Market Town Profile

Wem

Wem is a small market town north of the county town of Shrewsbury. The name of this town is derived from the Saxon 'Wamm' meaning a marsh, as marshy lands exist in the area of the town around the River Roden. Over time the name was corrupted to form 'Wem'.

The area is believed to have first been settled by the Celtic Iron Age settlers who left evidence of two settlements. The town is recorded in the Domesday Book of 1086 as consisting of four manors. In 1202 Wem was granted the status of a market town and weekly markets are still retained today.

In 1650, Sir Thomas Adams born in Wem in 1586, a local landowner and tanner and ex Lord Mayor of London, founded a free school in the town, Adams Grammar School, which still exists today as Adams School.

The Great Fire of Wem occurred in 1677, when a candle started a fire that destroyed most of the wooden buildings in the town.

Within the town the sweet pea was first commercially cultivated by Henry Eckford in 1887. Each year the Wem Sweet Pea Festival attracts visitors from around the world.

Ethnicity and Religion

Wem is home to a number of churches and chapels which reflect the majority of the population who have a Christian faith.

St. Peter and St. Paul Parish Church, High St, Wem SY4 5DP - <http://www.wemcofe.co.uk/index.html>

It is likely that a church has been present on this site since Saxon times. The original foundations of coarsely worked stone from Myddle probably supported a wooden chapel. The church has been rebuilt at least 3 times. The 14th Century tower probably the only surviving structure from the great fire of Wem. The church was rebuilt in 1809 and the present chancel was added in 1886. Today the church holds regular services and is home to Wem bell ringers who meet on a Friday.

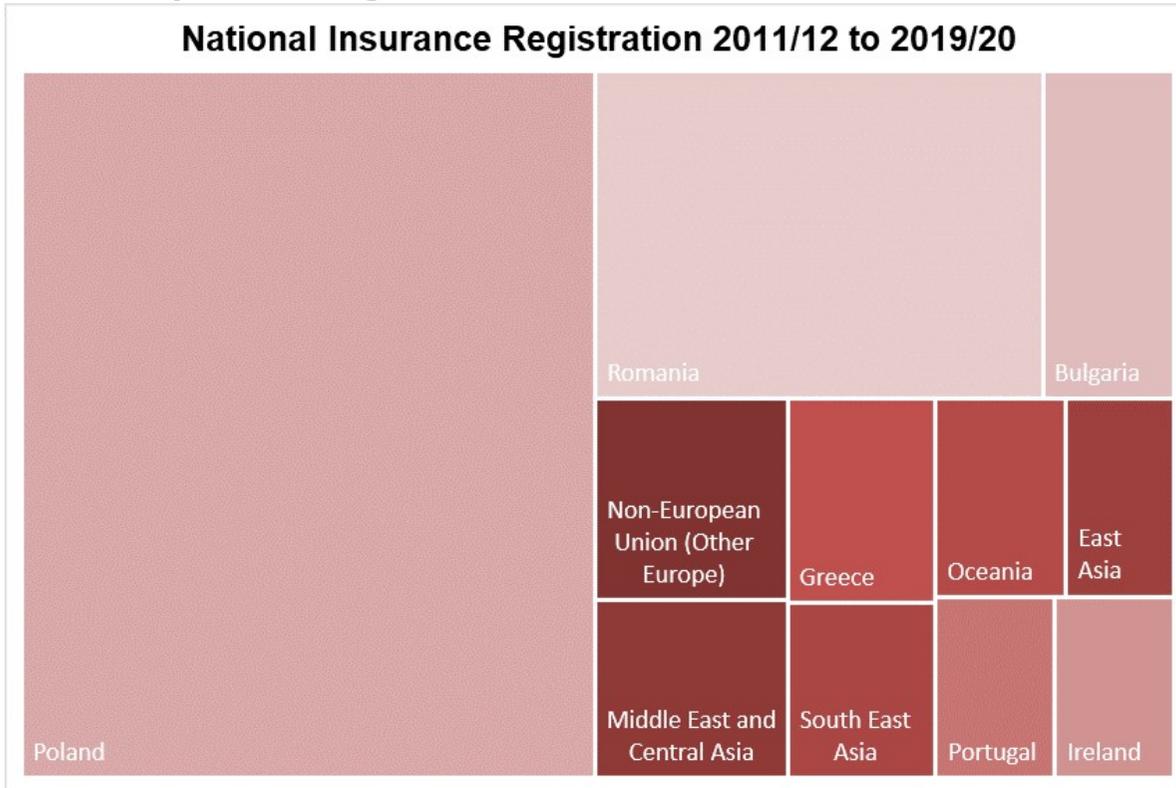

Wem Baptist Church, Chapel St, Wem, Shrewsbury SY4 5ER - <http://www.wembaptistchurch.co.uk/>

Regular services and bible study sessions.

Wem Methodist Church, Aston St, Wem, Shrewsbury SY4 5AU - <https://www.shropshireandmarches.org.uk/find-a-chapel/northern-area/wem/> The first Primitive Methodist chapel in Wem was opened in High Street in 1823. When the building became too small a second chapel was erected in Chapel Street in 1842. That building was used until 1926 when the present church in Aston Street was opened. See the church website for times of regular Sunday services.

Our Lady of Perpetual Succour, Drawwell Lane, Wem, Shropshire SY4 5ET—Catholic Church of Wem was opened in 1991 and also serves as a community hall.

Ethnicity and Religion

There is one middle layers that covers Wem town centre which matches the 4 lower level layers that cover the town.

