Local Insight

Local Insight provides instant access to the information you need for the neighbourhoods you care about.

We bring together small-area social and demographic data in one easy to use and intuitive platform. You can explore data for any area you are interested in through maps, dashboards and reports.

Find out more at: localinsight.org

OCSI

We combine expertise in research and technology to support organisations working for social good to make evidence-based decisions. We have worked with more than 250 public and community sector organisations from local to international level.

Our research and services are based on unrivalled knowledge and use of place-based social, economic and demographic data.

Find out more at: ocsi.uk

About the indicators

OCSI routinely collect all small-area data published by more than 50 government agencies and other reputable bodies. We identify key indicators relevant to local authorities, grantmakers and charities to include within this report and the Local Insight platform.

We manage and maintain all the data and provide comprehensive metadata so that you can be confident you are using the most up-to-date data.

How we have identified the area of Shropshire Local Authority Area

Index of Multiple Deprivation (IMD)

The following visualisations draw upon data from the Index of Multiple Deprivation (IMD) to give insight into vulnerable populations in Shropshire Local Authority Area, England, Shropshire. The Indices of Deprivation 2019 are a relative measure of deprivation for small areas (Lower-layer Super Output Areas) across England. The overall Index of Multiple Deprivation 2019 combines together indicators under seven different domains of deprivation: Income Deprivation; Employment Deprivation; Education Skills and Training Deprivation; Health Deprivation and Disability; Crime; Barriers to Housing and Services and Living Environment Deprivation. A higher score indicates that an area is experiencing high levels of deprivation.

The table below shows the IMD score and rank (average LSOA Rank, where a lower rank indicates that an area is experiencing high levels of deprivation) for Shropshire Local Authority Area, England and Shropshire.

Shropshire Local Authority Area has an IMD score of 17.15. This means that Shropshire Local Authority Area has lower levels of deprivation to England (21.76) and similar levels of deprivation to Shropshire (17.15).

Oxford Consultants for Social Inclusion Ltd. All rights reserved.

Index of Multiple Deprivation (IMD)			
Indicator	Shropshire Local Authority Area	England	Shropshire
Index of Multiple Deprivation 2019 (IMD) Score (2019)	17.15	21.76	17.15
Index of Multiple Deprivation (IMD) 2019 Rank (2019)	17,965	16,356	17,965

Source: Ministry of Housing Communities and Local Government (MHCLG) 2019

The bar chart below explores this further, showing the proportion of people living in neighbourhoods grouped into deciles according to level of deprivation derived from the IMD. A higher score on the IMD indicates that an area is experiencing greater levels of deprivation. To clarify, all neighbourhoods in England are grouped into ten equal sized groups “deciles”; neighbourhoods in decile 1 fall within the most deprived 10% of neighbourhoods nationally, whilst neighbourhoods in decile 10 fall within the least deprived 10% of neighbourhoods nationally.

Proportion of people in each deprivation decile

Crime and Anti-Social Behaviour Incidents

Indicator	Shropshire Local Authority Area		England		Shropshire	
	Count	Rate	Count	Rate	Count	Rate

Source: Police UK (Police recorded crime figures)

The line chart below shows a time series made up of 12 month totals of neighbourhood-level incidents of criminal offences. The figure is a rate per 1,000 residents. The first data point covers Sep-2018 to Aug-2019 and the final data point covers Jun-2023 to May-2024.

The overall crime rate in Shropshire Local Authority Area has increased from 82.7 per 1,000 people between Sep-2018 to Aug-2019 to 85.3 per 1,000 people between Jun-2023 to May-2024.

Please note there can be missing data in Police.uk crime counts for certain areas. This is often due to issues with IT system changes at various police forces such as Devon and Cornwall, and Greater Manchester currently, which affects their reporting of figures to Police UK. Please see the [Police UK change log](#) for details of current known issues.

Communities and Environment

The following data is a summary of key indicators related to the community and environment.

