I am a local small business owner and my involvement in the local community

These activities all give me an in-depth understanding of
the level of strong feeling that the proposed developments have amongst our community.

It is my/ our belief and understanding that The Local Plan gives protection to Greenbelt areas in Albrighton. During a climate emergency, protecting against threats to green spaces is paramount for not just this village and local area but those that an entire Planet currently face.

Are our local council and planning board(s) going to join the throng of governments and big business owners to also ignore the evidence put forward by respected scientists worldwide by continuing to destroy and replace natural habitats and greenfield sites with yet more concrete, clogged roads and ill-designed drainage systems?

This land has been earmarked as greenbelt and this is protected land for a reason. I am in agreement that there should be 3 sites safeguarded from development in Albrighton so they are kept clear to be built on after 2038 as previously agreed

Character and community have already been decimated on local towns (once villages) such as Newport and now Shifnal, thanks in no small part to rapidly approved and thrown up developments lacking in infrastructure in place to support them (new Albrighton plans show drawings with surgery and schools without any further supporting evidence that these will be built – all hollow words spoken of by the developer at recent consultation meetings were hollow, voiced without any proven backing and purely anecdotal)

We as supporters of the AVAG committee will not support for areas outside current sites be released from Greenbelt now or in the future - especially not the Boningale Homes proposed Albrighton South sites P36A and P36 (Boningale Homes – residents of the village with a known/ proven track record of “not in my back yard, just everyone else’s” mentality)