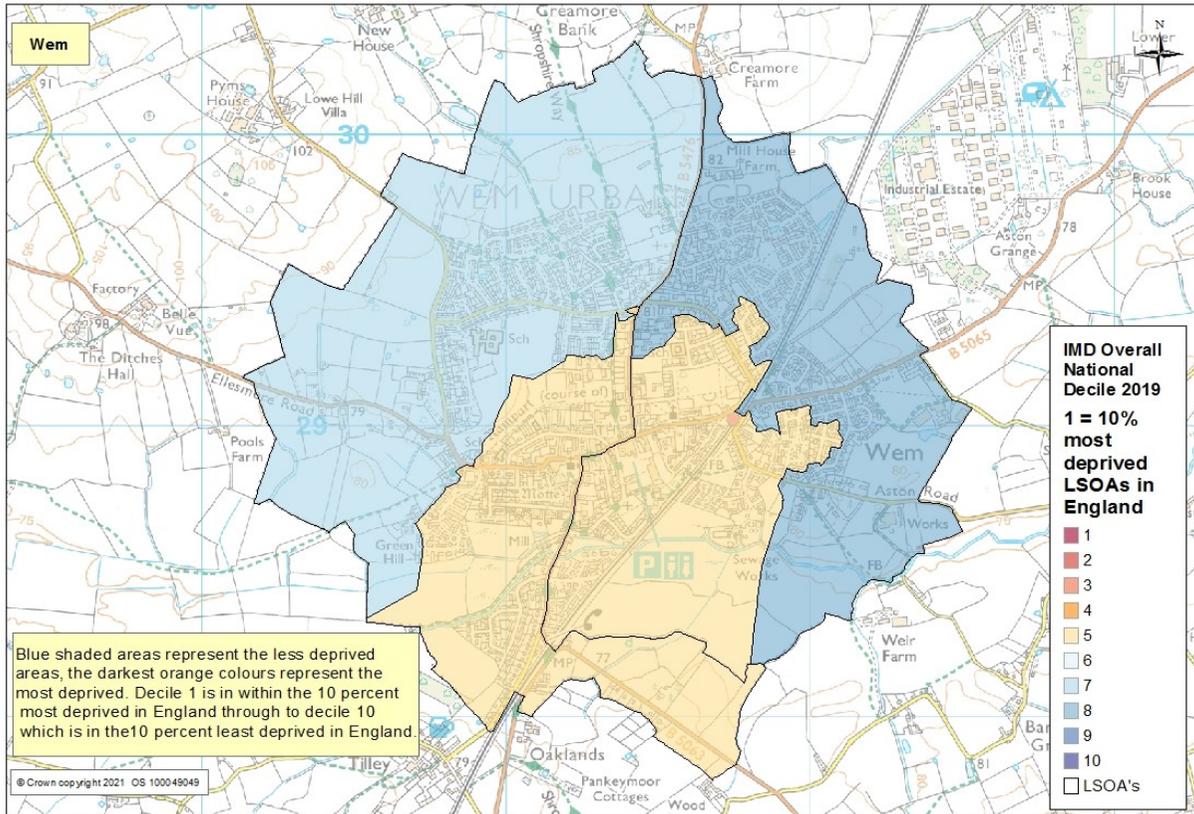

Where registrations are less than 5, from any nation, the numbers are withheld to prevent identification of individuals. The total number of overseas NI registrations from 2011/12 to 2019/20 in Wem was 189.

The majority of overseas registrations were from Polish nationals who totalled 94 adults.

The latest ethnicity data is taken from the 2011 census. The next census is due in 2021 with the results likely to be published from 2023. To help provide an indication of changes to ethnicity data the number of National Insurance registrations to adult overseas nationals entering the UK are shown. These numbers should only be used as an indication of population changes. A registration does not mean that a national has made permanent residence or has remained in the area.

The numbers shown are based on Middle Layer Super Output Areas. These areas are larger than the lower layers described in the population map.

Multiple Deprivation

Source: Index of Multiple Deprivation (IMD), Department of Communities and Local Government, crown copyright 2019

The Index of Multiple Deprivation (IMD 2019) is designed to identify areas where communities lack resources and are in need. To do this, seven factors are considered, which are:

- Income deprivation
- Employment deprivation
- Health deprivation and disability
- Education deprivation
- Barriers to housing and services
- Crime
- Living environment deprivation

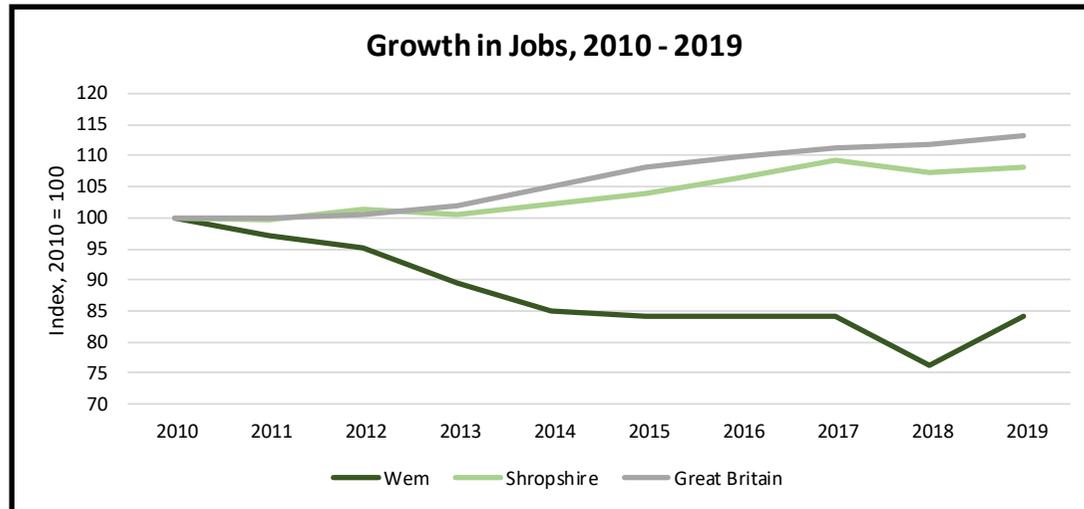

Wem has relatively low levels of overall deprivation. Two areas fall into the 5th most deprived decile nationally and two areas fall into the 7th and 8th most deprived deciles nationally.

