1. Synopsis

The report proposes the Treasury Strategy for 2023/24. It sets out the arrangements for how the council will appropriately manage its arrangements for banking, cash flow management, investments, and borrowing, supporting the delivery of the MTFs and The Shropshire Plan.

2. Executive Summary

- 2.1. Treasury management refers to work undertaken 'in the background'. It is the way the authority manages cash flow, banking, investments and borrowings. Effective treasury management is an essential foundation for the services the Council provides.
- 2.2. CIPFA has defined treasury management activities as 'the management of the organisation's investments and cash flows - banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.' The amounts in these different areas of activity fluctuate, but, at the time of preparing the report, the council had
 - gross cashflows in and out registering in the hundreds of millions of pounds each year

- future planned capital investments (capital financing requirement or 'CFR'), funded from a variety of sources, approaching £0.5bn
 - debt (external borrowings) just under £0.3bn (this is all fixed rate; no borrowings held with variable rates). The majority of this (£0.25bn) is government loans (Public Works Loan Board, 'PWLB'). The profile of debt maturity is spread across future years (PWLB loans mature between 2028/29 and 2056/57). Provision to meet the finance cost of this debt and to repay the principal is included in the annual budget process.
 - Investments (of cash held for various purposes, which can be safely invested for a period based on projected cash flow requirements) of £144m.
- 2.3. This is a complex and significant area of the Council's financial operations and is therefore delivered within an appropriately robust framework of legislative and best practice safeguards.
- 2.4. To enable an efficient approach to delivery of treasury management functions across partner organisations, the Council also provides this function for other organisations as below. (NB – this report relates specifically to the Treasury Management Strategy for the Council.)
- West Mercia Energy (WME)
 - Shropshire Towns and Rural Housing (STARH)
 - Shropshire and Wrekin Fire Authority
 - The Marches Local Enterprise Partnership (LEP)
 - The Shropshire County Pension Fund (SCPF)
- 2.5. Given the scale of these activities, it is essential that best practice is applied, and local activity is amended as best practice evolves. The Council achieves this in two ways – by retaining Link Group as specialist treasury management advisors, and by adopting recommended best practice from sector leaders such as CIPFA.
- 2.6. In December 2021, CIPFA published the revised Treasury Management Code and Prudential Code. As noted last year, formal adoption is included for the 2023/24 financial year. Details of the changes in the codes can be found in Appendix 1. This Treasury Management Strategy has also been prepared in compliance with CIPFA's Code of Practice on Treasury Management 2017 and covers the following:-
- A high-level long-term overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of services
 - An overview of how the associated risk is managed
 - The implications for future financial sustainability
- 2.7. Key points to note in the strategy are:-
- Borrowing is driven by the requirements of the approved Capital Programme.
 - Currently the approved borrowing requirement identified within the approved Capital Programme 2022/23 to 2024/25 is prudential borrowing

of £81.318 million. In addition to this there is an anticipated prudential borrowing requirement for future prioritised schemes in the Capital Strategy 2023/24 to 2025/26 of £75.106 million.

- Investment limits are also set out within the strategy, to ensure that counterparties are credit worthy and that investments are undertaken in line with internal funds requirements.
- 2.8. Outside the approved Capital Programme there are a number of further capital investment schemes which are being prepared but have not yet been approved to be included in the capital programme. Once these decisions are made (either to accept and progress, or to reject), the funding including the borrowing requirement will also be revised.
- 2.9. The Council's lending is restricted to highly credit rated Banks, Building Societies, Money Market Funds and Part Nationalised Institutions which meet Link Asset Services creditworthiness policy, as well as other Local Authorities and the UK Government (for example, lending to the Debt Management Office, 'DMO').
- 2.10. The Treasury Team will continue to look for opportunities to make savings by actively managing the cash and debt portfolio in accordance with the Treasury Strategy. Savings may be secured by increasing the interest earned through investment of cash balances, or by reducing the cost of external borrowing (for example, by paying back higher interest loans and replacing them with lower interest loans – 'rescheduling').

4. Risk Assessment and Opportunities Appraisal

- 4.1. The recommendations contained in this report are compatible with the provisions of the Human Rights Act 1998.
- 4.2. There are no direct environmental, equalities or climate change consequences arising from this report.
- 4.3. Compliance with the CIPFA Code of Practice on Treasury Management, the Council's Treasury Policy Statement and Treasury Management Practices and the Prudential Code for Capital Finance together with the rigorous internal controls will enable the Council to manage the risk associated with Treasury Management activities and the potential for financial loss.
- 4.4. The Council's Audit Committee is the committee responsible for ensuring effective consideration of the Council's Treasury Management Strategy and policies.

5. Financial Implications

- 5.1. The financial implications arising from the Treasury Strategy are detailed in this report. The Council makes assumptions about the levels of borrowing and investment income over the financial year to facilitate financial planning.
- 5.2. Reduced borrowing either as a result of capital receipt generation or due delays in delivery of the capital programme will have a positive impact of the council's cash position. Similarly, higher than benchmarked returns on available cash will also help the Council's financial position. For monitoring purposes, assumptions are made early in year about borrowing and returns based on the strategies agreed by Council in the preceding February. Performance outside of these assumptions results in increased or reduced income for the Council.
- 5.3. As at 31 December 2022 the Council held £114.8 million in investments and borrowing of £292 million at fixed interest rates.

6. Climate Change Appraisal

- 6.1. The Council's Financial Strategy includes proposals to deliver a reduced carbon footprint for the Council therefore the Treasury Team is working with the Council in order to achieve this. There are no climate change impacts arising from this report. Shropshire Council's investment portfolio has no level 1, 2 or 3 emissions. It comprises of straightforward cash deposits with financial institutions and other Local Authorities.
- 6.2. The Council is actively working with Link Group to secure approved investment counterparties who prioritise sustainable investments. Where opportunities arise and these counterparties meet necessary security, liquidity and yield requirements, the council will then also be able to invest in activities specifically focused on sustainability and referenced to United Nations Sustainable Development Goals and wider Economic and Social Responsibility ('ESR') objectives.
