Hello My name is Louise Brierley I have lived in Albrighton for years, I chose to move to the village because of the rural location and the close knit community of the people who live here. It is currently a lovely place to live with thriving high street with many local businesses choosing to trade here. The location is perfect for me , but the village allows me to relax and have a peaceful homelife that has good links to amenities.

I have read and studied the Shropshire local plan it helps protect the green belt and the environment that is so important to Albrighton, it also ensures control over excessive housing and development whilst addressing community facilities.

Shropshire Local plan additional sustainability appraisal report
12.1 – 12.3

The appraisal report identifies that Shropshire council has looked at numerous sites for future housing development and has identified the best place to fulfil the need as being Tasley, Shrewsbury and Ironbridge power station.

12.4

Albrighton has a couple of sites identified for future housing after Millfield; ALB017 and ALB 021, no other sites should be made available especially green belt sites or for any Black country Need. This should only be reviewed after 2038.

Sites P36A and P36B have within the local plan appendix 3 identified that these sites should not be built on because they are not suitable for housing, they are green belt, they will cause traffic issues, near listed buildings and will impact nature and local wildlife.

Therefore please do not let developers build on this important land

Shropshire local plan updated green belt topic paper

6.4- 6.8

Any developers that try to build on greenbelt land around Albrighton should be removed, with any new buildings for employment be placed at RAF Cosford and in smaller buildings

6.13

Albrighton is not the right place for the unmet Black Country housing needs, any proposals that are submitted should be rejected