For more information on IMD see:

Economy

Wem is the ninth largest employment centre in Shropshire (equal with Church Stretton) and is one of main location of businesses and jobs in the north of the County, albeit notably smaller than Oswestry, Market Drayton and Whitchurch. 158 businesses have registered offices in Wem (Source: FAME (Bureau van Dijk), February 2021) which is less than 1% of the Shropshire total and approximately 1,400 people are employed in the town (1.1% of the Shropshire total).

Over the last nine years, the number of jobs in Wem has fallen by 16.0%, or by 300 jobs. This is the equivalent of a decrease of 30-35 jobs per annum on average. In comparison, the number of jobs in Shropshire rose by 8.3% over the same period, while nationally the number of jobs rose by 13.2%. Whilst the number of jobs in Wem saw an upturn in 2019, over the 2010-2019 period, Wem performed worse than any other market town except Bishop’s Castle in terms of job growth .

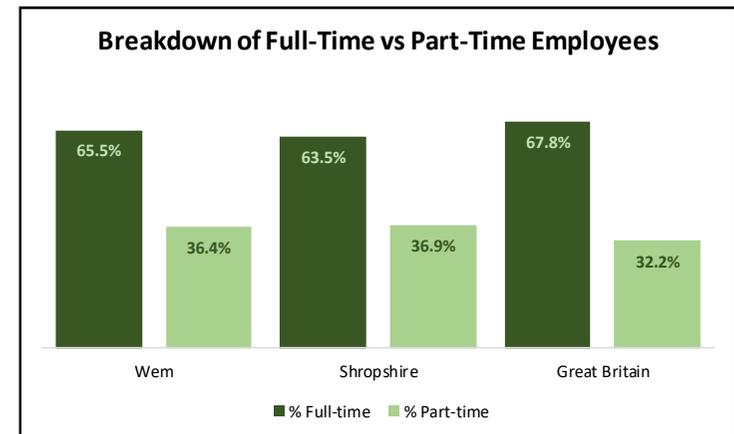

In Wem, there are approximately 125 business proprietors/sole traders, taking overall employment to 1,500.

Breakdown Part/Full Time

Part-time employment is more common in Shropshire than it is regionally or nationally. The proportion of Wem jobs accounted for by part-time is comparable with the Shropshire average at 36% in 2019 but is higher than the national proportion, which stands at 32%.

Note: Numbers may not add up due to rounding

Public/Private Sector

Across Shropshire, the number of public sector jobs has fallen by 4,700 since 2010 (-18.2%) while the number of private sector jobs has risen by 17,800 (+20.9%). The share of all the jobs attributable to the public sector has declined from 23.3% in 2010 to 17.1% by 2019. Employment in the public sector has been largely stable since 2015, with the rapid decline in public service based employment occurring during the first half of the 2010's.

In Wem, public sector jobs account for almost 20% of all employment, slightly higher than the Shropshire average. Public sector employment has declined in the town since 2015 (-17.6%) while the number of private sector jobs has risen by +7.1%.

Employment Sectors

The four largest employment sectors in Wem are health, education, retail and accommodation & food services. Together these account for 51.8% of employment within the town. Employment in health accounts for 14.2%, retail for 10.6%, education for 17.7% and accommodation & food services for 9.2%. Retail is typically over-represented in towns, but although it is one of the main sectors in Wem, it accounts for a similar share of employment to the Shropshire average (9.5%). Other sectors accounting for more than 5% of jobs include mining & quarrying, construction, property and professional, scientific & technical.

Employment Sectors

The adjacent table shows the breakdown of employment sectors in Wem alongside the comparable breakdowns for Shropshire, the West Midlands and for Great Britain.

It shows that agriculture, manufacturing, motor trades, wholesale, transport & storage, information & communication, finance & insurance, business administration & support, public administration and defence and arts, entertainment & recreation employ relatively few people in Wem (21.6% of the total), with none of these sectors accounting for as much as 5% of total employment.

The chart on the following page shows the relative importance of each sector in Wem according to its location quotient. This measures each sector in relation to the Shropshire average, with any score over 1 reflecting a sector that is more important than the Shropshire average, and any score under 1 reflecting a sector that has less importance.

Location quotient analysis shows that the Wem economy is particularly strong in mining & quarrying and property, with education, construction and motor trades also over-represented. Amongst sectors that are under-represented in Wem are information & communication, finance & insurance, manufacturing and transport & storage.

Note: Information based on company accounts returned to Companies House. May include businesses that are registered in the town but which do not necessarily trade there. Excludes branch businesses which have their HQ elsewhere in the UK.

More than four-fifths of businesses in Wem employ less than 5 people. An additional 10% employ between 5 and 9. Just 5% have a workforce of 10 or more.

