Market Town Profile

Ludlow

Ludlow's recorded history begins in 1086 when the impressive castle was first developed, as one of a line of castles along the Marches to keep out the Welsh. The local Norman overlords, the De Lacy family, who decided to situate Ludlow Castle also decided to develop a new settlement. Ludlow was a planned town, and was developed around a grid network of streets, adapted to fit the local topography. The wide main streets were intersected by narrow side streets, with the flow of people drawn to the centre for the market, church and castle. The area of settlement was probably the wide market place to the east of the castle gates. As the town continued to grow, it joined the ancient north-south road, now called Corve Street to the north and Old Street to the south. Mill Street and Broad Street were added later.

Ludlow today, is a thriving medieval market town and an architectural gem with many Georgian and black and white buildings. The Castle which stands at the heart of the town is the most famous attraction. The historic town centre is situated on a cliff above the River Teme and is surrounded by the beautiful countryside of south Shropshire and the Welsh Marches.

Ludlow is renowned for its quality food and local producers with a farmers markets selling local produce and independent butchers, bakers, delicatessens and food shops. It is also home to many high quality restaurants and hosts the famous Food Festival each September. Industries include precision engineering, cabinet making, and the manufacture of agricultural machinery. Tourism is now particularly important, with the town's visitors contributing greatly to the retail and hospitality sectors. Agriculture is also important part of Ludlow's function as a market town serving a wider rural area.

Ethnicity

The latest ethnicity data is taken from the 2011 census. The next census is due in 2021 with the results likely to be published from 2023. To help provide an indication of changes to ethnicity data the number National Insurance registrations to adult overseas nationals entering the UK are shown. These numbers should only be used as an indication of population changes. A registration does not mean that a national has made permanent residence or has remained in the area.

The numbers shown are based on Middle Layer Super Output Areas. These areas are larger than the lower layers described in the population map.

There is one middle layer that covers the Ludlow town centre. This layer extends further than the 8 lower level layers that cover the town council area and extends to the surrounding rural hinterland.

Where registrations, in a year are less than 5 from any nation the numbers are withheld to prevent identification of individuals. Therefore small numbers of other nationality registrations will have been made. The total number of overseas NI registrations from 2012 to 2016 in Ludlow was 145.

The number of national insurance registrations provided to adult oversea nationals includes 22 from Poland, 15 from Romania, 14 from Spain, 13 from both Hungary and France.
Ethnicity and Religion

Ludlow is home to a number of churches and chapels which reflect the majority of the population who have a Christian faith.

Multiple Deprivation

The Index of Multiple Deprivation (IMD 2015) is designed to identify areas where communities lack resources and are in need. To do this, seven factors are considered, which are:

- Income deprivation
- Employment deprivation
- Health deprivation and disability
- Education deprivation
- Barriers to housing and services
- Crime
- Living environment deprivation

Ludlow has one area of deprivation within the most deprived 20% nationally. This area is located in Ludlow East electoral division and encompasses the Sandpits area. There is also one area within the 30% most deprived nationally this area falls into Ludlow North division. There is also an area falling into the 40% most deprived nationally in the north east of the town. [https://www.gov.uk/government/statistics/english-indices-of-deprivation-2015](https://www.gov.uk/government/statistics/english-indices-of-deprivation-2015)
Economy

Ludlow is the third largest employment centre in Shropshire and is the main location of businesses and jobs in the south of the County. 588 businesses have registered offices in Ludlow (Source: MINT (Bureau van Dijk), July 2017) which is 3% of the Shropshire total and approximately 4,700 people are employed in the town (4.1% of the Shropshire total).

Over the last five years, the number of jobs in Ludlow has risen by 4.8%, or by 200 jobs, which is the equivalent of an increase of 40 jobs per annum. In comparison, the number of jobs in Shropshire rose by 2.9% over the same period.

Source: Business Register and Employment Survey, Office of National Statistics, Crown Copyright 2017
Part-time employment is more common in Shropshire than it is regionally or nationally, and its prevalence is even more pronounced in Ludlow as illustrated in the chart below.

Across Shropshire, the number of public sector jobs has fallen by 4,800 since 2010 (-18.3%) while the number of private sector jobs has risen by 8,000 (+9.4%). The share of all the jobs attributable to the public sector has declined from 23.3% in 2010 to 18.4% by 2015. The loss of public sector jobs has also impacted on employment in Ludlow, with 300 jobs lost between 2010 and 2015 (-33.3%). This loss has, however, been more than compensated for by the private sector, with employment rising by 500 (+12.4%). The share of employment held by the private sector is higher in Ludlow, at 89.3% than it is for Shropshire.
Employment Sectors

The three largest employment sectors in Ludlow are retail, health and professional services. Together these account for 41.4% of employment within the town. Retail is typically over-represented in towns, and accounts for 16.3% of Ludlow employment compared with 10.4% in Shropshire. Health meanwhile, despite being the second largest sector, is slightly under-represented, accounting for 13.1% of jobs against 14.7% for the whole of Shropshire. Professional services, on the other hand, is significantly over-represented, absorbing 12% of employment compared with 6% county-wide. Other sectors accounting for more than 5% of jobs include accommodation and food service, manufacturing, education, arts, entertainment and recreation as well as wholesale.

