### 1. Summary

- 1.1 This report provides details of the revenue and capital outturn position for Shropshire Council for 2018/19 and provides a summary of:
- The revenue outturn for each service area with a commentary of the main variations and an outline of how the position has changed since Quarter 3.
  - The movements in the Council's General Fund balance.
  - The Council's reserves and provisions.
  - The capital outturn for each service area with a commentary of the main variations and the budget slipped for 2018/19.
- 1.2 The Council's controllable revenue position for 2018/19 has improved by £0.239m when compared to projections made at Quarter 3, resulting in a net controllable underspend of £0.167m, a variance of 0.03% on the gross budget. This improvement has been delivered as a result of variances across a number of Council services.
- 1.3 The outturn on non-controllable insurance is an overspend of £0.046m. When deducted from the controllable underspend, the total outturn adjustment to the general fund is a contribution of £0.121m.
- 1.4 The outturn capital expenditure for 2018/19 is £50.975m, representing 76% of the re-profiled budget of £66.703m. All £15.728m of this underspend has been carried forward to the 2019/20 programme.

### 2. Recommendations

It is recommended that Members:

- A. Note that the outturn for the revenue budget for 2018/19 is a controllable underspend of £0.167m. This represents 0.03% of the original gross budget of £561.950m.
- B. Note that the level of the General Fund balance after adjusting for the outturn underspend and insurance position stands at £15.537m, which is above the anticipated level assessed in February 2019.

- C. Note that the Outturn for the Housing Revenue Account for 2018/19 is an underspend of £3.859m and the level of the Housing Revenue Account reserve stands at £9.813m (2017/18 £8.225m).
- D. Note the increase in the level of Earmarked Reserves and Provisions (excluding delegated school balances) of £4.986m in 2018/19 and the reasons for this.
- E. Note that the level of school balances stand at £4.178m (2017/18 £5.381m).
- F. Approve net budget variations of £0.848m to the 2018/19 capital programme, detailed in Appendix 5 / Table 11 and the re-profiled 2018/19 capital budget of £60.703m.
- G. Approve the re-profiled capital budgets of £69.243m for 2019/20, including slippage of £15.728m from 2018/19, £22.181m for 2020/21 and £16.001m for 2021/22 as detailed in Appendix 5 / Table 15.
- H. Accept the outturn expenditure set out in Appendix 5 of £50.975m, representing 76% of the revised capital budget for 2018/19.
- I. Approve retaining a balance of capital receipts set aside of £20.515m as at 31<sup>st</sup> March 2019 to generate a one-off Minimum Revenue Provision saving of £0.621m in 2019/20.

## **REPORT**

### **3. Risk Assessment and Opportunities Appraisal**

- 3.1 Details of the potential risks affecting the balances and financial health of the Council are detailed within the report. Each variation from budget is also RAG rated to confirm the level of risk to the Council's balances.

### **4. Financial Implications**

- 4.1 This report is based on the financial outturn of the Council's revenue and capital budget for 2018/19 and therefore considers the effect that the underspend has on the Council's balances.

### **5. Background**

- 5.1 Cabinet has received quarterly monitoring reports on the revenue and capital budget during the course of the year. This has meant that Service Areas have identified problem areas as they have arisen and management have been able to take the action necessary to deal with the issues arising.

### **6. Revenue Outturn Position**

- 6.1 The final outturn for 2018/19 shows net controllable revenue expenditure of £208.601m and a controllable underspend of £0.167m. The overall position for service areas and Schools' balances is detailed in Table 1 below.

**Table 1 – Final Controllable Outturn**

<b>Controllable Underspend for 2018/19</b>	<b>(167)</b>

**Graph 1: Projected Outturn Variance to Gross Budget**

- 6.2 The controllable underspend of £0.167m for 2018/19 is presented below by service area in Table 2. End of year entries include items of non-controllable spend (e.g. insurance) that are not included within service projections throughout the year. To enable comparison with previous monitoring reports, the non-controllable element of spend has been excluded from the figures presented below to enable a direct comparison to be made between controllable expenditure at year end, and projections made throughout the year.

- 6.3 Services have worked hard throughout the year to deliver a balanced council position overall, through the implementation of a spending freeze in the early part of the financial year.
- 6.4 Further analysis of the variations to budgets for all service areas is provided within Appendix 1.

## 7. Update on Savings Delivery

- 7.1 During the year the savings projections are RAG rated in order to establish the deliverability of the savings and any potential impact on the outturn projection for the 2018/19 financial year. The RAG ratings are categorised as follows:

- Red – Savings are not solved on an ongoing basis, nor have they been achieved in the current financial year. These are reflected as unachieved within this monitoring report.
- Amber – Savings have been identified on an ongoing basis in the current financial year, however there is no clear evidence to support the delivery as yet. The projected outturn within this report assumes these savings will be delivered (see 4.3 below).
- Green – Savings have been identified on an ongoing basis in the current financial year, with evidence of delivery.

The RAG ratings are updated monthly to determine progress on delivery.

**Table 3: 2018/19 Savings Proposals – Final Outturn**

Workforce and Transformation	731	-	489	1,220
<b>Council</b>	<b>3,037</b>	<b>-</b>	<b>12,504</b>	<b>15,541</b>

- 7.2 The figures presented above show that 80% of the 2018/19 savings target were achieved and rated green with the remainder unachieved and rated red. Paragraph 7.4 below provides further detail on the red savings.

7.3 Table 4 provides further analysis of savings delivery impact on final position for each service area.

7.4 The £3.037m 2018/19 red savings not delivered relate to:

- Reduced provision of home to school transport, and reduced costs of safeguarding placements, within Children's Services
- Efficiencies within administrative buildings and increased income from the Shrewsbury shopping centres within Commercial Services
- Reduced maintenance of closed churchyards and reduced posts within Regulatory Services, within Public Health
- Redesign of the Council's single front door, and the voluntary redundancy programme, within Workforce and Transformation.