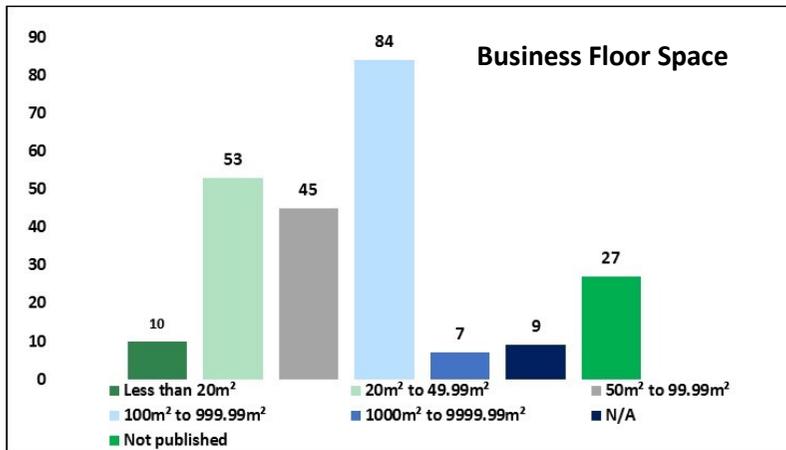

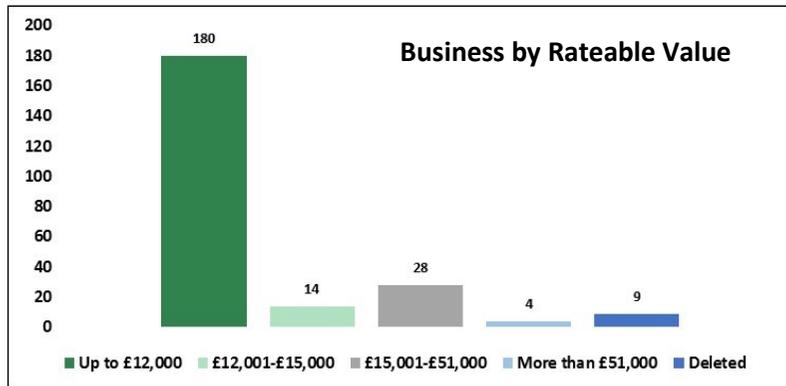

Note: 0-4 employee category includes all companies where employment levels are unknown.

Business Rates

235 establishments have a rateable value in Wem and the combined rateable value of these organisations is £2.4 million. This is the equivalent of 1% of the total rateable value of all businesses in Shropshire.

180 businesses have a rateable value of less than £12,000, which means that they are eligible for 100% small business rate relief. Just 4 (1.7%) have a rateable value of more than £51,000.

108 businesses have a floor space of less than 100m², while just seven have floor space of more than 1,000m². The two largest organisations cover more than 1,500m².

Count of Classification	Wem
Commercial	158
Education Training and Culture	8
Industrial	45
Leisure	9
Miscellaneous	12
Utilities	3
Total	235

The majority of organisations on the Wem business rates list are classed as commercial—primarily retail outlets and offices. These account for 67.2% of the total. Industrial is the second largest classification, accounting for 19.1% of the total.

Economic Activity

The status of Wem residents aged 16-64 at the time of the 2011 Census showed 78.7% of residents were economically active, which includes people who are both employed and actively seeking employment. This is lower than the Shropshire figure of 80.1%. Economic activity in Wem is, however, higher than the national and regional averages (77% and 75.8% respectively).

Source: 2011 Census

Of those who were economically active, 74.0% were in employment while 4.8% were unemployed. This compares with 75.8% and 4.3% for Shropshire as a whole and with 71.2% and 5.8% for England. At the time of the Census, therefore, unemployment was a slightly greater issue in Wem in relation to Shropshire but less significant than in England.

Of the 2,560 Wem residents in employment, the majority are employees (86.2%) while the remainder are self-employed. 70.6% of employees work full-time compared with 75.9% of the self-employed.

Employment Breakdown	Wem
In Employment Total	2,560
Of which Employee: Total	2,208
Of which Employee: Part-time	649
Of which Employee: Full-time	1,559
Of which: Self-employed: Total	352
Of which Self-employed: Part-time	85
Of which Self-employed: Full-time	267

