Cabinet

28th November 2018

Quarter 2 Performance Report 2018/19

Responsible: Tom Dodds, Intelligence and Insight Manager

e-mail: tom.dodds@shropshire.gov.uk

01743 258518

1. Summary

- 1.1 This report presents Cabinet with the Council's Performance against its key Outcomes for Quarter 2 2018/19.
- 1.2 The refreshed Corporate Plan 2018/19 and the High Level Outcomes provide the shape and focus of the updated Performance Management Framework. The measures in the framework been refined to reflect the updated strategic action plans for the coming 12 to 18 months.

The new framework will include project milestones from the strategic action plans, as they are confirmed, to help demonstrate the change being delivered.

- 1.3 The new framework is presented with four key outcome areas: Healthy People, Prosperous Economy, Resilient Communities and Commercial Council. The range of performance measures covers a broader range of service areas than previously reported.
- 1.4 The online performance portal has continued to be developed to present performance information to be used in conjunction with this report, and can be accessed here -

<https://shropshireperformance.inphase.com/>

- 1.5 This is part of improving access to performance information and that of data transparency. Member and user feedback will help to inform further developments of performance information, which will form part of the new IT system developments.

2. Recommendations

Members are asked to:

- A. Consider the key underlying and emerging issues in the reports and appendices.
- B. Review the performance portal and identify any performance areas that they would like to consider in greater detail or refer to the appropriate Overview and Scrutiny Committee.

REPORT

3. Risk Assessment and Opportunities Appraisal

- 3.1 Poor performance could have implications for vulnerable people (including children) who are supported by Council services and economic growth in Shropshire. In turn, there may be significant financial, legal and reputational risk to the Council, Schools (and Academies), and partners from across the public and voluntary and independent care sectors.
- 3.2 Effective monitoring and follow-up against key measures of success provides the opportunity to manage risks and ensure that Children and Young People and vulnerable adults in Shropshire remain safe and achieve the desired outcomes. Increasingly, performance reporting will reflect the impact of commissioning decisions by the Council, linking directly with the management of contracts and building on the current approach of looking at how effective the Council is at delivering its outcomes.

4. Financial Implications

- 4.1 This report does not have any direct financial implications, but presents service and financial information to support decision making. Accountable officers and senior managers may use the information to inform actions or interventions for improving service performance and the prioritisation and use of resources.
- 4.2 Full financial details are presented as part of the Financial Reports.

5. Introduction

Each of the four outcome areas contains a number of sub-outcomes with a range of associated performance measures. The frequency of the availability of the data varies from monthly and quarterly updates to annual updates. All measures, regardless of frequency will be available on the performance portal to improve accessibility to information.

Quarterly reports will be used to highlight performance exceptions and changes to measures reported annually.

The refreshed Corporate Plan was approved by Council on 17th May 2018, as a result of this the online performance portal has been updated to reflect the new measures and milestones from quarter 1 2018/19. This report has also been aligned to the new Corporate Plan, focussing on the performance of the new measures and milestones.

6. **Healthy People**

The sub outcomes for Healthy People are; Improving Public Health, Providing Appropriate Care, Children are Protected for the best Possible Start in Life, Participation in Positive Activities for Health and Well-being and Keeping People Safe.

6.1 The rate of permanent admissions of adults both aged 18 – 64 and aged 65+ into residential or nursing homes is lower (better) than the profile and is currently lower than in previous years. The service remains committed to enabling people to remain in their homes and maintain a decent quality of life for as long as possible. The service also confirms that it assesses the needs of each person to ensure that the right service is provided at the right time ensuring that residential and nursing care is provided at the most appropriate time.

6.2 The new Delayed Transfer of Care measure was established in April 2017. National targets have been set to reduce the number of patients who are delayed in their transfer from hospital. The aim is to reduce bed blocking to less than 3.5% of all available NHS beds.

The target for the first year (2017/18) for Shropshire Adult Social Care, set by the Department of Health, was to reduce delays attributed to social care by 60%. Performance targets for 2018/19 are to further reduce delays to less than an average of 1.3 delayed patients per day, attributed to Adult Social Care.