More detail on these is provided within the relevant service sections of Appendix 1.

7.5. When setting the Council's budget for 2019/20, £1.842m of growth funding has been applied in order to remove some of the savings above that have been determined to be undeliverable. £1.396m of the savings above are therefore still required to be delivered as the delivery of these savings targets were considered to be delayed rather than undeliverable. Delivery of these savings will be scrutinised at regular savings challenge meetings scheduled to take place with Directors throughout the year. Savings carried forward are listed in table 5 below and their current 2019/20 RAG delivery status is also shown.

7.6. In addition to the red savings pressures, a number of ongoing pressures were identified within service areas during the year. £0.116m of these ongoing pressures have arisen as a result of previous years' unachieved savings. £0.062m is within Public Health and relates to Community Safety, and £0.054m is within Workforce and Transformation and relates to Credit Union. Work is ongoing to determine how these pressures can be mitigated on an ongoing basis in the future.

7.7. Other ongoing pressures include:

- increased purchasing pressures within Adult Services
- contributions to children's special educational placements from the high needs block of DSG, within Central DSG
- loss of income, notably DSG, and increased costs of home to school transport, within Learning and Skills
- increased numbers and complexity of residential and foster placements, including Unaccompanied Asylum Seeking Children, and increased staff costs, within Children's Safeguarding
- increased property costs within Corporate Landlord, and reduced income within Property Services, within Commercial Services
- reduced land charges and building control income within Economic Growth
- increased costs of public transport and concessionary fares within Infrastructure and Communities
- reduced CCTV income within Community Safety.

Significant further work is required within service areas to find an ongoing basis for managing and funding these pressures so that further growth is not required within the Financial Strategy, leading to an increase in the funding gap.

7.8 Table 4 below lists all of the ongoing pressures identified in 2018/19.

7.8. The Council operates two internal funds to help deliver savings now and into the future. The Invest to save Fund was established in 2014 enabling business cases to be put forward with the aim to generate savings and repay the investment back into the fund with interest. From an opening balance of £2.0m in 2014, additional investment into and repayments to the fund since have resulted in an opening balance of £3.342m in 2018. In total since the fund was created investment of £2.405m has been approved, of which £0.814m has been spent to date, and repayments totaling £1.315m have been made from projects. The Development Fund was established for similar purposes, but where a proposal would not deliver a direct or short-term return on investment. Spend in year has totaled £0.619m, leaving remaining funds at £1.7m by year end. These funds are an important enabler in helping to deliver savings and relieve demand pressures in 2019/20 and beyond.

## 8. General Fund Balance

8.1. The effect on the Council's reserves of the outturn is detailed below. The Council's policy on reserve balances is to have a General Fund balance (excluding schools balances) of between 0.5% and 2% of the gross revenue

budget. For 2018/19 the minimum balance required would therefore be £2.810m, although this is no longer considered to be an acceptable guide.

- 8.2. The more appropriate risk based target balance for the General Fund, as calculated in the Robustness of Estimates and Adequacy of Reserves 2018-24, reported to Council on 28<sup>th</sup> February 2019, is £18.063m in 2018/19, rising to £20.400m in 2019/20 and to £34.700m by 2023/24. These figures were significantly increased within the review, reflecting the remaining funding gap in these years as set out in the Financial Strategy, and the significant level of risk associated with the uncertainty over a number of funding sources that have not yet been confirmed as part of the multi-year settlement that the Council has signed up to. At the time of the report it was noted that the projected balance of the General Fund would be below £20.400m during 2019/20.
- 8.3. The Council has received one-off funding in 2018/19 of £0.105m to fund any cost implication arising from Brexit. This has been contributed to the General Fund as shown in table 5 below, as any residual costs arising from Brexit will have to be found from the General Fund balance.
- 8.4. Based on the outturn position, the General Fund balance has increased at year-end to £15.491m, as shown in table 5 below, however the balance is still significantly below the required risk assessed target.

**Table 7: General Fund Balance as at 31 March 2019**

Outturn Contribution	121
<b>Projected Balance at 31 March 2019</b>	<b>15,537</b>

## 9. Housing Revenue Account (Appendix 2)

- 9.1 The Housing Revenue Account (HRA) outturn for 2018/19 shows a surplus of £1.589m against a budgeted deficit of £2.270m, giving a £3.859m variance against the approved budget which represent 21.5% of the gross turnover of £17.9m. The HRA was due to make a direct contribution of £3.96m to part finance the capital works programme for major repairs and building new affordable homes, however delays in the purchase of the land has resulted in this spend being delayed and therefore this spend will instead be released in 2019/20. As at 31 March 2019 the HRA reserve stood at £9.8m and these funds are available to finance future HRA capital works or for the repayment of HRA debt.

## 10. Reserves and Provisions (Appendix 4)

- 10.1. The Council has created a number of specific reserves and provisions to provide for known or anticipated future liabilities and to assist in protecting essential services. Earmarked reserves are balances held for specific items that will occur in the future. Provisions are held to meet expenses that will occur as a result of past events and where a reliable estimate can be made of the obligation.
- 10.2. The overall position for reserves and provisions is set out in the Statement of Accounts 2018/19, however a detailed breakdown of the balances is contained at Appendix 4, with an explanation of each reserve and provision. These figures may be subject to change before the Council's final Statement of Accounts is produced. The change in revenue reserves and provisions are detailed in table 8 below.