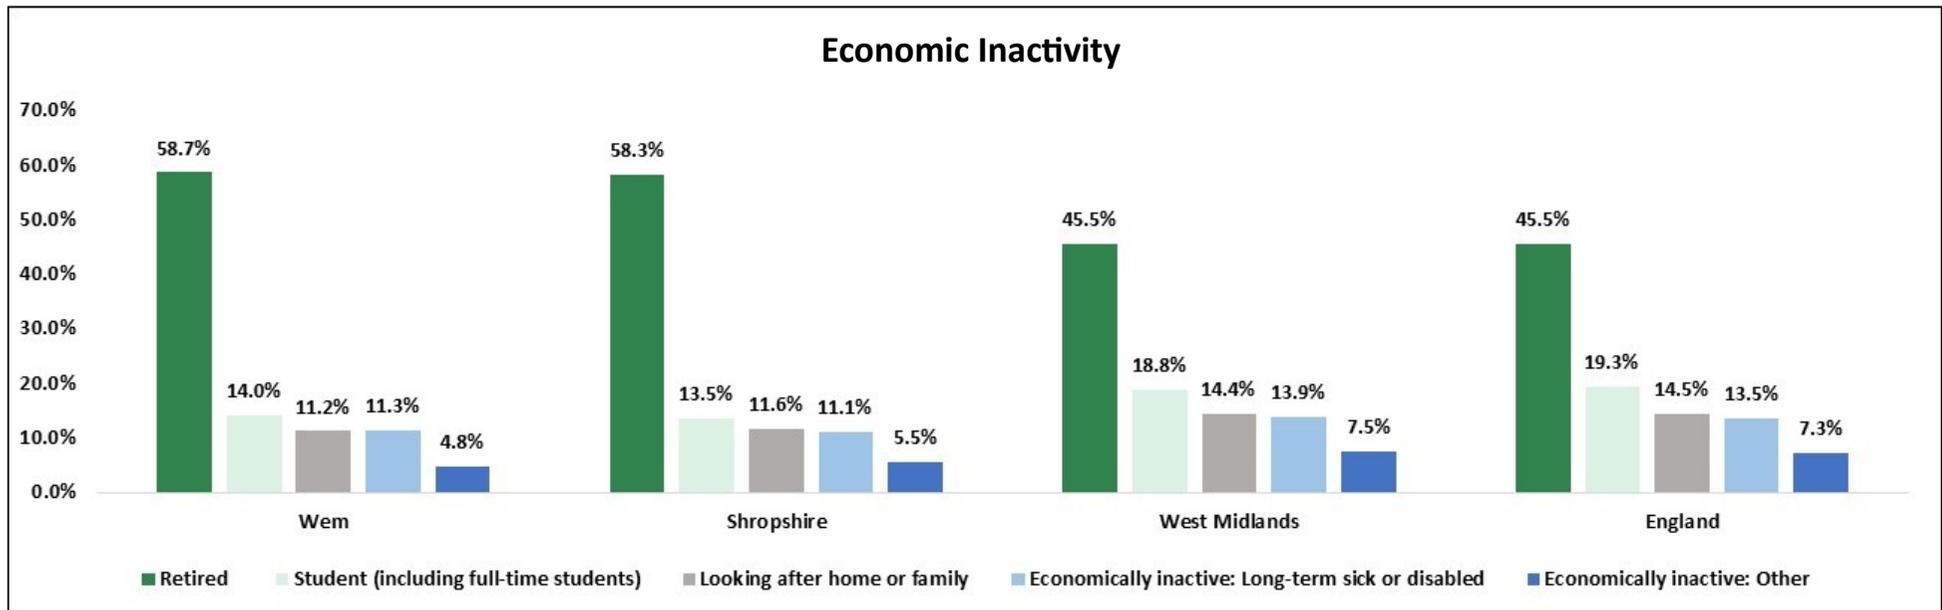

Self-employment is notably higher in Shropshire than it is nationally, accounting for 13.5% of 16-64 year old residents (10.5% in England). Typically, levels of self-employment are lower in the County's market towns, especially the main employment centres. This is the case in Wem, where the self-employment rate at the time of the Census stood at 10.2%. The rate is higher than this in all other market towns in Shropshire except Shrewsbury, Oswestry and Market Drayton.

Economic Inactivity

736 Wem residents aged 16-64 were economically inactive in 2011, which represents over a fifth of the age cohort. These people – representing those who are neither working nor seeking employment – include those who are retired, full time students, those looking after family or the long term sick. The proportion of the Wem population which does not participate in the labour market is higher than the average for Shropshire.

The following chart shows the breakdown of the economically inactive population in Wem, Shropshire, the West Midlands and England according to the reason why they do not participate in the labour market. These figures relate to the 16-74 population rather than to 16 to 64 year olds.

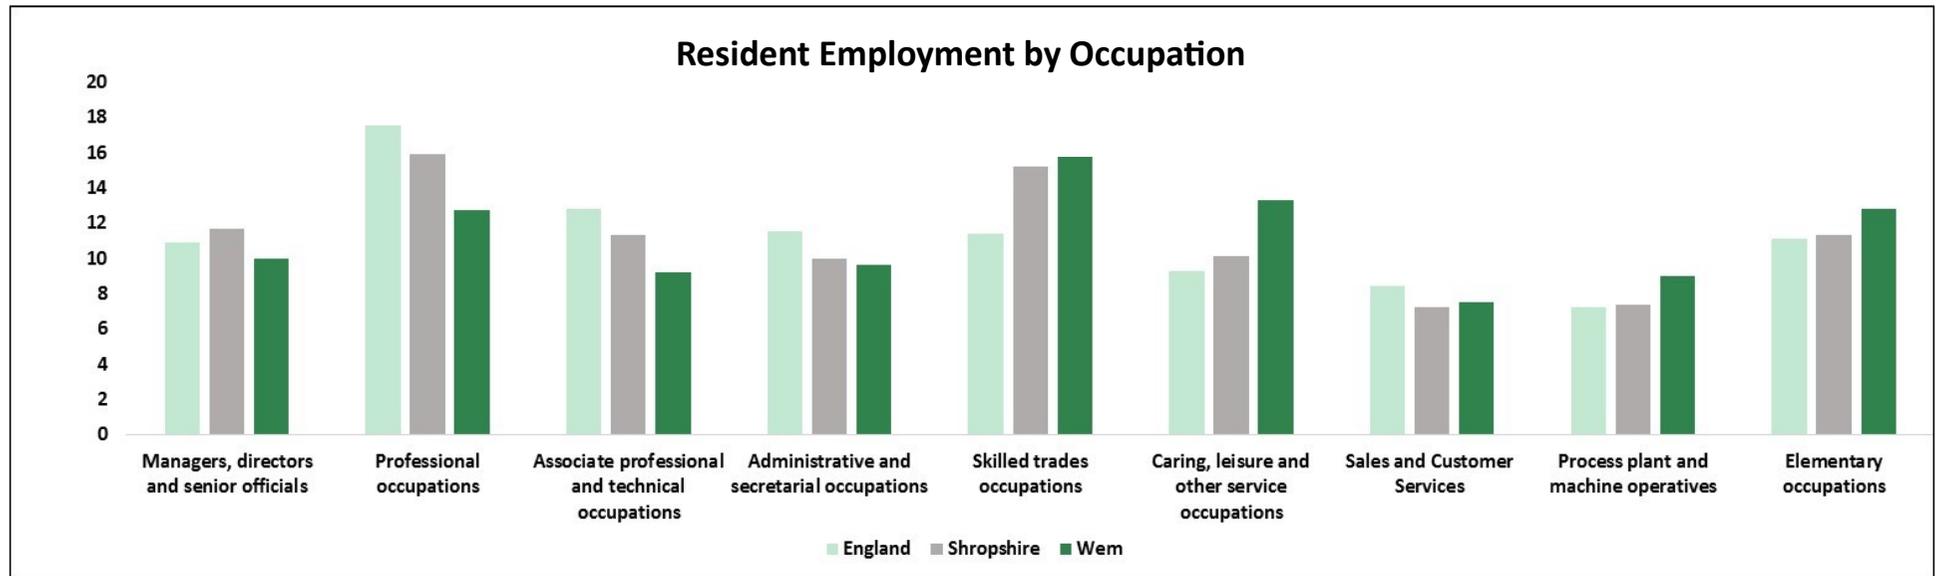

It is apparent that a slightly higher proportion of economically inactive Wem residents are inactive because they are retired than is the case across Shropshire which itself supports significantly more retired people compared with the West Midlands and England.

