Item No.	Application No.	Originator:
6	24/02537/VAR	MR
Following further discussion with the applicant and Highways, it should be noted that the existing permission permits the operator to remove 100,000 tonnes of mineral from the site by road. It is therefore recommended that the additional conditions on this revised scheme, as proposed are amended, as follows: - Delete Condition 3. Amend Condition 2 to read "Mineral export shall be capped at 100,000 tonnes p.a. until work to signalise the Much Wenlock Road junction has been completed and the signals are fully operational."