**Table 8: Movement in Reserves and Provisions 2018/19**

<b>Balance Held</b>	<b>Reserves £000</b>	<b>Provisions £000</b>	<b>Bad Debt Provisions £000</b>	<b>Total Reserves &amp; Provisions £000</b>
As at 31 March 2018	69,839	11,423	11,344	92,606

<b>Increase/(Decrease) (excluding Delegated School Balances)</b>	<b>3,083</b>	<b>987</b>	<b>916</b>	<b>4,986</b>

- 10.3. In accordance with the financial strategy the Council will be using one off funding to close the funding gap between 2019/20 and 2020/21. This will result in the Financial Strategy Reserve reducing to zero by 2020/21 unless an alternative strategy is followed. The balance of digital transformation funding is also held in the Development Reserve and this will be fully applied in 2019/20. Other Earmarked Reserves are expected to fall over the coming years for a number of reasons. It is difficult to project use with any accuracy, but balances would not be expected to fall to below £20m in the long term. The estimated future balances on earmarked reserves are as shown in table 9 below:

**Table 9: Estimated Future Balances on Earmarked Reserves and Provisions**

	Balance c/f 2018/19 £'000	Estimated Closing Balance 2019/20 2020/21 £'000

Provisions	24,670	24,670	24,670
<b>Total</b>	<b>96,396</b>	<b>70,508</b>	<b>48,116</b>

**Delegated School Balances**

10.4. The movement in delegated schools' balances are detailed in table 10.

**Table 10: Movement in delegated schools' balances 2018/19**

	2017/18 £000	2018/19 £000	Increase/ (Decrease) £000

Purchasing IT equipment	(129)	(55)	74
<b>Total Delegated School Balances</b>	<b>5,375</b>	<b>4,180</b>	<b>(1,195)</b>

10.5. Schools' balances have to be ringfenced for use by schools and schools have the right to spend those balances at their discretion. Of the 92 schools with balances, 86 schools have surplus balances and 6 have deficit balances.

10.6. The Extended Schools Grant allocations for schools were paid over during 2018/19, these balances have been ringfenced to each individual school within School Balances.

10.7. Following consultation with the school's forum and head teachers, the school balances have been used to purchase IT equipment for schools, the cost of this equipment is then recharged to schools over the life of that equipment, effectively operating as an internal leasing arrangement. At the end of 2018/19 £0.55m of the £4.235m was being used in this way.

**11. Original and Final Capital Programme for 2018/19**

11.1 The capital budget for 2018/19 was subject to a review of all projects at Quarter 3 and re-profiling where required into future years with no further re-profiling into future years being anticipated during Quarter 4. However, in Quarter 4 it

has been necessary to undertake some minor re-profiling totalling £0.010m; £0.017m in relation to a Diocese contribution to a school basic need scheme which is not required in 2018/19 so re-profiled to 2019/20 and £0.027m additional funding required in 2018/19 in relation to an Early Years scheme (£0.015m) and a Natural & Historic Environment scheme (£0.012m), so re-profiled from 2019/20. Additionally, in Quarter 4 there has been a net budget increase of £0.838m for 2018/19, compared to the position reported at Quarter 3 2018/19. Table 11 summarises the overall movement, between that already approved, changes for Quarter 4 that require approval.

11.2 Within the financing of the Capital Programme £0.941m is funded from revenue contributions. The major areas of revenue contributions to capital are £0.677m in ringfenced HRA monies to undertake major housing stock repairs and new build schemes and £0.135m for Outdoor Partnerships schemes, primarily Severn Valley Country Park RPA Extension.

11.3 Full details of all budget changes are provided in Appendix 5 to this report. A summary of the significant budget changes for 2018/19 and future years are detailed below:

#### **Budget Increases**

- Housing Infrastructure Fund (HIF) award of £0.449m from MHC&LG awaiting formal offer letter.
- ERDF funding of £0.025m under the Sustainable Energy in Public Buildings (SEPuBu) project.
- Further Section 106 funding of £0.182m in 2018/19.
- Increase in Other Contributions of £0.050m in relation to a school project due to a contribution from the Diocese.
- Revenue contributions of £0.048m have been added to the capital programme in relation to various school schemes.
- £0.032m has been added to the capital programme from the Major Repairs Allowance.
- Capital Receipts of £0.065m have been added to the capital programme in relation to business grant schemes.
- Provisional notification of Devolved Formula Capital funding for 2019/20 of £0.881m.

**Budget Decreases**

- Reduction of £0.013m in CIL contribution requirement for School Place Planning projects following confirmation of tender values.

**Budget Re-profiling**

- **Children's Services:** re-profiling of £0.017m Other Contributions in relation to a school project which will not be required in 2018/19 to 2019/20 and re-profiling of £0.015m in relation to an Early Years scheme that is required in 2018/19 from 2019/20.
- **Place & Enterprise:** re-profiling of £0.012m in relation to a Natural & Historic Environment scheme that is required in 2018/19 from 2019/20.

**12. Capital Outturn Position**

12.1. The capital programme is reviewed on a regular basis to re-profile the budget to reflect the multi-year nature of capital schemes, whereby spend may slip into later years. However, it is possible that a level of underspend or overspend may be experienced against the revised capital budget at outturn. Outturn projections are incorporated into the capital monitor to enhance the monitoring information provided and allow the early identification where schemes are deviating from budget. Table 12 summarises the outturn position for 2018/19.

**Table 12: Capital Programme Outturn Position by Service Area 2018/19**

Service Area	Revised Capital Programme - Outturn 2018/19	Actual Expenditure 31/03/2019	Variance	Spend to Budget %
<b>General Fund</b>

<b>Total Approved Budget</b>	<b>66,703,267</b>	<b>50,974,979</b>	<b>15,728,288</b>	<b>76%</b>

12.2. Total capital expenditure for 2018/19 was £50.975m, which equated to 76% of the re-profiled capital programme of £66.703m. The graph below shows actual expenditure by period and also tracks the period by period changes to the budget.

12.3. There was a total variance of £15.728m between the revised Outturn Budget and the Outturn Expenditure. All of this underspend will be slipped to 2019/20 to facilitate completion of projects commenced in 2018/19. Full details of expenditure variances at scheme level are in Appendix 5. A summary of significant variances by service area are provided below.

