

Adult Social Care, Public Health & Housing

Health & ASC Scrutiny Committee

14th June 2021

Priorities 2021/22-2022/23

Establishing a **strong evidence base** for local decision making to have one source of an understanding of our people, communities and place (JSNA/Community and Rural Strategy/PHM).

Focus on **place/community** as the heart of Shropshire.

Development of Children and Young People's social prescribing service pilot in the SW.

Health in all embedding the approach across the Council and Health and Care System.

Transforming the local **public health and regulatory services** structures to respond to the public health challenges of living with COVID post response phase –

Building systems to promote good **mental health and wellbeing**, giving mental and physical health pa

Shropshire Integrated Place Partnership

Principles (ToR summarised)

- Share information to achieve the stated aims of the Partnership
- Demonstrate through positive, proactive and inclusive behaviours, a commitment to making the Partnership's work a success
- Embed within our own organisations these values, behaviours and work programmes, leading by example, and holding each other to account
- Share information, experience, resource; jointly develop our workforce
- Adopt an approach of doing things once, together, trusting others to act on our behalf, and on behalf of and for the benefit of our system
- Work collaboratively to deliver to achieve best outcomes
- Learn from each other, from the people who experience our services and from best practice in other organisations
- Resolve differences of opinion positively and professionally
- Work in accordance with the Alliance Agreement which underpins these principles

Priorities (Long Term Plan & ICS Designation)

- Prevention and Healthy Lifestyles
- Building Community Capacity and Resilience
- Children's and Young Peoples Strategy
- Early Access to Advice and Information
- Primary Care Networks
- One Public Estate
- Integrated Care and Support
- Integrated response; tackling health inequalities

Programmes and subgroups (proposed)

- Healthy Lives (subgroup)
- Care Closer to Home (or follow on programme)
- FIT - Case management /Home First Shrewsbury/Telford Rapid Response
- Community Services review?
- Joint Strategic Needs Assessment & Community and Rural Strategy?
- Inequalities?

Mental Health Transformation

In Shropshire we are developing **new models of accommodation** to support people to live in communities and prevent hospital admissions in collaboration with our partners in Housing, the NHS and voluntary agencies.

The largest part of the mental health transformation programme focuses on the transformation of community mental health services to integrated working.

Covid has had a huge impact on mental health which is still being realised. In response, we have prioritised the expansion of the **CYP crisis service** in 2020/2021, ahead of plan, and this service is now operational.

We will undertake **joint commissioning** across mental health and alcohol/drugs (including primary care, criminal justice settings and specialist/acute care), supported by strong, senior, and visible leadership.

Joint Commissioning

Collaborative **Commissioning Opportunities**—Place based Joint Commissioning to drive efficiencies and system savings and quality outcomes.

Health and social care to jointly review agreements and costs of specific contracts and consider options to tender/contract these differently and jointly, in particular those high-cost complex services.

To scope a **shared Provider Framework** to deliver on specific health needs, specifically for joint care packages.

Provider Market Transformation

- Shropshire, Telford and Wrekin LA's, along with the CCG have developed a **new process for commissioning care** and supported for adults with Learning Disability, Autism or Mental Health needs.
- We have redesigned our **direct payments policy** and re launched the offer of direct payments as an alternative to commissioned care and support.
- We have recently worked with Telford and Wrekin to procure a digital platform, **Care Cubed** – accurately assess the cost of complex care packages for adults with a learning disability.
- We implemented **standard rates** for Older Persons and Physical Disability care homes to work towards a fair, transparent and equitable market, that can remain vibrant and stable.
- To review and publish Shropshire **Market Position Statement**.
- We are currently delivering an Assistive technology project into our supported living schemes, proving individuals with digital technology that will assist them to live more independently.
- We are working with care home providers to encourage them **to diversify into outreach** care and support, particular in our more rural locations where we struggle to source care.

Different Model for Temporary Accommodation

- To decrease the number of B&B placements and provide supported temporary accommodation
- Increase homeless prevention options
- To implement the Domestic Abuse Bill

Summary

- JSNA
- ICS/SHIPP
- MH transformation
- Joint commissioning
- Provider market transformation
- Temporary accommodation
- Homeless prevention
- Domestic abuse Bill