Employment by Occupation

Wem supports relatively low numbers working in the Standard Occupational Classifications (SOC) 1 to 3 for the professions, with 31.9% of residents in work employed as managers, directors and senior officials, in professional occupations or in associate professional and technical occupations compared with 38.9% in Shropshire. 10.0% work as managers, 12.7% in professional occupations and 9.2% in associate professional occupations. A higher proportion are employed in lower level occupations, including elementary occupations (12.8% compared with 11.3% for Shropshire) and process, plant and machine operatives (9.0% compared with 7.4% for Shropshire). More people are also employed in caring, leisure and other service occupations (13.3% compared with 10.1% Countywide). More people are also employed in caring, leisure and other service occupations (13.3% compared with 10.1% Countywide).

Qualifications

According to the Census 2011, 22.7% of residents had a level 4 qualification or above, notably lower than the Shropshire average of 29.4%. In total 16.2% of people had no qualification. This is higher than the Shropshire average (14.0%). The qualification profile of Wem residents reflects the type of employment that is prevalent amongst the working population, with fewer working in managerial or professional occupations and more in elementary occupations.

Unemployment

The claimant count is the main measure of people who are under pensionable age who are available for and actively seeking work and who are claiming out-of-work benefits (mostly Universal Credit but also Jobseekers Allowance). The chart below shows the number claiming this benefit in Wem between December 2013 and December 2020.

Source: Department of Work and Pensions/ONS

Universal Credit

The following table shows the number of people claiming Universal Credit in Wem in January 2021. It includes those who are out-of-work (and hence on the claimant count shown above), and also those who are on low incomes and entitled to in work benefits. The table also shows the number of households on universal credit in the town.

	Number
People on Universal Credit (Jan 21)	486
Households on Universal Credit (Nov 20)	394

In December 2020, 195 Wem residents were on the claimant count, which is more than four times higher than the 40 who were on the count in December 2015. The claimant rate in Wem (the percentage of the 16-64 population which is claiming) is higher than the average for Shropshire (5.4% compared with 4.4%). This rate is lower than in Great Britain (6.2%) and the West Midlands (7.2%). Claimant numbers everywhere were elevated throughout 2020 due to the coronavirus pandemic.