12.4. **Place & Enterprise** - Total underspend against the Place & Enterprise capital programme was £9.665m. The most significant areas of underspend are:

- £3.392m against Corporate Landlord. £2.342m of this is against the Tannery scheme and is simply due to low spend in Quarter 4 compared to the Quarter 3 profile. There is no overall delay in the project timeframe and expenditure is expected to revert back to profile by Quarter 2 of 2019/20. There is also a £0.501m underspend against Ellesmere Remediation; ground surveys continue and work will commence in 2019/20.
- £2.275m against The Highways & Transport Local Transport Plan. Primarily due to the announcement of the additional Pothole Fund in the 2018 Autumn Statement. Expenditure will continue into early 19/20 as agreed with the Department of Transport (DfT).
- £1.093m against LEP schemes, primarily SITP (£0.996m) due to delays in relation to the Pride Hill works.
- £1.468m against Ludlow Assembly Rooms Refurbishment scheme. Under the original grant offer spend required completion by 31<sup>st</sup> March 2019. Early in Quarter 4 it became evident that this was not possible and ERDF

consequently extended the deadline. Completion of work is anticipated in Quarter 1 of 2019/20.

- £0.745m against Planning Policy - Affordable Housing schemes. £0.246m of this is against Shrewsbury Self Build where NHB monies for the purchase of suitable sites has not been fully utilised during 2018/19. Identification of suitable land will continue in 2019/20. Additionally, there is £0.309m against Site Acquisition Fund; a non-time limited, specific Government grant to support local community-led housing schemes through the acquisition of land or empty properties. Consultation with local communities is ongoing and grants will be awarded as community bids come forward
- Various other minor underspends have occurred on projects across other areas of Place & Enterprise.

12.5. **Adult Services** - Total underspend against Adult Services was £1.308m. This was £0.720m on Social Care schemes and £0.588m on Housing Health & Wellbeing. Within Housing Health & Wellbeing, £0.290m is against Disabled Facilities Grant (DFG), despite significant re-profiling at Quarter 3. This is simply due to the nature of the grant awards and assessment timeframes. A further £0.297m is against the Home Ownership for People with Long-Term Disabilities (HOLD) scheme (a scheme designed to enable individuals with enduring physical and / or learning disabilities to buy a home of their own). This is due to genuine delays in securing mortgages from providers resulting in low grant awards to assist purchase. The scheme will continue in 2019/20 with continued Government support.

12.6. **Public Health** - Total underspend against the Public Health capital programme was £0.119m. This was entirely in relation to Private Sector Housing Empty Property Incentive Grants.

12.7. **Children's Services** - Total underspend against the Children's Services capital programme was £1.535m. This was spread through-out the different areas of the programme despite significant re-profiling in year.

12.8. **Resources & Support** - Total underspend against the Resources & Support capital programme was £0.531m in relation to the ICT Digital Transformation Programme.

12.9. **Housing Revenue Account** - Total underspend against the HRA programme of £2.570m, of which £2.799m was on the Major Repairs Programme.

### 13. Financing of the Capital Programme

13.1. Appendix 5 provides a full summary of the financing of the 2018/19 capital programme. Table 13 summarises the financing sources and changes made to Quarter 3 and to be approved to Quarter 4.

\* Borrowing for which on-going revenue costs are financed by the Service, usually from revenue savings generated from the schemes.

14.2. The Corporate Resources financing line above is the element of internal resources through capital receipts and corporately financed prudential borrowing required to finance the programme. Current expectation is these will all be through capital receipts, see Section 15 for the current projected position. Proposals are currently been considered through the Capital Investment Board for new schemes for the Council to invest in, with an emphasis on invest to save schemes and schemes that create revenue generation.

## 15. Capital Receipts Position

- 15.1 The current capital programme is heavily reliant on the Council generating capital receipts to finance the capital programme. There is a high level of risk in these projections as they are subject to changes in property and land values, the actions of potential buyers and being granted planning permission on sites. Table 15 below, summarises the current allocated and projected capital receipt position across 2018/19 to 2021/22. A RAG analysis has been applied for capital receipts projected, based on the current likelihood of generating them by the end of each financial year. Those marked as green are highly likely to be completed by the end of the financial year, amber are achievable but challenging and thus there is a risk of slippage, and red are highly unlikely to complete in year and thus there is a high risk of slippage. However, no receipts are guaranteed to complete in this financial year as there may be delays between exchanging contracts and completing.
- 15.2 Capital receipts of £20.857m were brought forward from 2017/18 and £3.094m was generated in 2018/19. As previously reported, following the re-profiling in the capital programme and mid-year review of the programme, sufficient receipts had been generated to finance this year's capital programme without any corporate prudential borrowing. Of the receipts generated in year, £2.162m has been used to finance redundancy costs under the recent flexibilities around the use of Capital Receipts for transformation revenue purposes.

**Table 15: Projected Capital Receipts Position**

Further Assets Being Considered for Disposal		<b>4,097,745</b>	<b>3,400,000</b>	-

- 15.3 Following the underspend position for the capital programme for 2018/19 and the Council policy of applying un-ringfenced capital grants in place of capital receipts where they are not required in full due to scheme underspends, the Council has £20.515m in capital receipts in hand at 31/03/19. These will be set-aside, enabling the Council to achieve an additional MRP saving of £0.621m in 2019/20. These capital receipts are required to finance schemes they are allocated to in the future year's capital programme.
- 15.4 Based on the current approved position, across the life of the programme there is a shortfall in capital receipt projections of £5.978m in 2019/20 and £9.023m in 2020/21 based on receipts rated green in the RAG analysis to fund the required budget in the capital programme. There is, therefore, the requirement to progress the disposals rated amber and red which total £7.498m to ensure

they are realised, together with realising the revenue running cost savings from some of the properties. Considerable work is required to realise these receipts, with generally a lead in time of at least 12 to 18 months on larger disposals. In addition to the current expenditure commitments, the programme will also grow as new schemes are approved through the Capital Investment Board.

