General Conditions (Please read carefully)

Carriageway disabled persons' parking place markings are advisory markings to assist with the provision of parking facilities for Blue Badge holders who do not have suitable off-street parking facilities. The following general conditions apply:

- 1. Eligibility to submit an application:** Applicants must be the holder of a current and valid Blue Badge. They must also have regular use of and drive a car, or another member of the household who lives permanently at the address owns and drives a car on their behalf. Eligibility does not mean entitlement, and it may be found after survey that a bay cannot be marked due to existing parking restrictions, road safety, or traffic management issues.
- 2. Existing parking restrictions:** Disabled persons' parking place markings are not permitted where waiting restrictions exist either at the proposed location or in close proximity. If you are in doubt as to whether this condition may affect your application, please contact us for further clarification prior to its submission.
- 3. Off-street parking:** Applications will not normally be considered if there are existing off-street parking facilities or space for such facilities at the address.
- 4. Enforcement:** Applicants accept that disabled persons' parking place markings are provided as advisory-only markings which can be used by any other Blue Badge holders, and that neither the Police nor Shropshire Council can take action against those parking vehicles on the markings, whether a Blue Badge holder or not.
- 5. Extent of marking:** Disabled persons' parking place markings are placed along the length of the carriageway, and typically extend to a length of 5 metres, by 1.8 metres wide.
- 6. Shared frontage:** If the requested bay overlaps the frontage of your neighbour(s) you must submit their letter(s) of written consent along with the application.
- 7. Payment of application fee:** A payment of £75.00 must be enclosed with your application form in order for it to be processed. This fee is to cover the cost of processing and investigating your request and is non-refundable. Payment of this application fee does not guarantee that your application will be approved.
- 8. Photographs:** Photographs submitted with your application may expedite the application process. Photographs facing the frontage of your property, together with photographs from either side of your property, showing the proposed location of the parking place on the highway would be most appropriate.
- 9. Cost of provision of marking:** The cost of providing a disabled persons' marking is currently £275.00 including VAT. This is inclusive of the £75 application fee described above. Subject to approval of your application, and on payment of the £200 fee balance, we will arrange for our term contractors to undertake the work.
- 10. Timescales:** Disabled persons' parking place markings are normally provided within 6 to 8 weeks of a successful application being submitted, subject to seasonal influences such as adverse weather conditions, or re-surfacing programmes.

11. Removal of disabled persons' parking place markings: The Council retains the right to remove the markings, and is under no obligation to maintain or replace the markings should they fade, deteriorate, or due to any works in the highway or traffic schemes.

Shropshire Council reserves the right to alter, amend, or revoke these conditions at any time.
