

Joint Strategic Needs Assessment (JSNA): Place-based approach

**Stakeholder Event –
Shrewsbury South and
Shrewsbury West & Central**

Overview

- What is a JSNA
- Why and what is a needs assessment?
- Initial work to date
- Next Steps

What is a Joint Strategic Needs Assessment?

Local Authorities and CCGs (now ICS) have a legal Statutory Duty to undertake a Joint Strategic Needs Assessment (JSNA), through the health and wellbeing board.

The JSNA seeks to identify **current** and **future health and wellbeing** needs in the local population and identify strategic **priorities** to inform commissioning of services based on those needs.

These priorities in turn inform the **Health and Wellbeing Strategy** and **Integrated Care Strategy**, key documents as a basis for commissioning health and social care services in the local area. We also believe they should support local **partners/communities' priorities**.

In Shropshire, our JSNA takes three types:

- Web based profiling Tool
- Thematic Needs Assessments - e.g., pharmacy, drug and alcohol and children
- **Place Based Needs Assessments**

Shropshire Health and Wellbeing Strategy 2022 – 2027

Vision:

For Shropshire people to be the healthiest and most fulfilled in England

- Reducing inequalities
- Improving Population Health
- Working with and building strong and vibrant communities
- Joined up working
