

CABINET 7 JUNE 2023

PUBLIC QUESTIONS AND RESPONSES

Question from:	Dr Alison Caffyn	
Subject:	Footbridge Farm Intensive Poultry Unit	
Portfolio Holder:	Leader/Deputy Leader on behalf of PH for Highways and Regulatory Services	

How will the Council, its Planning and Regulatory Services Departments and Ecologist take into account the recent ruling of the Planning Inspector into the Footbridge Farm intensive poultry unit (IPU) planning appeal at Tasley, Bridgnorth (APP/L3245/W/21/3289216, 5 May 2023)? In particular, how will they respond to the inspector's conclusion that the odour and air quality modelling by AS Modelling and Data, which has been and continues to be used to support many IPU applications across the county, cannot be relied upon?

In terms of the application, the Local Planning Authority sought advice from ADAS to seek their view on the modelling used to ensure it was fit for purpose. Their view was that it was. In addition, we had advice from our own Environmental Protection team who were also in agreement with the modelling. Both of these are technical experts in this field and this was given significant weight in the planning balance.

This application which was refused, was then subject to an appeal decision. The appellant is seeking a judicial review of the Inspectors decision so we will need to wait for the outcome of that process.

Question from:	Victoria Moore	
Subject:	Sutton Grange Shrewsbury Play Park	
Portfolio Holder:	Culture & Digital	

The area for the park has been marked out, but no work has started and the builders have now left the site, as all other work is now complete.

Is anyone due back to install the park ??

The Section 106 agreement attached to this permission states that all public open space is to be transferred to Shrewsbury Town Council with a maintenance sum. Shrewsbury Town Council will then be responsible for laying out the play area.

The transfer of the land and maintenance sum as outlined in the Section 106 has not yet taken place and therefore remains with the developer at this moment.