- 15.5 It is important that work progresses, to avoid a funding shortfall in 2019/20 and minimise any shortfall in future years. Even if the further assets being considered for disposal are realised there is still a projected shortfall in the level of capital receipts required to fund the capital programme of £1.525m. This shortfall will need to be managed by either further reducing or re-profiling the capital programme, some of which will occur naturally as part of the review of the delivery of schemes; or undertake prudential borrowing, which will incur future year's revenue costs that are not budgeted in the revenue financial strategy.
- 15.6 The projected shortfall in capital receipts is purely based on the currently approved capital programme for the period 2019/20 to 2021/22. The current Capital Strategy 2019/20 to 2023/24, approved by Council in February 2019, identifies potential future capital schemes with estimated costs of £289.926m. It is prudent for schemes which are not anticipated to generate additional income to be funded from capital receipts. This will further increase the future pressure on capital receipts generation.

## **16. Unsupported borrowing and the revenue consequences**

- 16.1. The Council can choose what level of unsupported (prudential) borrowing to undertake to fund the capital programme, based on affordability under the prudential code. There is an associated revenue cost to fund the cost of the unsupported borrowing. This consists of the Minimum Revenue Provision (MRP) charge for the repayment of the principal amount, based on the asset life method and the interest charge associated with the borrowing. The current PWLB borrowing rate over 25 years is around 2.70% and is currently only projected to rise by 0.50% across the next two years. As covered in Section 15 above there are insufficient receipts in hand/projected to finance the existing approved programme. If there were to be a requirement for new schemes financed from borrowing, this could be accommodated from within existing borrowing and current cash balances in the short term, without the requirement to undertake new borrowing. This would, however, create an additional MRP cost, which would need to be met from the revenue budget.

\*The non-controllable items included in the table above include items such as depreciation, impairment of assets, other capital charges and IAS19 (pension costs)) that are not included within service projections throughout the year. These charges are produced at the year-end as they are calculated as part of the closedown procedures. The budgets for the year are set in the February of the preceding financial year, and rather than reallocate these budgets at the year end to match where the accounting entries are processed, we allow variations from budget to be reported instead. With the exception of insurance costs, the net effect of these variations across the Council will always be nil, as any overspends within non-controllable budgets for service areas will be offset by a Corporate underspend which reflects the statutory requirement that any variations in these budgets should not impact on the Council Tax payer and ultimately the Council Tax that we charge.

Adult Services Business Support & Development	Portfolio Holder Health & Adult Social Care	3,529,970	3,083,737	(446,233)	Y
There is an underspend within Business Support and Development of (£0.446m) which is largely due to one-off reserves being retrospectively applied and a number of managed variances across the service. The vacancies are not sustainable beyond the short-term. A summary of the major variances are as follows: • (£0.079m) underspend on Business Support staffing and costs associated with the posts, due to delays in appointing to vacant posts. • (£0.122m) underspend on Joint Training and the Professional Development Unit of which (£0.041m) relates to

<b>Provider Services</b>	<b>Portfolio Holder Health &amp; Adult Social Care</b>	5,526,910	4,776,912	(749,998)	Y
<p>There is an underspend within Provider Services of (£0.750m) which is largely due to client contributions towards care services being treated differently in year, as well as a number of variances across the service which are not sustainable beyond the short-term. The major variances are as follows:</p> <ul style="list-style-type: none"> <li>• (£0.017m) underspend on TUPE arrangements following the outsourcing of Crowmoor House in 2016</li> <li>• (£0.097m) underspend relating to preventative services contracts</li> <li>• (£0.045m) underspend in Shared Lives accommodation as the client contributions are now received into this service area – the corresponding increase falls in Social Care Operations</li> <li>• (£0.295m) underspend across all Day Services. (£0.096m) is due to a management restructure and in year vacancies. (£0.079m) is due to variances in working budgets such as transport recharges, office costs, equipment and furniture replacement and the remaining (£0.120m) is due to an overachievement of day centre income due to client contributions income now being received into day services, overachievement of pool hire income and additional health funded clients. This additional funding / income is not sustainable in the longer term</li> <li>• £0.201m historic overspend relating to Four Rivers Nursing Home, due to higher than budgeted staff costs, including agency, reduced income from NHS partners and a smaller number of self-funded clients. This is not considered on-going as the budget will be revised in 19/20 to reflect the new arrangements in occupancy status of the home.</li> <li>• (£0.497m) underspend relating to the Start team. (£0.317m) is due to not being able to fill vacancies, mainly in central areas and the north of the county and the remaining (£0.179m) is due to one-off winter pressure funding being applied here to fund additional costs of increasing capacity of the service.</li> </ul>					
<b>Social Care Operations</b>	<b>Portfolio Holder Health &amp; Adult Social Care</b>	82,329,320	83,801,045	1,471,725	A
<p>An overspend of (£1.471m) is within the Social Care Operations section of Adult Services. In 2018/19 we have seen 2,063 new clients since 1st April 2018, costing in the region of £8.639m for this financial year. Of these 1,006 clients are in long term packages. Some of this additional cost has been offset by people leaving the system and through the review of existing care packages to reduce care where suitable. The major variances are as follows:</p> <ul style="list-style-type: none"> <li>• (£0.642m) underspend within Assistive Services, which is in relation to the purchasing of occupational therapy equipment. It has been agreed in 2018/19 that all equipment will be funded from Disabled Facilities Grant which sits under Shropshire Council's capital scheme</li> <li>• £0.076m overspend on transport costs</li> <li>• £0.155m overspend on property costs within Supported Living accommodation</li> <li>• £2.623m overspend on the net cost of purchasing. As alluded to above, there is an expanding market of clients that Shropshire Council is under obligation to support and we are seeing increased fees with care providers in order to meet these clients' needs. Different central government funding streams have reduced some of the short term pressures but this is not sustainable in the long term. Small percentage differences in numbers and cost have a large impact on the outturn position.</li> <li>• (£0.508m) underspend on all operational social work staffing due to delays in appointing to a number of staff vacancies.</li> <li>• (£0.233m) underspend on external reablement contract spend due to this work being carried out by the START team</li> </ul>

