

Strengthening Families Through Early Help Network Meetings Autumn Term 2023

Early Help Network Meetings are held every term in each network area. These meetings are free of charge to attend and are an opportunity for professionals from all agencies working with children, young people or their families to share information about services available or issues affecting families within the relevant network area.

For sessions delivered via Microsoft Teams, ideally professionals should have Microsoft Teams enabled on their laptops. Dial in to the meetings will be possible but will not provide such a great experience as connecting in through Microsoft Teams. Some sessions will be delivered face to face.