The adjacent table shows the employment sectors in Ludlow that are represented within the 20.5% of jobs designated as “other” in the chart above. Compared with Ludlow is under-represented in construction, transport and storage, property, business administration and public administration and defence. Although they account for only a small proportion of employment, Ludlow is over represented in motor trades and finance and insurance.
The following organisations are identified by the business directory MINT as being the largest employers in Ludlow. This suggests that there are only ten employers with a workforce of 30 within the town centre boundary.

Large employers which are not included within the adjacent table include national retail stores, of which there are several in Ludlow. The largest retailers in the town include Tesco and Aldi.

More than four-fifths of businesses in Ludlow employ less than 5 people. An additional 10% employ between 5 and 9. Less than 5% have a workforce of 20 or more.
Business Rates

565 establishments have a rateable value in Ludlow and the combined rateable value of these organisations is £10.2 million. This is the equivalent of 4.4% of the total rateable value of all businesses in Shropshire.

363 businesses have a rateable value of less than £12,000, which means that they are eligible for 100% small business rate relief. Just 35 (6.2%) have a rateable value of more than £51,000.

288 businesses have a floor space of less than 100m\(^2\), while just 22 have floor space of more than 1,000m\(^2\). The largest organisation covers more than 15,000m\(^2\).

The majority of organisations on the Ludlow business rates list are classed as commercial—primarily retail outlets and offices. These account for 80% of the total. Industrial is the second largest classification, accounting for 10.3% of the total.
Economic Activity

The status of Ludlow residents aged 16-64 at the time of the 2011 Census showed 79.7% of residents were economically active, which includes people who are both employed and actively seeking employment. This is very slightly lower than the Shropshire figure of 80.1%. Economic activity rates in Ludlow (and Shropshire) compare favourably with those in England (77%) and the West Midlands (75.8%).

Of those who were economically active, 74.7% were in employment while 5.1% were unemployed. This compares with 75.8% and 4.3% for Shropshire as a whole and with 71.2% and 5.8% for England. At the time of the Census, therefore, unemployment was a slightly more pronounced issue in Ludlow in relation to Shropshire but compared favourably with the national average.

Of the 4,717 Ludlow residents in employment, the majority are employees (82.6%) while the remainder are self-employed. 66.9% of employees work full-time compared with 71.2% of the self-employed.

Self-employment is notably higher in Shropshire than it is nationally, accounting for 13.5% of 16-64 year old residents (10.5% in England). Typically, levels of self-employment are lower in the County’s market towns, especially the main employment centres. However, in Ludlow the percentage is only slightly lower than the average for the County at 13%.
Economic Inactivity

1,280 Ludlow residents aged 16-64 were economically inactive in 2011, which represents just over a fifth of the age cohort. These people – representing those who are neither working nor seeking employment – include those who are retired, full time students, those looking after family or the long term sick. The proportion of the Ludlow population which does not participate in the labour market is on a par with the average for Shropshire.

The following chart shows the breakdown of the economically inactive population in Ludlow, Shropshire, the West Midlands and England according to the reason why they do not participate in the labour market. These figures relate to the 16-74 population rather than to 16 to 64 year olds.

It is apparent that a higher proportion of economically inactive Ludlow residents are inactive because they are retired than is the case across Shropshire and significantly more are retired compared with the West Midlands and England. Compared with Shropshire, a significantly lower proportion are students.

Employment by Occupation

The percentage of Ludlow residents working in Standard Occupational Classifications (SOC) groups 1 to 3, the professions is low, with 30.6% of residents in work employed as managers, directors and senior officials, in professional occupations or in associate professional and technical occupations compared with 38.9% in Shropshire. 11.2% work as managers, 11.2% in professional occupations and 8.2% in associate professional occupations. A higher proportion are employed in lower level occupations, including elementary occupations (14.3% compared with 11.3% for Shropshire) and process, plant and machine operatives (8.1%) compared with 7.4% for Shropshire). A high proportion of Ludlow residents work in skilled trades occupations at 18% of the total (15.2% for Shropshire).

Source: 2011 Census
Qualifications

According to the Census 2011, 23.9% of residents had a level 4 qualification or above, less than the Shropshire average of 29.4%. In total 17.4% of people had no qualification. This is higher than the Shropshire average (14.0%). The qualification profile of Ludlow residents reflects the type of employment that is prevalent amongst the working population, with fewer working in managerial or professional occupations and more in elementary occupations.

