

# **PUBLIC SPACES PROTECTION ORDER: SHREWSBURY TOWN CENTRE**

## **EVALUATION REPORT: 01.04.2023 – 31.03.2026.**

### **Overview**

A Public Spaces Protection Order (PSPO) has been enforced in Shrewsbury Town Centre since 1st August 2017. Shropshire Council are currently seeking views and comments on extending the Order for a further 3 years from August 2026.

This report presents an analysis of anti-social behaviour data collected in Shrewsbury Town Centre between 1 April 2023 and 31 March 2026. Data was gathered by Shrewsbury Town Council, through the multiagency operational group 'Team Shrewsbury'. The analysis focuses on behaviours and conditions specified within the PSPO.

In addition to 'Team Shrewsbury' data this report presents enforcement figures relating to the Shrewsbury Town Centre PSPO over the past three financial years, provided by Shropshire Council. West Mercia Police have offered additional insights by providing statistics acquired through searches of logs and reports using a range of search tools, as well as data concerning anti-social behaviour within Shrewsbury Town Centre for the period 2024 to 2026.

Data analysis is in line with the geographical boundary covered by the Public Spaces Protection Order.

### **Reporting categories**

After evaluating the datasets compiled by Shropshire Council and its partner agencies regarding crime and anti-social behaviour, the following reporting categories were developed to facilitate monitoring of the order's impact. The categories were introduced as of 1st October 2016 and are aligned with the behaviours the PSPO aims to prohibit. Other categories relevant to wider ASB issues have continued to be recorded by a number of agencies; however, the categories detailed below have been developed to reflect the most problematic issues encountered within the town centre.

<b>Alcohol Litter</b>	<b>Dog fouling</b>	<b>Excrement/Urinating</b>
<b>Alcohol Related Incidents</b>	<b>Dog control</b>	<b>Fly tipping/Littering</b>
<b>Aggressive Begging</b>	<b>Damage/arson</b>	<b>Left belongings</b> <small>(incident type not in use from July 2024 onwards)</small>
<b>Begging</b>	<b>Drug Litter</b>	<b>Graffiti</b>
<b>Nuisance Busking</b>	<b>Drug Misuse</b>	<b>Suspicious behaviour</b>
<b>Congregation</b>	<b>Drug Dealing</b>	

## **Data constraints- Limitations of the report**

Prior to 2023, West Mercia Police recorded all Public Spaces Protection Order (PSPO) Penalty Charge Receipts (PCRs) issued, including the specific enforcement reasons. After the 2023 PSPO renewal, Town Rangers and Quarry Security staff gained enforcement powers. This led to a shift: West Mercia Police reduced their data recording to only the number of PCRs, no longer documenting things such as enforcement grounds. The change aimed to avoid duplicating records, since Shropshire Council maintains a centralised register for all PCRs issued by authorised officers.

Since October 2021, Shropshire Council no longer routinely logs ASB incidents, except for statutory noise nuisance complaints managed by Environmental Health officers. The only consistently tracked PSPO-related ASB data concerns noise from busking, restricting the ability to analyse broader ASB trends connected to PSPO enforcement.

From July 2024 'Team Shrewsbury' did not use the incident type 'Left Belongings (removed)'. Therefore, comparisons over different periods should be made cautiously. The report uses multiple sources for balance, but some omissions remain due to inherent data limitations.

**Keyword searches conducted on incident reports recorded by West Mercia Police for the period 1st April 2023 – 31st March 2026 split up by incidents and crime.**

Key word	2023/24 incidents	2024/25 incidents	2025/26 incidents
Alcohol/drinking/drunk	5	3	2
Drugs Cannabis	1	2	1
Dog	1	2	0
Damage	1	1	1

Key word	2023/24 Crime data	2024/25 Crime data	2025/26 Crime data
Alcohol/drinking/drunk	63	38	32
Busking	1	0	1
Drugs Cannabis	41	31	37
Dog	9	7	1
Damage	80	55	51
Litter/rubbish/vomit	13	6	2
Graffiti	4	0	3
Urinating/Defecating	6	8	3

Below are the categories that did not have either any incident or crime data as specified.

- Begging- no incidents or crime
- Busking- no incidents
- Graffiti- no incidents
- Urinate and defecate- no incidents

The keywords are taken from the initial detail of the report made rather than the entire incident log, which may result in under-reporting however they do indicate potential data that could be considered in order to monitor the proposed additional categories. However, further incident detail would be required to establish whether reports refer to anti-social behaviour and specifically relate to the conditions detailed within the PSPO.

### Enforcement data for the Shrewsbury Town Centre PSPO

Enforcement type	April 2023- March 2024	April 2024 – March 2025	April 2025 – March 2025
Written Warnings	2	4	3
FPNs	3 (1 paid, 2 unpaid)	2 (both paid)	2 (both unpaid)
Prosecutions Pursued (for unpaid FPNs).	2	N/A	2

## Key findings

The graph below identifies the top 5 incident types generating the highest number of reports during the review period.

### Headlines:

- Total recorded incidents fell by 61.8% over a three-year period. This indicates a strong positive impact the PSPO and multi-agency approach
- Major reductions across incidents such as aggressive begging, drug misuse and damage/arson
- Alcohol related incidents decreased by 45.9% but still represent one of the highest volume categories
- Enforcement activity remains relatively low, with small numbers of FPNs, warnings and prosecutions suggesting that the PSPO may be acting as a deterrent rather than relying heavily on formal enforcement

There are no proposed additions to the current PSPO to tackle ongoing issues linked to Anti-social behaviour in Shrewsbury Town Centre.

## Conclusion

All incident types have continued to generate reports during the last 3 years. However, dog fouling, aggressive begging and dog control incidents have recorded significantly lower levels in comparison n to the remaining categories.

This report highlights that the PSPO has contributed to a significant and sustained reduction in anti-social behaviour in Shrewsbury Town centre with major decreases in high harm behaviours.
