

7. The application route is shown marked on the plan below:

FP18 mainly passes through Shropshire Council land but also crosses into Telford and Wrekin Council area and a previous request to upgrade this footpath to the status of bridleway was submitted.

Bridleway 64 leads into footpaths 69 and 67 – any earlier application for FP69 to be upgraded to bridleway was submitted in 2004.

Footpath 67 connects with FP72, and with FP74 which itself joins with FP75. There is no obvious end point nor turning point where bridleway 64 joins FP67 and FP69 and so the evidence points to continued use as a bridleway.