Unemployment

Jobseeker’s Allowance (JSA)/Universal Credit is payable to people under pensionable age who are available for and actively seeking work. The chart below shows the number claiming this benefit in Ludlow between January 2013 and July 2017 and it is evident that numbers have declined substantially since the start of this period when the country was still in the wake of the economic downturn. The number of claimants began to level off in the summer of 2015, since when it has fluctuated between 75 and 100 people.

In July 2017, 100 Ludlow residents were claiming JSA/Universal credit, which is 52% lower than the 210 who were claiming in January 2013. The claimant rate in Ludlow (the percentage of the 16-64 population which is claiming) is slightly higher than the average for Shropshire (1.5% compared with 1.1%). This rate is, however, lower than for either Great Britain (1.9%) or the West Midlands (2.4%).

Benefits Claimants

The following table shows the number of benefit claimants by type in Ludlow in February 2017. The most common benefit is employment and support allowance (ESA), claimed by 335 people.

State Pension

In Shropshire there were 76,250 people claiming state pension in February 2017, claiming an average of £140.29. The number of claimants has risen by 27.2% since February 2003. The rise in claimants in Ludlow has been comparable at 24.9%, which has taken the number of claimants to 3,315. This represents 4.3% of the Shropshire total.
Travel and Commuting

The most commonly used method of transport to work for Ludlow residents who work was to travel by car or van. 37% of workers drove to work, while an additional 4% were a passenger in a car or van. More Ludlow residents work primarily from home than is the case nationally (4% compared with 3%), but this is less than the Shropshire average of 6%. A relatively high number walk to work (15% compared with 9% for Shropshire and 7% for England). There were considerably fewer people travelling by public transport than is the case nationally. This is a pattern familiar to many rural areas.

Source: 2011 Census
Car or Van Availability

Car ownership is high in Shropshire, which is typical of a rural area. Just 15.8% of households in the County do not have a car or van compared with a 25.8% of households nationally according to the 2011 Census. The proportion of households without a car in Ludlow is much closer to the national average, at 24.4%.

48.4% of households have one car, 21.7% have two cars while 5.5% have three or more. The total number of cars and vans owned by Ludlow households stood at 5,699 in 2011.

Source: 2011 Census
Commuting Patterns

Ludlow (place plan area) supports a higher level of employment self-containment than any other Shropshire market town with the exceptions of Shrewsbury and Oswestry, both of which are much larger localities. Relatively limited access to employment outside the immediate local area clearly influences this. 44.2% of all Ludlow jobs are filled by Ludlow residents while 52.4% of working people who live in Ludlow also work there, which gives an overall level of self-containment of 47.9%. The differential between the number of resident workers and the number of jobs is relatively small, with net in-commuting across the Ludlow place plan border standing at 724. This equates with 1,856 people living in Ludlow but working elsewhere and 2,580 people working in Ludlow but living elsewhere.

Job density in Ludlow is comparatively high with 1.19 jobs per resident worker compared with 0.95 in Shropshire. As illustrated in the chart below, the only other towns where the number of jobs exceeds the resident workforce are Albrighton, Ellesmere and Shrewsbury.

Note: Data relates to Mid Super Output Areas (MSOA) aligned as closely as possible to Shropshire place plan areas
Origins and Destination of Workforce

Other than Ludlow, the rest of Shropshire is the main source of workers for Ludlow jobs, with significant numbers also commuting into the town from Herefordshire. Likewise, a significant proportion of Ludlow resident workers who are not employed in Ludlow work elsewhere in Shropshire, with significant numbers also crossing the border to work in Herefordshire.

Health

Residents of Shropshire generally enjoy better health than across England as a whole with a healthy life expectancy being higher than average. Life expectancy in Shropshire is also higher than the national average. Life expectancy for births in Shropshire between 2013-15 are 80.3 for males and 83.8 for females. This compares to an average of 79.5 and 83.1 for England. Despite this there are areas in Shropshire where health inequalities may exist. The index of deprivation, shown on the following map, highlight the areas where there are higher degrees of deprivation. The life expectancy variation between the least and most deprived health areas in Shropshire is equivalent to 4.2 years for men and 3.3 for women.

This domain measures the following:

- Years of potential life lost (2008 to 2012)
- Comparative illness and disability ratio (2013)
- Acute morbidity (2011/12 and 2012/13)
- Mood and anxiety disorders (2008 to 2013)

Ludlow has one area of health deprivation within the most deprived 20% nationally. This area is located in Ludlow East division and covers the Sandpits Estate area. There is also another area within Ludlow North division which falls into the 30% most deprived nationally.

Of the 10,939 residents of Ludlow in the last census reporting on their health conditions:

1080 reported that their day-to-day activities were limited a lot.

