Re: Cleckersfield

Alveley - Planning application for building
35 homes

Dear Planning Dept, Shropshire Council.

I have been unable to access your online
comments via your website.

Please note I strongly oppose this application
for building more houses on green belt land
in Alveley. There is no requirement for further
housing, there is already provision for sports and
recreation with a brand new cricket ground, club
house, recreation field and tennis club.

The surrounding beautiful countryside should not be
used to build more houses. There has already
been recent properties built on the former Navburgh
carriage site opposite the Spinal Pub/entrance to
village.

There are also plans to use field off Daddlebrook
road which would allow room for further houses if
still required.

Yours