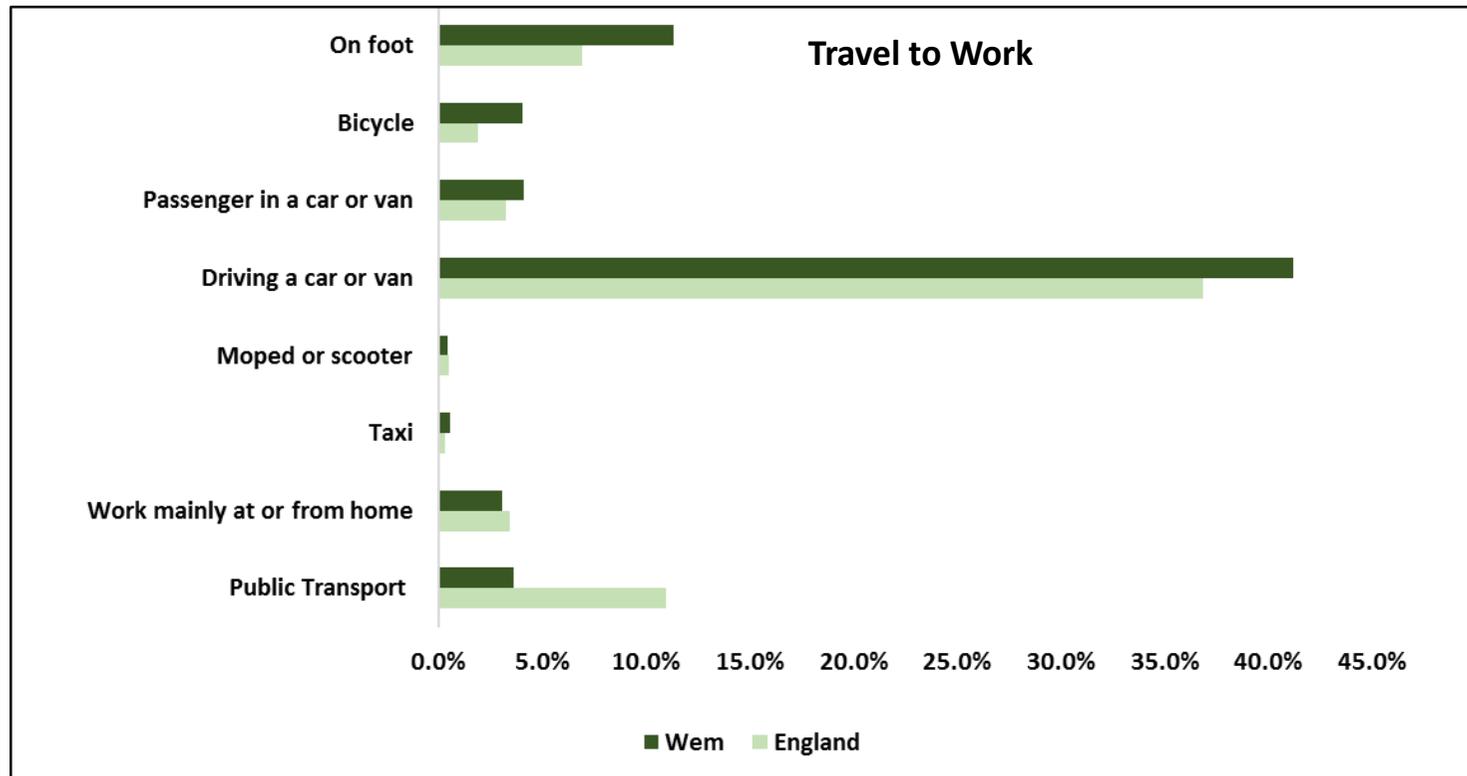

State Pension

In Shropshire there were 75,688, people claiming state pension in August 2020. This is slightly lower than 76,250 in February 2017, which is attributed to changes in retirement age.

Claimants in Wem total 1,585 or 2.1% of the state pension claimants in the county.

Travel and Commuting

The most commonly used method of transport to work for Wem residents was to travel by car or van. 41% of workers drove to work, while an additional 4% were a passenger in a car or van. A comparable proportion of Wem residents work primarily from home than is the case nationally at 3% which is much lower than the Shropshire average of 6%. A relatively high number walk to work (11% compared with 9% for Shropshire and 7% for England). There were considerably fewer people travelling by public transport than is the case nationally. This is a pattern familiar to many rural areas.

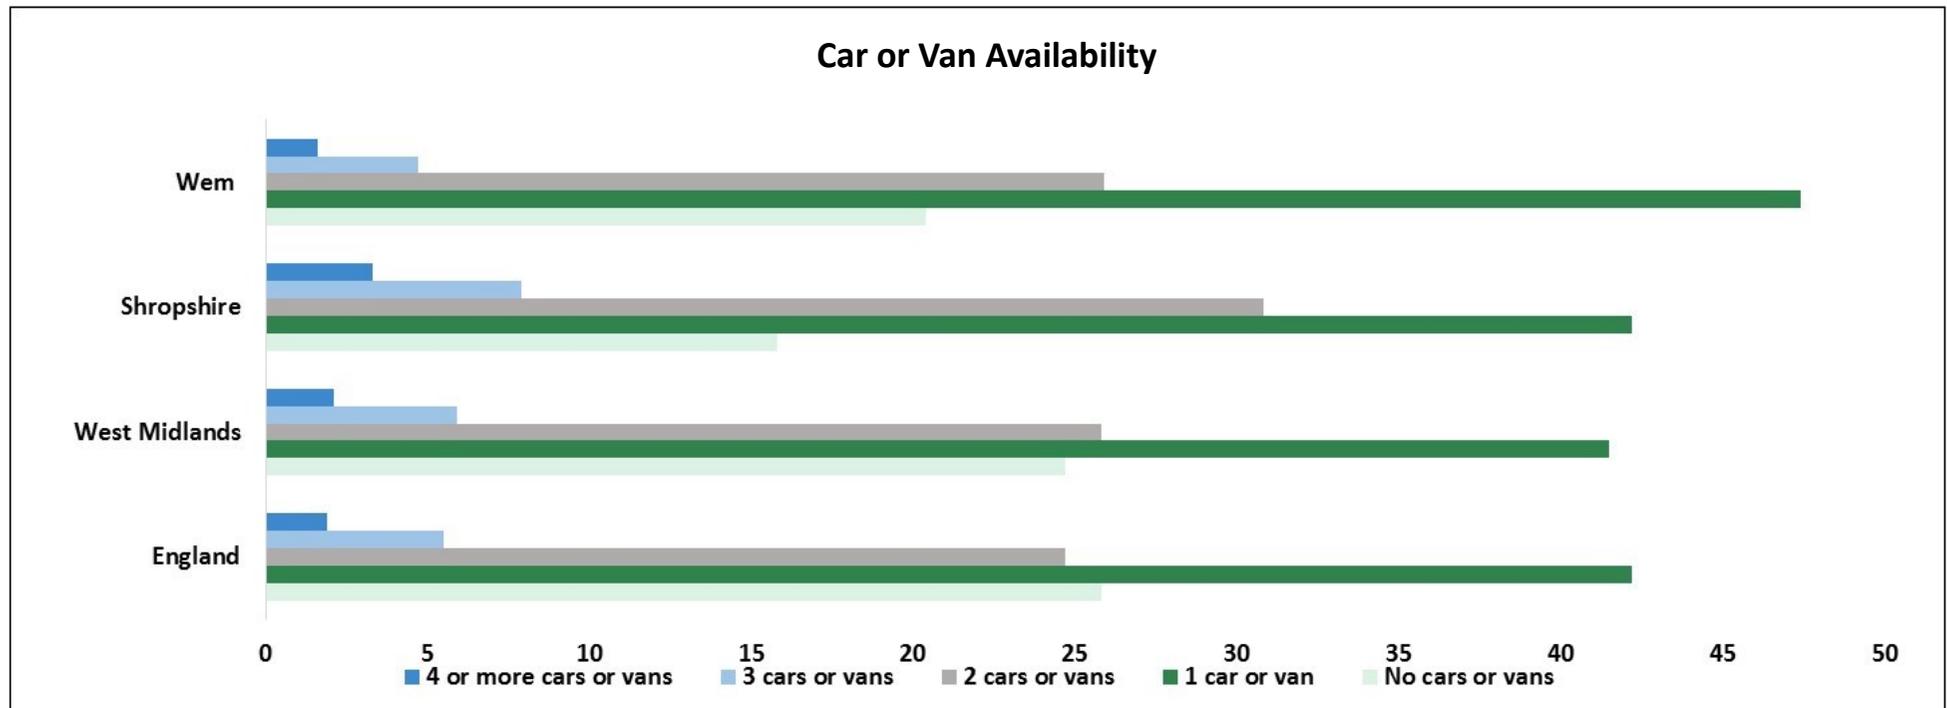

Source: 2011 Census

Car or Van Availability

Car ownership is high in Shropshire, which is typical of a rural area. Just 15.8% of households in the County do not have a car or van compared with 25.8% of households nationally according to the 2011 Census. The proportion of households without a car in Wem stands at 20.4%.

