governing body, while others join multi-academy trusts (MATs). This shortfall in income has been largely managed in year through one-off vacancy management savings.

In terms of one-off pressures, a 2017/18 savings target attributable to the Information, Advice and Guidance Service will be achieved fully through a major reduction in the size of this team. A difficult decision was made to cease the trading arm of this service with schools, with the Council's net budget reduced to a level sustainable to deliver only the core statutory duties of this team. Due to slippage in the implementation date of the service restructure the savings target was only partly achieved in 2017/18 resulting in a one-off monitoring pressure of £0.192m. An additional overspend of £0.063m was incurred against the Schools' redundancy pot where the cost of redundancies and related pension strain costs have exceeded the budget. These pension strain costs account for the main movement in reported position since quarter 3. The increase in pension strain costs accounts for a £0.147m increase since quarter 3 compared to the £0.120m overall increase in overspend from £1.270m to £1.390m.

The cost pressures above have been partially offset by underspends including an ongoing value of £0.140m in Education Improvement Service on staffing as the service has held posts vacant in year in anticipation of a staffing restructure in 2018/19. Furthermore, a decision has been made to draw down a one-off contribution from reserves of £0.135m. There were some additional in-year one-off savings on supplies and services and vacancy management totalling £0.049m across a number of school support services.

<p>Unachieved 2017/18 savings targets account for £0.667m of the £3.179m projected overspend. £0.120m of the £0.667m relates to Short Breaks commissioning, where the contracts originally targeted with savings have been renewed achieving better service outcomes and greater value for money but with no reduction in contract value due to increased demand in the service. The remaining £0.547m relates to the Early Help service area where only £0.443m of a total savings target of £1.000m has been achieved; this being through a staff restructure and reduced premises and contract costs. An Early Help Family Hubs report was approved by Cabinet on 17th January proposing to consult formally with the public, key stakeholders and staff on a new delivery model for Early Help Services. The proposed delivery model will deliver the outstanding savings in Early Help by March 2019.</p> <p>There is a projected overspend of £1.616m on external residential care and all foster care placements. The service is satisfied that the children and young people coming into the care of Shropshire Council in this financial year are children that need to be in the care system. The service has experienced an increase in the breakdown of some fostering placements, meaning children are leaving placements with Shropshire foster carers to be placed in higher cost residential placements. This breakdown of fostering placements is a result of the increasing complexity of Shropshire's looked after children. 10 children have moved from foster to residential placements in year. The average weekly increase of these placement moves are £2,770 per week, which has resulted in a total additional cost in year of £0.881m. There is a continued drive to reduce higher cost residential placements for children where it is appropriate and this will have a positive impact on the budget. It is notable that this is a volatile area where costs can change significantly in year.</p> <p>In addition to the above there is a new ongoing pressure of £0.456m relating to Unaccompanied Asylum Seeking Children (UASC). Central Government funds a proportion of these costs through a weekly value based on the child's age. Previously the Council has managed to fund these costs within the grant funding available but due to some complex safeguarding needs and high flight risks there has been a need to place some children in high cost placements that are not fully funded, placing a pressure on the service. There are 3 UASC currently in high cost residential placements which will mean an on-going cost pressure to the service in 2018/2019 however plans are in hand to reduce the cost of the high cost placements.</p> <p>In order to try to reduce the ongoing pressure on Children's Safeguarding in the medium to long term, officers are exploring options to reduce placement costs through a range of measures such as increasing the cohort of internal foster carers. A review of Early Help provision is also underway, as described above.</p> <p>There is an on-going budget pressure of £0.455m caused by agency staffing costs in the social work teams. This pressure continues to reduce year on year through managing recruitment effectively. However, this is volatile in year as the need to ensure that children who are looked after, on a Child Protection Plan or in need of a plan are adequately supported in line with statutory timescales and this will dictate that any sickness, maternity or temporary vacancy must be covered in the interim through agency staff. There is also a heavy reliance on agency social workers due to challenges in recruiting to vacant posts. Historically, there has been no budget assigned to cover the need for agency staff. There is also an ongoing pressure of £0.079m due to the introduction of a new service manager post which was temporarily covered by an agency worker.</p> <p>Finally, there are some smaller in year one-off savings on contracts and vacancy management, offset by one-off in year monitoring pressures, which net to an in year saving of £0.094m.</p>

The main reason for the overall underspend of (£0.115m) is (£0.126m) shopping centre income, which was unbudgeted. In addition to this, vacancy management within the service area generated an underspend of (£0.113m) and savings in controllable budgets totalled (£0.017m). These in-year underspends offset redundancy costs of £0.106m and an income shortfall of £0.036m. The outturn figure also includes an assumption that approximately £0.465m is due to the council as the net distribution in relation to the Shopping Centre acquisition relating to 2017/18.