Central DSG	Portfolio Holder Children's & Young People	-	-	-	G
<p>There was an overspend of £1.410m against the Central DSG budget. £0.531m of this overspend has been funded by the balance of DSG funding carried forward from 2017/18, however that left a remaining deficit of £0.879m. This deficit has been funded by a one-off contribution from corporate reserves to be refunded from Central DSG in 2019/20. To achieve the underspend required to fund this repayment, a task and finish group comprising various stakeholders is working to produce a financial recovery plan to identify strategies to produce savings, particularly in the High Needs Block.</p> <p>£0.824m of the £1.410m overspend on Central DSG relates to the High Needs Block of DSG where the total expenditure was £19.988m compared to the budget of £19.164m. The budget pressures relate to top-up funding to mainstream settings (£0.430m) and independent special school placements (£1.072m). These two areas of budget pressure are offset by the additional high needs funding of £0.627m which was announced in December 2018.</p> <p>The overspend on independent special school placements mirrors the national picture being reported by the f40 group of local authorities during a recent survey of high needs costs pressures. The responses concluded increasing demand for independent special school placements, and higher contributions from education towards joint social care placements signalling increasing complexity of children's needs.</p> <p>The outturn position for the Early Years Block of DSG is an overspend by £0.764m on a provisional budget of £15.156m. This overspend was only identified as of late February once the Spring Term Nursery payments for two, three and four year olds had been processed, therefore the projected overspend on the DSG is significantly higher than previously reported to Cabinet as at the end of quarter 3.</p> <p>The main reason for this pressure is a large overspend in relation to the Early Years allocations for two, three and four year old nursery entitlement. There are a couple of reasons for the overspend against these budget allocations. Firstly, the number of academic weeks being funded within the financial year. The Council receives funding from the ESFA for an academic year of 38 weeks since parents are entitled to provision of 15 hours each week over 38 weeks. The number of funded weeks in a financial year varies from year to year and in 2018-19 there were a total of 40 funded weeks. This is being classed as a one-off budgeting pressure since measures have been put in place for 2019/20 to ensure that the Service only funds providers on the basis of the number of academic weeks that the Council is funded for.</p> <p>Secondly, the Council has experienced a higher take up of provision in this year than previously resulting in a greater draw on the funding. Across the course of the year there were around 100 additional 2-year-old children taking up provision over the course of the year and around an additional 50 three and four year olds compared to the numbers of children for whom the Council receives funding through the Early Years National Funding Formula. The Council will receive some compensation for this when the 2018/19 funding allocation is revised to take account of the January 2019 census figures. However, we will only receive 5/12ths of the full year funding for those</p>					

additional children. It is estimated that these additional children resulted in around £0.400m of additional spend over the year of which we hope to receive around £0.100m back in additional income.

There are one-off budget monitoring pressures and savings on some Central DSG budget areas which partially offset the large overspends on the Early Years and High Needs Blocks of DSG to give the in-year deficit position of £1.410m.

The final position reflects unachieved 2018/19 savings of £0.596m in Home to School Transport. In February 2019, a paper was presented to Cabinet on the discretionary areas of School and College Transport comprising; Nursery SEND pupil transport, SEND post 16 students and post 16 mainstream students. The paper outlined proposed policy changes to these discretionary areas to deliver £0.203m in savings. Cabinet approval was granted to commence a 6 week consultation on the proposed policy changes detailed in the paper, with a paper scheduled to return to Cabinet on 22nd May 2019 with the results of the consultation. If Cabinet make a decision to adopt the proposed policies on 22nd May, the new policies will be implemented on 1st September on a phased approach, protecting those pupils entitled within existing schemes. This means these savings were not delivered in full in 2018/19. The remaining savings will be delivered through a range of initiatives that do not require consultation.

As well as unachieved savings targets, Learning and Skills' overspend results from reductions in Central Government grants. Although some growth was built into the 2018/19 budget to negate for most of the loss of grant, £0.203m remains as an ongoing pressure and relates specifically to the loss of Dedicated Schools Grant funding. This was a direct result of a baselining exercise undertaken by the Department for Education to remove any Dedicated Schools Grant funding that did not meet strict criteria that constitutes a historic spending commitment, but that fund statutory functions that the Council is required to undertake.

There was also a budget pressure of £0.023m in Governor Services. Reduced SLA income has continued and there is likely to be a downward trend in income as the demand for traditional Governor support services has started to reduce as schools have federated under one governing body, while others join multi-academy trusts (MATs). This shortfall in income has been largely managed in year through one-off vacancy management savings while the service reviews its offer to schools. To address this an initial redesign of Governor Services has already been implemented and the consequence of this has been a reduction in the size of the team and the Casual Governor Services Clerks will cease to be employed by the Council from 1st April 2019 and will be employed directly from schools/MATs.

Additionally, there is a forecast overspend of £1.305m in Home to School Transport largely as a consequence of an increase in the Special Education Needs cohort and an increase in the number of academic days in the financial year. SEN passenger numbers have increased from 690 in September 2015 to 767 in September 2017 and are projected to continue to increase 5% a year.

The cost pressures above are partially offset by one-off underspends totalling £0.265m. Some of this is from services carrying temporary vacancies or have achieved higher than budgeted levels of income and some of this relates to the schools' redundancy pot where the costs incurred in 2018/19 have been lower than 2017/18. This could be explained by the smaller number of maintained schools.

