All Overview and Scrutiny Committees will:

- Start from a position and a focus on the delivery of outcomes for Shropshire communities and the Council's priorities
- Set their own work programme based on their remit and a clear view of the value that they will add through their work
- Work together on topics that cut across more than one committee's remits
- Identify the approaches that they want to take to carry out their work e.g. task and finish groups, thematic committee meetings, whole committee investigations
- Consider how the Council is working with partners at all levels to deliver the priorities and strategic objectives
- Make evidence-based recommendations, triangulating the intelligence and insights gathered through their investigations
- Investigate topics before decisions have been made by the decision makers
- Review the impact and progress following the implementation of decisions
- Respond to Call-ins for topics that are within their remit
- Report on the impact and added value they have achieved each year to Council
