Q4. Please detail your comments on the specified document(s). Please be as precise as possible.

We have made a life for ourselves, enjoying the countryside with walks across fields and enjoying the views and peace and quiet of the countryside. We have never regretted living in Albrighton and always really appreciated its environs.

Paragraph 8.7-8.8 House + Employ ment
Albrighton is a village and a small community. There is expansion of the village with ALB017 and ALB021 and this is enough for this area. The existing Local plan seems sensible and well thought out. The newly built houses are close to the A41 to the M54 or towards Wolverhampton. The developments being built now are close to both school and doctors. I agree with the Local Plan which is a sensible approach to the regulated expansion of the village. I am worried that any other expansion of the village would be overdevelopment and unsustainable. The existing local plan of house building should be adhered to at a steady rate of building.

The building of hundreds more homes will mean that the "village" status will be lost, becoming a town and community spirit go as well.

Albrighton is surrounded by beautiful countryside and if it is built on, then it is gone forever.

I love the countryside, but it has evolved over the centuries due to farming and farming needs large expanses of land which is slowly being reduced.

I seriously contest the need to provide housing for the Black country. Firstly, the only reason people from the Black Country will buy houses in Albrighton is because they cannot buy a house near to their own community. They will have no allegiance to the village and they will be living on the periphery. This will create an atmosphere of "them and us" which is damaging to both groups of residents.

Then people will have to drive to work, which could be back in the Black country and also to visit family and friends. This will add to driving times and pollution and congestion. The main A41 into Wolverhampton is already very busy and long queues form in rush hour. This will become worse. The alternative would be to use the M54 and most traffic will then drive through the village to get to the M54 if there is a large housing estate at the top of Cross Road. On many occasions over the years, houses have flooded along with roads and fields. There is inadequate drainage in the area. With a large development comes the need for extra storm drains to take away the rain water that would otherwise have soaked into the ground. It seems not to be the responsibility of developers to deal with the drainage of rain water beyond the new housing estate and so the problem of flooding in the area will only get worse and affect both older properties and new build homes indiscriminately.
