APPENDIX A

2014 DRAFT Memorandum of Understanding between:

- Shropshire Health and Wellbeing Board,
- HealthWatch Shropshire,
- Shropshire’s Overview and Scrutiny Committees (in particular Health & Adult Social Care Scrutiny Committee and Young Peoples Scrutiny Committee)

1. Introduction

1.1 The aim of the Memorandum of Understanding [MoU] is to set out a simple framework for the constructive working relationship between Shropshire Health and Wellbeing Board [HWBB], Healthwatch Shropshire [HWS], and Shropshire’s Overview and Scrutiny Committees [OSC], in particular Health & Adult Social Care Scrutiny Committee [HASCSC] and Young Peoples Scrutiny Committee [YPSC].

1.2 All organisations recognise that there are distinct and unique relationships and each has a distinctive role to play in improving health, social care and wellbeing for communities within Shropshire. Accordingly, the framework takes account of these relationships and specifies the ways in which all bodies will work together in delivering their respective statutory function (see Annex 1).

1.3 The MoU cannot override the statutory duties and powers of any of the organisations, and is not enforceable by law. However, all organisations agree to adhere to the principles set out in the MoU and will show regard for each other’s activities.

1.4 The MoU sets out the collective responsibilities as agreed together and principles that the organisations will follow in the course of day-to-day working relationships. The MoU may need to be supported by protocols and other documents not included in this framework which set out in more detail operational considerations of how the organisations will work together.

2. Collective Responsibilities

2.1. The HWBB, OSC’s and HWS recognise collective responsibility in improving the health and wellbeing of people in Shropshire. As such the groups will work together to both support each other and to provide appropriate challenge to ensure that the potential to improve the health and wellbeing of the population is maximised.

2.2 The HWBB, OSCs and HWS understand the importance of engaging with our population, and the requirement to incorporate patient/public feedback and/or engagement in all our planning and commissioning cycles. While understanding patient experience and acting as ‘consumer champion’ is a key function of Healthwatch Shropshire, there is a collective responsibility to ensure that all mechanisms for consultation and engagement are effective and efficient.

2.3 Decisions taken by the HWBB, OSC’s and HWS must work to promote the sustainability and efficiency of services and work to promote the implementation of the prevention agenda and to reduce inequalities in Shropshire.

2.4 HWBB, OSC and HWS must ensure the smooth transition of appropriate information across organisations. This may require the development or enhancement of information sharing agreements.

2.5 The need to help create an environment where commissioners and services can make large scale changes. In this process we will need to take and manage risks appropriately and continue to work together to promote health and wellbeing of the Shropshire population.
3. Principles of Cooperation

3.1 HWBB, HWS and OSC agree that their working relationship will be guided by the following principles:

- To promote the safety health and wellbeing of the Shropshire population;
- To hold each other to account for decisions and delivery;
- To respect each other and each organisation’s independence;
- To maintain public confidence by engaging and communicating with the communities we serve;
- To consistently promote openness and transparency;
- To use resources efficiently and effectively.