The first chart below shows the overall rank on the 2023 Community Needs Index (CNI), as well as a rank on each of the three CNI domains for Shropshire Local Authority Area, England and Shropshire.

The CNI was developed to identify areas experiencing poor community and civic infrastructure, relative isolation and low levels of participation in community life. The index was created by combining a series of 28 indicators, conceptualised under three domains: Civic Assets, Connectedness and Active and Engaged Community. A lower rank indicates that an area has relatively higher levels of need.

- **Civic Assets:** measures the presence of key community, civic, educational and cultural assets in a close proximity of the area. These include pubs, libraries, green space, community centres, swimming pools – facilities that provide things to do often, at no or little cost, which are important to how positive a community feels about its area.
- **Connectedness:** measures the connectivity to key services, digital infrastructure, isolation and strength of the local jobs market. It looks at whether residents have access to key services, such as health services, within a reasonable travel distance. It considers how good public transport and digital infrastructure are and how strong the local job market is.
- **Active and Engaged Community:** measures the levels of third sector civic and community activity and barriers to participation and engagement. It shows whether charities are active in the area, and whether people appear to be engaged in the broader civic life of their community.

Shropshire Local Authority Area has an overall CNI rank of 16,033. This means that Shropshire Local Authority Area has higher levels of community need than England (17,040) and higher levels of community need than Shropshire (16,033).

CNI Rank

The table below shows the Indices of Deprivation Air Quality Measures. For each pollutant the atmospheric concentration was compared to a national standard value, with the concentrations in each Lower-layer Super Output Area divided by the appropriate national standard, before summing to produce a single indicator. A higher score indicates that an area is experiencing relatively higher levels of deprivation.

Based on the IoD 2019 Air quality indicator - Shropshire Local Authority Area has lower levels of air pollution (0.555 IoD score) than England (0.957 IoD score) and lower levels of air pollution than Shropshire (0.555 IoD score).

Indices of Deprivation Air Quality Measures

Indicator	Shropshire Local Authority Area	England	Shropshire
IoD 2019 Air quality indicator (2016)	0.555	0.957	0.555
IoD 2019 Benzene (component of air quality indicator) (2016)	0.044	0.098	0.044
IoD 2019 Nitrogen dioxide (component of air quality indicator) (2016)	0.187	0.430	0.187
IoD 2019 Particulates (component of air quality indicator) (2016)	0.300	0.395	0.300
IoD 2019 Sulphur dioxide (component of air quality indicator) (2016)	0.025	0.034	0.025
IoD 2019 Road traffic accidents indicator (2015 to 2016)	0.418	0.739	0.418

Access and Transport

The following data is a summary of the main access and transport related indicators.

The table below shows the proportion of households according to their ownership of a car or van. This is based on responses to the car ownership question in the 2021 Census which asks information on the number of cars or vans owned, or are available for use, by one or more members of a household. This includes company cars and vans available for private use and is based on details for private households only. Cars or vans used by residents of communal establishments are not counted.

In Shropshire Local Authority Area, 13.81% of households have no access to a car or van. This is less than the proportion without access to a car or van in England (23.54%) and similar to the proportion without access to a car or van in Shropshire (13.81%).

Car or van ownership			
Indicator	Shropshire Local Authority Area	England	Shropshire
Households with no car (Census 2021) (2021)	13.81%	23.54%	13.81%
1 car or van in household (Census 2021) (2021)	40.12%	41.28%	40.12%
2 cars or vans in household (Census 2021) (2021)	32.03%	26.06%	32.03%
Households with 3+ cars (Census 2021) (2021)	14.04%	9.12%	14.04%

Source: UK Census

The bar chart below shows the proportion of households with no car or van in the 2021 Census alongside the proportions from previous Censuses to identify changes over time.

In 2011, 15.80% of households in Shropshire Local Authority Area had no access to a car or van. This is greater than the proportion without access to a car or van in 2021 (13.81%).