47.4% of households have one car, 25.9% have two cars while 4.7% have three or more. The total number of cars and vans owned by Wem households stood at 3,155 in 2011.

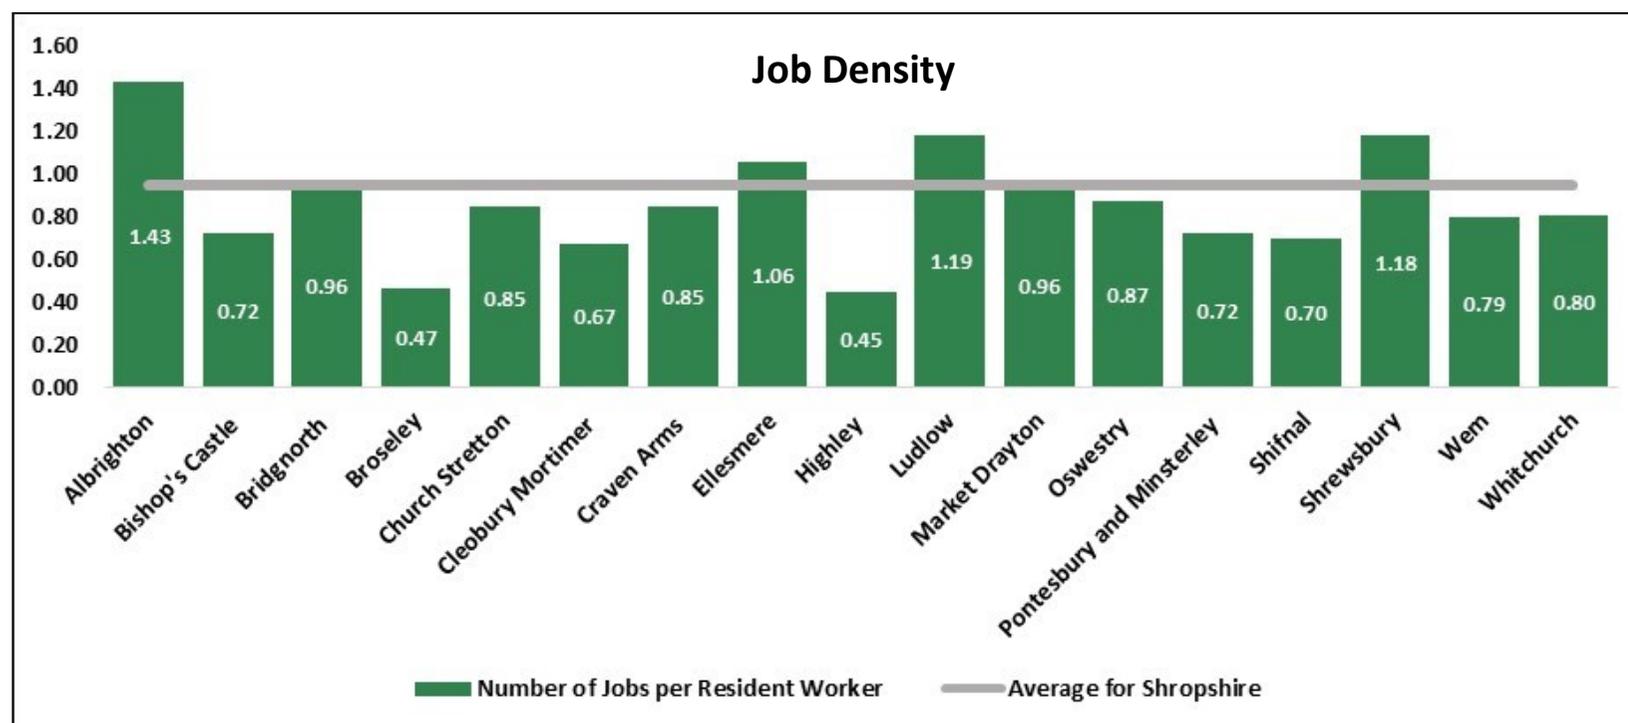

Source: 2011 Census

Commuting Patterns

Wem (place plan area) supports a lower level of employment self-containment than the largest market towns in Shropshire. Relatively close proximity to Shrewsbury means that the town’s residents have reasonably easy access to the county’s main employment centre. 39.3% of all Wem jobs are filled by Wem residents while 31.2% of working people who live in Wem also work there, which gives an overall level of self-containment of 34.8%. The differential between the number of resident workers and the number of jobs is relatively substantial, with net out-commuting across the Wem place plan border standing at 1,553. This equates with 5,192 people living in Wem but working elsewhere and 3,639 people working in Wem but living elsewhere.

Job density in Wem is just below the county average with 0.79 jobs per resident worker compared with 0.95 in Shropshire. As illustrated in the chart below, the only towns where the number of jobs exceeds the resident workforce are Albrighton, Ellesmere, Ludlow and Shrewsbury.

Origins and Destination of Workforce

Other than Wem, the rest of Shropshire is the main source of workers for Wem jobs. Small numbers commute in from Cheshire East, Cheshire West and Chester, Telford and Wrekin, Wrexham and Powys. Likewise, a significant proportion of Wem resident workers who are not employed in Wem work elsewhere in Shropshire.
