

DOMICILIARY CARE ACCREDITATION OPPORTUNITY

Shropshire Council operates an accredited list of domiciliary care providers and this is currently being opened for a limited period of time, with immediate effect, for new providers to apply. This opportunity will only be for restricted areas of the county.

Providers who apply will be required to demonstrate that they are able to deliver services in the areas of Shropshire listed below in order to receive accreditation. To demonstrate this providers must have an existing base and/or carers living in, or in the vicinity of, the listed areas. Please note that the Council will not approve applications from providers who are not currently well positioned to deliver services in these areas.

1. Alveley
2. Highley
3. Craven Arms
4. Bishops Castle

Requests for an application must be by email and sent to contracts@shropshire.gov.uk. Applications must be received by 20.09.19.

Application packs will be despatched by email and interested providers must submit a specific contact email address with their request. A covering letter will be sent with the application pack detailing the Council's requirements.