1383 reported that their day-to-day activities were limited a little.

8,476 reported that their day-to-day activities were not limited.

The rate of people expressing that their day-to-day activities were limited a lot was 9.9% which is higher than the rate for Shropshire 8.4% and England 8.3%.
Health Conditions

At the time of the 2011 Census, 78% of residents in Ludlow said that they felt they were in very good or good health. This was lower than the Shropshire and England average of 81%. In contrast, 5.1% of people said their health was bad and 1.3% said their health was very bad.

In Ludlow, at the time of the 2011 Census, there were 5,173 households, 5,521 dwellings and 30 Communal Establishments housing 141 people. The largest proportion (42.5%) of houses in Ludlow were owned outright, greater than the Shropshire figure of 39%. 17.8% of households were social rented housing, this was greater than for Shropshire as a whole (13.5%) but similar to England (17.7%).

There were a similar number of houses privately rented 14.4% compared to 15% for Shropshire and 14% for England. In Ludlow there are 825 registered social landlord (RSL) homes. These homes are owned by a range of RSL’s.
The table shows affordability ratios for housing in Shropshire. The income data relates to Shropshire Place Plan areas which are a slightly broader geography than market towns, and take account of hinterlands.

The table shows that in Ludlow a household with a median household income of (£26,811.17) would need 6.8 times this income to afford a median priced house (£183,500) as of year end 2016. This is higher than a ratio of 6.6 for Shropshire and lower than 7.5 for England. Ludlow area has the 6th highest ratio in Shropshire.

For households within the lower quartile household income (£14,899) the affordability ratio for a lower quartile priced house (£130,000) was 8.7, lower than for Shropshire as a whole with 9.0 and England, 8.9.

*Lower quartile house prices and earnings are used together to indicate how affordable it is for people on low incomes to afford a house in Shropshire.
Housing Developments

Shropshire’s Core Strategy (March 2011) sets out the strategic vision and objectives to guide development and growth for the period 2006-2026. This includes a vision for Ludlow.

Detailed proposals to deliver the strategic vision within the Core Strategy are contained within the Site Allocations and Management of Development (SAMDev) document which together with the Core Strategy forms Shropshire’s Local Plan for 2006-2026.

Consultations on the Local Plan Review Preferred Scale and Distribution of Growth for the period to 2036 were presented to Cabinet on 18th October 2017.

Transport and Infrastructure

Ludlow is a rural market town situated close to its one main road, the A49 which heads north to Shrewsbury (29 miles) and south to Hereford (23 miles). The A456 is 5 miles south of the town centre and provides travel east to Kidderminster.

Railway

Ludlow has a railway station which provides direct links north to Shrewsbury and Manchester, whilst south towards Hereford and Cardiff.

Airports –

The nearest main international airports to Ludlow are:

Birmingham Airport, Marston Green, Birmingham, B26 3QJ – 60 miles East of Ludlow.

East Midlands Airport, Castle Donington, Derby DE74 2SA – 91 miles North East of Ludlow.

Bristol Airport BS48 3DY - 91 miles South of Ludlow.

Light aircraft facilities are available at:

Milson Airstrip, Little Down Farm, Milson, Kidderminster, DY14 0BD [http://www.milsonairstrip.co.uk/index.html](http://www.milsonairstrip.co.uk/index.html) 10 miles east of Ludlow.

Broadband

Digital connectivity is viewed as an increasingly important factor for business success, and nowadays broadband speed is a vital consideration when businesses are looking to relocate.

Superfast broadband is being rolled out across Shropshire, and nearly all premises in Ludlow have access, or will have access within the next two years, to infrastructure that allows downloads speeds of at least 30 Mbps. Just 5 premises (0.1% of the total) are expected to have speeds that fall below this threshold. All premises in Ludlow (and throughout most of Shropshire) are supplied by just one infrastructure provider.
The Crime Domain comprises four underlying indicators, each one accounting for a proportion of the total Crime domain score. They are weighted as:

- Violence – 32.4%
- Criminal damage – 26.5%
- Theft – 22.2%
- Burglary – 18.9%

In Ludlow one LSOA located in the centre was ranked within the 30% most deprived nationally. One area east of the town centre was ranked within the 40% most deprived nationally. As you would expect crime reduces the further away from the centre. As with any town the town centre often has higher levels of crime especially due to the night time economy and retail crime.
Overall levels of crime in Shropshire are low. Town centres generally experience higher rates of crime through anti-social behaviour and shoplifting. Police data shows that the highest category of crime in the Ludlow area is anti-social behaviour which accounted for 40% of reported crimes in the year to July 2017. Latest crime data and more precise details of localities and investigations can be found by using the police crime map at [https://www.police.uk/](https://www.police.uk/).