<b>Children's Social Care &amp; Safeguarding</b>	<b>Portfolio Holder Children's &amp; Young People</b>	27,228,860	29,880,038	2,651,178	R
<p>An unachieved 2018/19 savings target around reductions to external placement costs accounts for £0.430m of the £2.651m overspend.</p> <p>Firstly, Children's Safeguarding are committed to increasing foster placement sufficiency so that the Council can care for more looked after children within a family environment. This is not only in the best interests of the majority of looked after children but will lead to significant financial savings. The aim is to increase the pool of foster carers and look to identify and support foster carers with looking after more complex children. This will reduce demand for expensive residential provision. In addition to this, a strategy to develop additional in-house residential provision has been approved by Council in February. This strategy is being implemented on the basis that following initial capital investment to acquire properties, internal provision will deliver revenue savings through supporting a few of the most complex children at a lower cost than the market rate. This residential work is being prioritised at a senior level and agreement has been sought to appoint a Project Manager to ensure that this strategy is implemented as soon as possible. Due to the longer term nature of these strategies, the £0.430m has not been achieved in this financial year. The placements savings target of £0.430m no longer forms part of the Council's savings targets in the latest financial strategy, however these strategies described above will be implemented in order to manage expenditure growth in this area and address the increasing overspend on Children's Placements.</p> <p>Although there is a view within the service that these strategies will deliver significant savings, there are some external risk factors that may impact on these savings being achieved. These include on-going placement disruption for our most complex young people resulting in children moving from foster placements to high cost residential placements and a continued high number of children coming into care through care proceedings, evidenced by the increase in Shropshire's looked-after children (LAC) numbers from 338 on 1<sup>st</sup> April 2018 to 397 at the end of the 2018/19 financial year.</p> <p>Further, to the unachieved saving relating to placement costs, there is a forecast ongoing monitoring pressure of £0.606m relating to external residential care and all foster care placements. This means that the overall pressure on external residential care and all foster care placements is £1.036m. The service is satisfied that the children and young people coming into the care of Shropshire Council in this financial year are children that need to be in the care system. The service has experienced increasing complexity of Shropshire's looked after children. This is reflecting the national picture with all Local Authorities reporting increasingly complex children. There is a continued drive to reduce higher cost residential placements for children where it is appropriate, and this will have a positive impact on the budget. It is notable that this is a volatile area where costs can change significantly from year to year.</p> <p>An ongoing monitoring pressure of £0.198m relates to increased capacity built into the Children's Placement Service to enable the recruitment of more carers and retain and support current carers. A business case was approved as part of the strategy to increase foster placement sufficiency described above.</p> <p>In addition to the above there was an overspend of £0.457m relating to Unaccompanied Asylum Seeking Children (UASC). Although some growth was built in to the 2018/19 budget in anticipation of this continuing pressure from 2017/18 this has been insufficient. Central Government funds a proportion of these costs through a weekly value based on the child's age. Previously the Council has managed to fund these costs within the grant funding available but due to some complex safeguarding needs and high flight risks there has been a need to place some children in high cost placements that are not fully funded, placing a pressure on the service. There are 3 UASC currently in high cost residential placements which will mean an on-going cost pressure to the service in 2018/2019 however plans are in hand to reduce the cost of the high cost placements. Only a portion of these costs are categorised as ongoing pressures since the Council will receive Central Government funding for the 2018/19 costs in the 2019/20 financial year.</p> <p>There is an on-going budget pressure of £0.767m caused by agency staffing costs in the social work teams. This pressure has continued from previous years. It is necessary to ensure that children who are looked after, on a</p>

<p>Child Protection Plan or in children in need of a plan are adequately supported in line with statutory timescales and this will dictate that sickness, maternity or temporary vacancy must be covered in the interim through agency staff. There is also a heavy reliance on agency social workers due to the number of social worker vacancies and the challenges in recruiting to vacant posts. The service remains focused on recruitment and retention with the identification of a dedicated HR worker to support with the timely recruitment of social workers. The recruitment campaign for children's services has been reviewed and updated and we are part of two graduate programmes for social work including Frontline and Step Up. The service is also working to develop 8-10 social work apprentices. A retention payment has been made available to retain social workers in the teams that are hardest to recruit.</p> <p>A one-off monitoring pressure of £0.206m is being reported against the Council's internal residential homes budget. £0.087m of this cost relates to one-off building works at the new emergency accommodation unit and a further approx. £0.048m relates to new staffing appointments at this home where a new registered manager, deputy manager and residential care workers have been or are in the process of being appointed. The remaining overspends occur across various expenditure headings across the 3 internal residential units. A business case was approved to develop residential provision on an invest to save basis.</p> <p>£0.015m of underspends relate to one-off monitoring savings across several teams.</p> <p>The issues of rising demand for high cost residential placements and cost pressures from agency social workers are not local to Shropshire and are reflected nationally.</p>

<p>The overspend in Early Help is largely the result of an unachieved 2017/18 saving around Early Help Family Hubs that has carried forward. A report was presented to Cabinet at the end of September 2018 on Phase 2 of the Early Help Family Hubs strategy to feedback on the consultation around specific hub locations and seeking approval for the locations of Early Help Hubs. The proposed delivery model will deliver children's centre services from 7 new family hubs across Shropshire and will deliver the outstanding savings in Early Help from 2019/20. Consequently this overspend is categorised as a one-off monitoring pressure.</p>

<p>The Economic Development sites have out-turned at (£0.209m) under budget, this is primarily due to income being (£0.165m) which is from new tenants and backdated income being received. Cultural and heritage properties (including museums, libraries and leisure properties) have underspent by (£0.067m), this is due to a lease surrender totalling (£0.070m) and the Council's admin buildings have also underspent, by (£0.111m), this is a combination of efficiencies in operating, new income and savings in business rates.</p> <p>These underspends are partially offset by overspends within Adult Care Homes of £0.102m, Childrens &amp; Educational sites (excluding schools) of £0.027m and Traveller Sites of £0.059m.</p> <p>The repairs and maintenance budget has a reported overspend of £0.142m due to the volume of planned and reactive maintenance required across the corporate estate in this financial year, this has been offset by underspends explained above.</p> <p>Whilst the overall position within Corporate Landlord is a positive for 2018/19, the vast majority of the savings found this year relate to backdated or one-off measures. <p>Vacancy management within the Strategic Asset Management teams has created a projected under-spend of £0.087m, offset by income from the Shrewsbury Shopping Centres, totalling £2.060m for 2018/19. The £52m investment in the Shopping Centres was built in to the Minimum Revenue Provision (MRP) Policy although, in the short term the acquisition was funded from cash balances with no requirement to borrow. In the short-term the gross return on the investment significantly exceeds expectations, and this is partially due to the recent change in the Council's MRP Policy. The net overall benefit is split between the Corporate Budget (MRP) below and rental income shown here. The overall return on the Shopping Centre investment is therefore in excess of the budgeted return for 2018/19. Whilst the retail sector continues to change we are developing a proactive and strategic approach to leaseholder management.</p>