Performance for the year to date shows that Shropshire Council is achieving this target and is one of the most improved Adult Social Care departments in England, performing within the top quartile.

6.3 The rate of Looked After Children per 10,000 U18s has risen during Quarter 2 to 60.8 from 57.3 at the end of Q1 18/19. This is also a year-on-year increase against June 2017 (53.4) This puts Shropshire slightly higher than Statistical Neighbours (55.3) but below the national average (62).

We have seen an increase in children becoming looked after over last year. Children in need of accommodation due to safeguarding concerns has continued. Those concerns range from overall neglect, physical abuse, domestic abuse within the household, substance misuse and parental mental ill health.

We saw an increase in care proceedings being initiated last year and the care proceedings work has continued which has resulted in more younger children entering the care of the local authority under the auspices of court orders. This is much more in line with our statistical neighbours.

Year on Year the proportion of Care Orders has increased by 9.5 percentage points, while the proportion of children under S20 (children living away from the

family home, usually foster care) has fallen by 9 percentage points. In Q2 for example, most of our new entries into care in July to September were as a result of care proceedings.

- 6.4 The overall aim of a Child Protection Plan is to ensure the child is safe and prevent further harm. Numbers of Children with a Child Protection Plan are continually monitored to ensure children have the right support to promote welfare, health and development.

The rate of Child Protection Plans per 10,000 children aged under 18 increased between quarter 1 (33.7) and quarter 2 (40.7) – Shropshire's rate is now similar to the Statistical Neighbour rate and below the England Average (as at March 2017).

We are now more in line with our statistical neighbours. There is a correlation between this and the increase in numbers of children becoming looked after as Child Protection planning is often the beginning of a child's journey into the care of the Local Authority. Care proceedings are instigated in a timely fashion.

- 6.5 Participation in positive activities is beneficial for both physical and mental well-being. Participation rates have been mainly positive with increased visitors to leisure centres, outdoor recreation sites, visitor attractions, Theatre Severn and the Old Market Hall.

There has been a continued long-term reduction in visits to libraries; when comparing the same period last year there has been a reduction in visitor numbers 892,703 for 2018/19 compared to 944,340 in 2017/18.

The annual number of visitors to visitor attractions in Ludlow, Much Wenlock, Acton Scott and Shrewsbury has increased to 195,270 at quarter 2 2018/19 compared to 155,725 at quarter 2 2017/18. Shrewsbury Museum continues to see an increase in visitor numbers. The introduction of a people counter at the Ludlow Museum and Resource Centre has also revealed a higher number of visitors than previously reported.

- 6.6 The annual number of visitors to the Theatre Severn has increased when comparing to the same period last year, quarter 2 2018/19 (187,774) compared to quarter 2 2017/18 (184,109). This increase can be attributed to a number of sell out productions. The Theatre is also making a positive contribution to the visitor economy of Shropshire with 28% of visitors coming from outside of the county.

- 6.7 Keeping safe measures show that retail food and drink premises in Shropshire continue to maintain high food safety standards. Based on nationally published information, 99% of premises are rated as generally satisfactory or higher

- 6.8 As identified and detailed in previous Corporate Performance reports the number of people Killed or Seriously Injured (KSI) on the roads in Shropshire has continued to increase. The annual average over the past 3 years is for 167 people to be seriously or fatally injured.

A new approach to the determining of the severity of casualties was introduced in December 2015 and now relies less on the judgement of Police Officers. This has seen a national increase in the rate of reported severity. It is forecast that the reported number of KSI in this report will continue to rise until December 2018 after

which the new methodology for recording casualties will have completed a 3 year cycle.

It should be noted that the number of casualties does not reflect the number of accidents which have remained at similar levels throughout the period.

Performance Management Scrutiny Committee considered at detailed report on road traffic casualties at their meeting in July 2018 and recommended that a Task and Finish group be formed to look into the topic.

7. Prosperous Economy

The sub outcomes for Prosperous Economy are; Educational Achievement, Employment and Training, Employment and Income, Transports, Physical and Digital Infrastructure, Housing is provided to meet the Needs of Shropshire Residents and Developing a Prosperous Economy.