Corporate Landlord	Portfolio Holder Corporate Support	1,968,930	2,428,229	459,299	R
---------------------------	---	-----------	-----------	---------	----------

Of the £0.459m total overspend within Corporate Landlord, £0.370m is attributable to an unachieved saving regarding accommodation income in relation to Chester University's occupation of Guildhall. A number of conflicting pressures and savings make up the remainder of the overspend. There was a £0.283m overspend on repairs and maintenance, owing to the amount of essential works required across the estate. A more structured plan has been introduced in 2018/19 to establish the priority works and manage the budget accordingly to reduce the overspend. Budget pressures from rates due to revaluations totalled £0.268m, however backdated rates refunds were obtained totalling (£0.647m). There was a budget shortfall on Mardol House of £0.185m, primarily due to a shortage of student numbers resulting in a lack of rental income. A historic pressure on the Wide Area Network bill charges contributed an overspend of £0.151m, and overspends on cleaning budgets and supplies and services totalled £0.061m and £0.047m respectively. Income collection through rents and service charges totalled (£0.190m) owing to a number of backdated rental agreements being billed for. Further underspends were identified on utilities charges to the amount of (£0.093m). A £0.305m contribution from the R&M reserve was made to fund essential works that took place during the year.

PSG suffered a reduced level of income in 2017/18 which created a pressure of £0.384m. Circumstances contributing to the lack of income include reduced capital expenditure council-wide resulting in less fees, revenue spending freezes on all non-essential works, and changes in the internal recharging model within Corporate Landlord and PSG. Staffing budgets within the team created a further over-spend of £0.061m.

Planning application fees are set nationally by Central Government. In 2017/18 a fee increase was anticipated early in the year, however delays in the Parliamentary process meant that there was a delay in fee increases. In other areas, there is evidence of a slow-down in the housing sales market, with a drop in the number of searches being requested, and finally, there have been issues around recruiting to a number of key posts within the service, resulting in high cost agency staff being required to maintain service delivery.

There were a number of areas of additional expenditure as managers responded to urgent safety related works whilst attempting to reschedule programmed maintenance to mitigate the unforeseen expenditure as far as possible (the service redesign and severe winter has identified increased expenditure on a higher number of defects that the Council has a duty to fix). In addition we have experienced a particularly difficult winter period which has led to variances across Winter Maintenance, some of which have been covered by a draw from the severe weather reserve.

There are a number of significant variations within H&T: £0.304m relates to an assumed saving from a Grey Fleet scheme (staff mileage and vehicles) which was not achieved, but is undergoing trials and assessment; ongoing budget pressures of £0.226m for subsidies to bus operators for current routes; additional costs of £0.412m for concessionary fares (a Central Government initiative with uncontrollable demand) and a significant increase in the numbers and amounts of Highways Part 1 claims (compensation claims resulting from changes to the highway network) of £0.118m. These variances are to some extent mitigated by additional income within the Streetworks team of (£0.619m) and in-year savings in the Structures team (£0.079m) resulting from a part-year spending freeze leading to fewer design commissions.

This was made available to resolve on a one-off basis existing pressures in year such as delays in the achievement of savings within other services.</p> <p>At year end the final budgets following year end adjustments confirmed as no longer required in year as a result of the spending freeze totalled (£1.936m), these budgets will be required in future years to fund changes in the national minimum wage, apprentice levy, employer's nation insurance costs.</p> <p>In year pressures were identified of £0.118m relating to the reduced trading surplus from West Mercia Energy, and £0.338 from inflationary pressures within Corporate Budgets. Additional in year pressures of £0.700m occurred regarding the disbursements in relation to the acquisition of the Shrewsbury shopping centres through the purchase of units within three Jersey Property Unit Trusts, and £0.050m for MRP Review consultancy fees. Ongoing reviews throughout the year of corporate budgets identified an additional (£1.048m) as a one-off surplus, generating an underspend in year to offset most of the identified pressures.</p> <p>A reduction in MRP requirements was identified in year of (£0.876m), additional interest received and reductions in interest payable of (£0.770m) from Treasury management activity, alongside savings relating to non-distributable costs of (£0.046m).</p> <p>Finally, additional expenditure of £0.600m has been incurred at year end. This is comprised of £0.448m and £0.152m, amounts originally intended to be funded from reserves, however the year end position has enabled these requirements to be funded from revenue.</p>