<b>Coroners &amp; Bereavement Services</b>	<b>Portfolio Holder Health &amp; Adult Social Care</b>	202,130	153,075	(49,055)	Y
Overall an underspend of £0.049m has been achieved as work on grounds maintenance has improved the cemetery areas and resulted in a greater number of burial plots available for sale. Savings of £0.047m in relation to the renegotiation of the Shrewsbury Town Council service level agreement have not been achieved but this has been offset in 18/19 by underspends in Coroner post-mortem and other expense budgets.					
<b>Multi Agency</b>	<b>Portfolio Holder Health &amp; Adult Social Care</b>	504,510	660,326	155,816	R
Overall an overspend of £0.156m has been reported due to a number of variances across the service. The major cause of this variance is a £0.190m projected overspend in Community Safety, which is as a result of unachieved savings and the cancellation of aged debtor invoices. The service is looking at ways of claiming funding towards the cost of management posts and other delivery models in order to try to achieve the required savings. A £0.031m underspend has been achieved in the Emergency Planning Unit due to the resignation of the team manager and delays in recruiting to a vacant post.					
The Links/Healthwatch service which aims to give patients, services users, carers and the wider public a say in the way that health and social care services are run has achieved savings of £0.068m; all contributions from the Council base budget have been withdrawn and the service is now funded purely from external funding.					
Savings of £0.039m on Targeted Mental Health in Schools and the Healthy Child Development Programme have been achieved through the removal of vacant posts and the reduction in scheme budgets.					
<b>Public Health – Ring Fenced</b>	<b>Portfolio Holder Health &amp; Adult Social Care</b>	23,470	23,470	-	G
Officers within the ring fenced element of Public Health are working on a number of savings initiatives in order to bring the overall cost of the ring fenced services to within available funds in future years. These savings initiatives include increased income generation within the Help to Change service and the roll out of commercial activities such as Health TV. The Public Health Grant has been cut by 2.6% in 2018/19 and is expected to be reduced by a further 2.6% in 2019/20.					
<b>Trading Standards and Licensing</b>	<b>Portfolio Holder Planning &amp; Housing Development</b>	817,700	602,787	(214,913)	Y
An underspend of £0.215m has been reported due to a number of vacant posts within the service; plans are in place to appoint to the vacant posts and therefore the underspend variance is not sustainable beyond the short term. In addition to underspends in relation to vacant posts, income generating activities in relation to parking enforcement and licensing fees have exceeded budgeted levels. These income generating activities are performed on a cost recovery basis and therefore any surplus is reinvested into the delivery of the services.					
<b>Regulatory Services</b>	<b>Portfolio Holder Planning &amp; Housing Development</b>	2,963,310	2,785,463	(177,847)	Y
An underspend of £0.178m has been reported due to a number of vacant posts within the service; plans are in place to appoint to the vacant posts and therefore the underspend variance is not sustainable beyond the short term.					
<b>Registrars</b>	<b>Portfolio Holder Health &amp; Adult Social Care</b>	236,090	100,319	(135,771)	Y
An underspend of £0.136m has been achieved due to higher than anticipated Registration Fee income. The service continues to operate commercially in order to maximise income and control its costs and is expected to deliver £0.040m of savings in 2019/20.

Technology & Communications	Portfolio Holder Corporate Support	412,660	(654,239)	(1,066,889)	Y
An overspend of £0.147m was incurred due to unachieved historic savings and the use of agency staff. This was mitigated by underspends of (£0.202m) achieved in year from a combination of vacancy management, reduced spending on supplies and services, and from increased income across customer access. A further overspend has been identified of £0.034m relating to the use of reserves which has been confirmed as no longer available.					
IT Services delivered in year efficiencies of (£0.089m) across vacancy management and supplies and services, in addition one off savings of (£0.686m) relating to funds held for infrastructure expenditure were confirmed as not required in 2018/19 only. Additional income was secured in year mainly from print services (£0.078m) and recharges for licensing to DTP (£0.189m).					

ICT Digital Transformation	Portfolio Holder Corporate Support	(436,170)	411,677	847,847	R
Of the £1.000m savings target relating to Digital Transformation £0.267m was achieved in year. Potential savings relating to the provision of face to face services have been identified, but these were not able to be delivered in year and are subject to approval. Work is being undertaken to identify how the savings can be delivered in future years.					

Human Resources & Development	Portfolio Holder Corporate Support	186,020	(248,523)	(434,543)	Y
In year savings of (£0.340m) across Workforce & Transformation have been achieved in relation to vacancy management efficiencies. In addition, as part of the drive to increase the commerciality and expansion of the service, it has secured additional income generation for Occupational Health Services (£0.053m) alongside an additional (£0.021m) within Health & Safety Services. Income across HR services in general has also contributed towards in year savings (£0.020m) while (£0.061m) has been realised as part of the spending freeze and recent review of the teams.					

Information, Intelligence & Insight	Portfolio Holder Corporate Support	43,850	(87,411)	(131,261)	Y
In year savings were achieved from receipt of grant funding to cover one post (£0.048m), vacancy management efficiencies (£0.053m) and from the spending freeze (£0.030m).