- 7.1 Provisional attainment results were due to be published at the time of writing this report and will be reported in the quarter 3 performance report.
- 7.2 Being young and unemployed can lead to an increase in the risk of poverty, de-skilling and social exclusion as well as cause loss of motivation and mental health problems. Current rate of claimants for Job Seekers Allowance or Universal Credit actively seeking work in Shropshire is below the regional and national averages. The claimant count for young people (aged 18 – 24) saw a continued reduction from the peak in February 2013 when there were 1,370 claimants. Since June 2015 the number of claimants has remained fairly constant; the number of young claimants as at September 2018 was 540.
- 7.3 The Council's performance measures for broadband only cover premises in the Shropshire Council area where State Aid approval has been granted to invest. This is known as the Intervention Area. The area accounts for approximately half of the premises (circa 72k) in the Shropshire Council area, and include 3 contracts, with 2 partners, BT and Airband. All remaining areas, and new premises are the responsibility of the commercial market to deliver to, not the Local Authority. Commercial providers in Shropshire include Virgin Media, BT, and Secure Web Services.

Within our control are the following contracts:

- Contract 1 (BT) deployment completed in spring 2017 and resulted in an extra 52,453 premises getting access to superfast broadband;
- Contract 2 (BT) commenced in autumn 2016, approximately 4,000 premises are expected to benefit from this contract by 2019;
- Contract 3 (Airband) commenced in spring 2017, and will connect 14,000 premises with superfast broadband by 2020.

At the end of all of our contracts, assuming that all other commercial broadband is delivered as expected, and all new premises are connected, we anticipate 98% of Shropshire premises will have access to superfast broadband.

Shropshire Council continues to be fully committed to the aspirations of connecting all our premises to superfast broadband.

8. Resilient Communities

The sub outcomes for Resilient Communities are; A Clean and Attractive Environment is Maintained, Volunteering, People are Supported to Stay in their Local Communities, Adult Social Care user feedback.

- 8.1 The projected Recycling and Composting rate for quarter 2 2018/19 is 53.6%. This shows a very slight decline compared to the 53.9% of quarter 2 in 2017/18. The fall is due to reduced compostable garden waste received during this summers' period of consistently hot and dry weather.
- 8.2 Shropshire has an active volunteer community who help to provide essential support to help make Shropshire an attractive and welcoming county. Whilst reflecting only a small part of the volunteering that takes place in Shropshire the volunteer hours reported here were given to support the Outdoor Recreation service, Libraries, Archives and Visitor Attractions in Shropshire. During quarter 2 19,990 volunteer hours were provided to support services.
- 8.3 Adult social care user survey results will be reported in the quarter 3 report.

9. Commercial Council

- 9.1 Revenue spend figures for quarter 2 of 2018/19 are due to be reported to Cabinet on 28th November 2018.
- 9.2 There has been a slight increase in the number of Full Time Equivalent employee numbers, which have increased from 2,512 at quarter 1 2018/19 to 2,532 at quarter 2 2018/19.
- 9.3 Additional measures have been added to the performance framework to report compliments and complaints. Quarter 2 has seen a slight decrease in the number of corporate complaints compared to quarter 1 but considering data for a number of quarters suggests this is a result of natural variations (annual figures show an overall increase).

Corporate complaints are predominantly linked to complaints about Highways and Waste Management. In quarter 2, 30% of complaints were for Highways & Streetscene. The number of statutory Children's Social Care complaints in quarter 2 was the same as quarter 1. Numbers of statutory Adult Social Care complaints also remain similar quarter to quarter.

10. Conclusion

- 10.1 This performance report provides an update on the results achieved and the impact on delivering the outcomes for Shropshire.

10.2 Performance for Q2 of 2018/19 has generally been positive with continued improvements or stabilisation of performance.

- Delayed Transfer of Care has significantly improved with performance now in the top quartile for England.
- Permanent admissions to residential care is better than the expected profile and has seen a long-term decrease in numbers.

In addition to these improvements there are challenges to be faced, and these are being managed by the relevant service areas.

- The number of Looked After Children has increased placing additional pressure on the service
- The number of corporate complaints linked to Highways and Waste Management have increased.
